

PLANS IN MAKING FOR YULETIDE

Charitable Organizations Prepare to Give Necessities for Christmas

Preparations are being made by charitable organizations, churches and different associations to give the poor of the city a merry Christmas by supplying them with provisions and clothing. It is estimated that there are 200 poor of the city which will be aided by welfare workers from organizations interested, and the plans are to centralize the work as much as possible.

The local post of the Salvation Army, while its budget is not as large this year as last, is making every attempt to collect clothing to supply those who are in need and who are already applying for aid. There are innumerable families in need of help throughout the city, but are too proud to ask assistance from charitable societies. The post will place its "boiling pots" on every street corner down town on Saturday, the proceeds from which will be used in the purchase of food to be distributed on Christmas day to the poor.

The Red Cross, it was announced this morning, will do no general charitable work, but will devote its efforts in assisting ex-service men and their families.

The Jason Lee M. E. church has already begun the collection of clothing and work repairing and putting it in a wearable condition is being carried on. The church is also planning a Christmas tree and entertainment sometime before Christmas to which the public is invited.

While the Charitians have never been a charitable organization, their part in the Christmas activities of the city will be to keep the large tree on the court house lawn lighted during the holidays.

The newly organized associated charities has not been in existence long enough to make plans for Christmas provisions, and other than seeing those who have applied to officials for aid, are not in actual want, nothing has been done along this line.

Advance in Price of Gasoline and Oils Is Predicted

Chicago, Dec. 8.—Crude oil and its by-products including gasoline, will cost more in the future than they do at present, because of the difficulty experienced in getting at the oil, Frank Haskel, president of the Tidal Oil company, told the American Petroleum Institute today.

He said that the first paying wells drilled in the mid-continent fields were shallow, but that it is now necessary to go deeper, with proportionate rise in the cost of drilling the wells.

Mh. Haskel said nearly every state in Mexico contains oil and there is much in untouched fields in South America.

Albany, N. Y., Dec. 8.—Former Governor Martin H. Glynn of New York state, through whom Prime Minister Lloyd-George invited Eamonn DeValera to negotiations that finally led to an agreement for settlement for the Irish question, said today that the world owed Lloyd-George a debt of gratitude.

"Lloyd-George has settled a problem that has baffled statesmen for seven hundred years," said Mr. Glynn. "And in all justice to the Irish leaders, it must be admitted that DeValera, Collins and Griffith have placed themselves among the clever statesmen of the world. The settlement of the Irish question is a great Christmas gift to humanity."

Mrs. Irvine L. Lenroot, wife of the republican senator from Wisconsin, is the president of the Congressional Club, membership of which is limited to wives of senators and congressmen.

Shipments of Boxed Apples Show Big Gain

Boxed apple shipments are 70 per cent heavier than they were a year ago according to figures just issued from the department of agriculture while barreled apple shipments are up to the present less than half what they were at that time. This is accounted for by the crop failure in the barreled apple sections. Cold storage holdings are far below those of last year, and even below the average for the last five years.

The apple market has shown a downward trend throughout the season and much of the fruit which has gone into storage is now worth much less than when it was stored. Unless there is a decided advance in the market the holding game will prove to a losing one.

Dallas Knights Elect Officers

Dallas, Or., Dec. 8.—The annual election of officers in the Knights of Pythias lodge called for one of the largest gatherings of Marmion lodge which has been present for a number of months. More than a hundred came out to participate in the election which was followed by initiatory work in the squire rank. A large delegation from Falls City came down and brought the candidate who was ushered through the work by the local team.

The officers chosen were: Chancellor, O. E. Worden; vice chancellor, L. D. Leighton; master of arms, Dell Plaster; master of work, Ralph Morrison; master of finance, Doc Patterson; master of exchequer, Fred West; inner guard, Dr. L. A. Steeves; outer guard, J. D. Hatton; trustee for three years, Charles E. Lynn.

W. J. Eleven Has No Dallas Date Officials State

Washington, Pa., Dec. 8.—The Washington and Jefferson college football team, which has accepted an invitation to play at the Tournament of Roses at Pasadena, Cal., January 2, has no game scheduled for that date at Dallas, Texas, according to R. M. Murphy, athletic director of W. and J. commenting today on the report from Los Angeles that the University of California officials would withhold decision as to whether the Pacific coast grid-ders would meet W. and J. until the latter team cancelled the Dallas engagement. Mr. Murphy declared that the Presidents had no game scheduled at Dallas and that they would not play football again until they take the field at Pasadena.

Honolulu, Dec. 8.—The people of Australia are "waiting with eager interest" to ascertain how far America is going to "assist Great Britain in maintaining the peace of the Pacific," according to word brought here by Sir Arthur Rickard, prominent Australian business man and president of the Australian branch of the Pan-Pacific Union. He also expressed the opinion that "the future of the countries bordering the Pacific depends on nothing more than an unbreakable bond between the English-speaking people residing in those countries." The titled Australian was in Hawaii for a vacation and did not represent either the British or Australian governments in an official capacity.

Man Says He Can Petrify Woods

Long Beach, Cal., Dec. 8.—Nature has met another rival. This time it is a southern California man, who claims he is able to petrify wood.

Assertions to this effect were made by C. R. Edwards, an explorer, of this city, who said he was able to petrify wood in a remarkably short period of time.

Edwards related that he noticed that the ground in the vicinity of petrified forests was heavy in mineral content and that he believed the trees became petrified when the minerals were drawn into the tree cells in liquid form.

Edwards set to work to duplicate nature's feat and stated that his experiments have met with success.

A bad wound, burn or cut should be cleansed of dirt or impurities and dressed with Liquid Borozone. It heals the flesh with marvelous speed. Price, 30c, 60c and \$1.20. Sold by Dan J. Fry.—Adv.
