Detrot, Dec. 24.—"He dealed me love and when I told him life without love was driving me to thoughts of suicide he thrust a revolver in my hand and told me to "go to it," declared Mrs. Rose Pecteau in explanation of her divorce suit against her husband, George M. Fecteau, proprietor of a chain of men's wear stores here.

West Sale

George M. Fecteau is a suppressed case, and although the divorce has been pending sevral months the fact became known only when Mrs. Fecteau's attorneys unsuccessfully sought an niventory of her husband's property and had the case put over on the court calendar for January 10.

'I loved him, loved his two children as I would my own, but he left me to go on 'business trips' to Chicago and St. Louis,' she says.

Unable, she says, to bear living with Fecteau longer Mrs. Fecteau left him last September, since which time he has been contributing \$32.50 a week toward her support.

Mra. Fecteau, as Rose Morrison, was a nurse in her home town, Hudson Falls, N. Y., when she met Fecteau. A brief and whirlwind courtably followed. Then they married and after a honeymoon in New York and Atlantic City they came to Detroit, where she was introduced to his two motherless daughtetrs.

In the motion of the wife for an inventory of her husband's property Mrs. Fecteau's counsel said Fecteau was worth about \$1,000,000.

This Fecteau's counsel said Fecteau was worth about \$1,000,000 arm nearer correct. Fecteau has filed a cross bill against his wife.

California Growers Quote 30-40s at 14 Cents-Others Are it Proportion

The California Prune & Apricot Growers' association has advanced the price of prunes three-fourths of a cent a pound over its opening prices on 1921 prunes. This applies to all sizes except 30-40s on which an advance of 1% cents has been made, according to authentic advices received late yesterday by the Oregon Growers Co-

operative association.
Prices now quoted by the California association on its 1921 stock packed in 25-pound boxes f. o. b. coast are as follows: 30-40s, 14c; 40-50s, 12c; 50-60s, 19c; 60-70s, 9c; 70-80s, 8c; 80-90s, 74c;

So-100s, 7c.

The advance in the California holdings will make it possible to advance prices on Oregon prunes which the Oregon Growers will do within a few days.

Recent reports from the New York market report considerable trading in small sized prunes. Of these sizes the Oregon association is completely sold out, holding no tialians smaller than 36-40s. On the other hand the California association has sold all of its larger
