

# ELECTION IS LEFT TO CARDINALS

## Governments Relinquish Rights to Veto Selection of Pope by Sacred College

Rome, Feb. 1.—(By Associated Press)—The sacred college will convene tomorrow in conclave for the election of a new pope. The Italian, French and Spanish governments, which formerly claimed the right of veto, have informed the Holy See semi-officially that they have no desire in the matter, the Italian government in addition issuing denial to the report that it favored Cardinal Maffi, archbishop of Pisa.

Thus, to all intents and purposes the four countries which have heretofore been most prominent in the conclave will have no influence at the forthcoming meeting.

Baron Beyens, Belgian ambassador to the Holy See, told the correspondent that a strong feeling for Cardinal Laurenti, secretary of the congregation of the propaganda apparently was growing as the conclave approached. He pointed out, however, that those whose names were most insistently mentioned had rarely been chosen and that it was probable, that although the next pope was certain to be an Italian, he would be selected from among the cardinals whose names had been virtually unmentioned.

The right of veto was never supported by any document or written concession, but Austria exercised, or attempted to exercise, the power at all the conclaves in the nineteenth century except that which selected Leo XIII in 1878, and it did so again in 1903, when it objected to Cardinal Rampollo.

Cardinal Sarto, who took the name of Pius X, was thereupon elected and in the next year suppressed by papal bull all right of veto or "exclusion" by secular government. The bull also forbade any member of the conclave from exercising such right on behalf of a government.

## French, Italian and British Envoy to Meet February 9

Paris, Feb. 1.—(By Associated Press)—The meeting of the foreign ministers of France, Italy and Great Britain to discuss Near Eastern questions, notably Asia Minor, which originally was set for February 1, has now been tentatively fixed for February 9, with Paris as the meeting place.

A postponement was requested by Lord Curzon, the British foreign secretary, because of his desire for more time to examine the French reply to the British memorandum regarding the treaty between France and the Turkish nationalists.

## Hines Claims Freight Rates Not Too High

Washington, Feb. 1.—Walker D. Hines, former director general of the railway administration, called here as a representative of the public by the interstate commission in its rate revision, testified that in his opinion railway earnings were too low to allow general reduction of freight charges and that business activity would not be stimulated by such a step if taken.

Mr. Hines estimated that "in the public interest, it probably is necessary for the railroads to spend on betterments and facilities, at least a billion dollars a year for some time to come."

"Looking over the statistics of railroad earnings during 1921," Hines said, "we can take it for granted that general reductions are not called for on the ground that earnings are too high."

## Rathenau To Be New Member of German Cabinet

Berlin, Feb. 1.—(By Associated Press)—Dr. Walter Rathenau, former German food controller and latterly German representative at various economic conferences with the allies, has been appointed German foreign minister. # SUCCESS OF TANLAC DUE TO MERIT ALONE

## Personal Recommendation of Celebrated Medicine by Persons It Has Restored to Health Is the Chief Reason for its Tremendous Success

Not a day passes but what thousands of people ask the questions: What is Tanlac? Why its phenomenal success? Why do we hear so much about it? The answer to these questions is not difficult.

Tanlac, Nature's Medicine, is a wonderful Reconstructive Tonic and body-builder. It is purely vegetable and is made from the most beneficial roots, herbs and barks known to science. The medicinal properties are readily taken up by the system, thereby aiding digestion, stimulating the appetite and assisting the stomach in converting the food into nourishing elements that build up tissue and nerve strength. There is probably not a single portion of the body that is not benefited by the helpful action of this remarkable medicine.

The system besides being purified and strengthened by Tanlac is toned up and invigorated. It quickly overcomes indigestion, non-assimilation of the food, nervousness, headache, backache, general debility and many other complaints that are so common to the thousands of half sick, depressed men and women.

Tanlac was designed primarily for the correction of disorders of the stomach, liver and bowels. At the same time, as stated above, it is a powerful Reconstructive Medicine, for it naturally follows that any medicine that brings about proper assimilation of the food and the thorough elimination of waste products must, therefore, have a far-reaching and most beneficial effect upon the entire system.

Probably eighty per cent of all diseases originate in the digestive organs. Dyspepsia, or what is

which starts this week continues until the middle. Every high school has entered a contest. winners will take part in debate tournament.

Open Shop Is Debated. Lincoln, Neb., Feb. 1.—"Open Shop or Closed Shop" is the subject of debate in the fifteen annual contest of the Nebraska High School Debating League.
