Journal Makes An Error--And It Corrects It

The Capital Journal, in its issue of April 3, made an error which is pointed out in a communication today received from Chief of Police Moffitt. The error is conceded and the facts are herewith submitted.

Saturday night two men were arrested for alleged traffic law violations. One was Colonel George A. White, adjutant general for Oregon, the other Ralph White. On Monday morning—two days later—there was no mention of either case on the police blotter. On Monday the Journal learned that George White had been arrested and Chief Moffitt was questioned.

"How fast was White going?" he was asked. "Twenty-six miles an hour," was the answer. "Are you going to arraign him?"

The chief hesitated. "I guess I'll have to," he said. "Inasmuch as there was—at that time—no notation on the police blotter of the arrest of either White, it was supposed that the White referred to was the adjutant general. Later the arrest of Ralph White was recorded on the blotter."

George White, who, according to the chief's communication, was brought to the station for having a defective headlight on his auto, was dismissed.

To the Editor:—I note in your paper under date of April 3 that I was quoted as saying that Geo. A. White, adjutant general for Oregon, had been arrested for speeding. Out of justice to Mr. White and the department, I wish to have this mistake corrected.

On the night in question there were two Mr. Whites brought to the police station: a Mr. Ralph White for speeding and a Mr. George White for speeding and a Mr. Geo. light on his auto.

The police blotter will show that Mr. Ralph White was fined, and that Mr. George White, after fixing a faulty plug in his light was dismissed.

VERDEN M. MOFFITT, Chief of Police. Salem, Oregon, April 5, 1922.

STATE-WIDE STAGE LINE ASSOCIATION IS PLANNED

A state-wide ticket system; a revision of all routes to prevent duplication; a blanket bond to cover cooperative and allied stage transportation lines; and application to operate under the interstate commerce act are points under consideration in the formation of an organization to be known as the Associated Stage & Terminal association of Oregon, according to L. R. Applegate of the Salem Central Stage Terminal, who has been conferring with different automobile men throughout the state.

About \$225,000 will be spent by the association in the construction of a number of limousine type stages which will be ready for delivery soon.

Terminal facilities will be established in all the principal cities of the state, Mr. Applegate said.

MEMORIAL DAY RACING PROHIBITED BY BOARD

That the state fair board had never been approached with a request for grounds race track for auto racing on Memorial day, and that if it had it would have denied such permission, was the statement of James R. Linn, president of the board, yesterday.

"Memorial day is a time set apart to honor the memory of the veterans of our wars and I am opposed to any move, particularly with such an organization as the state fair which will do anything to detract from the solemn purpose of that day," said Mr. Linn.

THOUSANDS PRESENT AT UNVEILING OF STATUE

Tuskegee, Ala., April 5.—Transportation methods ranging from special cars to mules were utilized to bring to Tuskegee today a steady stream of white people and negroes to attend the unveiling of a statue of Booker T. Washington, founder of Tuskegee institute.

SCHOOL OFFICIALS SAID the gathering was the largest in the history of the institute. Special cars brought parties from New York, Washington, Chicago, Atlanta and New Orleans and the countryside rallied in automobiles, on horseback, muleback, afoot and in every conceivable kind of vehicle.

TRANS-PACIFIC RATE WAR OPENS

Washington, April 5.—Prospect of an "aggressive steamship rate war" at Vancouver, B. C., affecting all commodities carried between Canada and the Orient, was reported to the department of commerce today by American Consul General Ryder at Vancouver.

The rate on lumber he said, recently was reduced from \$15 to \$12 per thousand feet and this caused a general reduction in other lines. Lumber exporters, he said, are rushing to take full advantage of the reduced rates. The rate of \$6 a ton for wheat flour was reduced to \$5 and that on general merchandise reduced to an average of \$2 a ton.

The Blue Funnel and Japanese lines are the principal companies involved, Mr. Ryder said, the managers admitting that a "rate war is on in earnest."

The Canadian Pacific ocean service, while not apparently directly concerned, he added, has declared its intention of meeting all competition.

TENANTS WILL FIGHT INCREASES IN RENTALS

Chicago, April 5.—The Tenants League of Chicago has devised a plan for combatting rent increases. If the city court decides against a tenant he will appeal at once to a court of record and it will be two full years before his case will come to trial. Meanwhile his rent will remain unchanged. The tenants will counter with suits in the municipal courts to forestall the increases.

The plan has been outlined to the league and officers say it will be carried out.

"Water 'Pretty Good.'" "How's the water on the island?" he was asked.

"It's pretty good. Of course, in some places, it's rather hard, but we had pretty fair water where I was. The doctor, however, advised me I'd better go somewhere where I could get extra good water."

"How was the weather?" "The temperature," Mr. Anderson answered, "ranged around 77 degrees. It rains almost every night, but seldom in the day time."

"How many are there on the island?" "About forty."

"How about the ants?" "There are places on the island where the ants are fairly thick, but they can be killed by fire. Fire, I am told, is very effective in killing them. You see, they—the ants—run in long lines in regular paths, carrying stuff back and forth. Well, you just run along the line with a torch—"

"What do you think of the crops?"

Says Crop Good. "The crops are very good," Mr. Anderson said. "Cocoanut raising."
