

FIRST BREAK IN STRIKE RANKS IS IN TENNESSEE

Chattanooga, Tenn., April 7.—Probably the first break in the coal miners strike in the 19th district occurred yesterday when more than 400 men employed at Soddy, near here, notified the Durham Coal & Iron company they were ready to return to work under the scale and conditions existing before the walkout.

New York, April 7.—Statements defending bituminous coal operators in refusing to negotiate a central agreement with the miners' union, made by T. H. Watkins, a bituminous mine operator of Pennsylvania, before the house labor committee at Washington yesterday, were attacked by John L. Lewis, president of the United Mine Workers of America. Mr. Lewis said Mr. Watkins' declarations "served merely to intensify the confusion and bitterness now existing."

Mr. Watkins was quoted as having said that it would be "financial suicide" for operators to enter any agreements with the miners not based on conditions in each district; that consumers have grown disgusted with the constant failure to get deliveries from union mines; that Mr. Lewis' testimony before the house body had been "very misleading" and that in the anthracite field "these labor lords have been guilty of an abuse of power in calling a strike when the mine owners were meeting their every call for meeting and negotiation."

To these charges Mr. Lewis replied: "Statements of Mr. Watkins were characteristic and typical of a policy he has followed for some time. He is engaged in a factional quarrel with the other operators of central Pennsylvania, the other faction being headed by Ben Clark. The loss of tonnage of which Mr. Watkins so bitterly complains is largely due to a fierce competitive warfare with his rivals."

The miners' chief declared that Mr. Watkins, for some time, "has been engaged in frantic effort to destroy the relationship between operators and miners in central Pennsylvania. His utterances are dictated solely by his selfish personal interests," he said.

Minister Thankful
"I had stomach trouble for nearly 20 years, also constipation which filled my system with gas and fever. I could not do my work, and while I was down sick a lady from out of town sent me a bottle of Mayr's Wonderful Remedy which proved truly wonderful. I believe it is the best medicine on earth." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. J. C. Perry and D. J. Fry. (adv)

MAN WHO FORFEITED \$50 PAYS \$50 FINE
A. Breyman, whose bail of \$50 was forfeited yesterday afternoon when he failed to appear to answer to a charge of possessing intoxicating liquor, was re-arrested yesterday evening by Patrolman Walter Thompson on a charge of being disorderly and was fined \$50 by Police Judge Earl Race.

Breyman was arrested for the first time Wednesday night by Patrolman George White. He gave his address as Portland.

Millionaire Girl Wins College Honors

Miss Helen Muriel Morris, sister of Nelson Morris, Jr., Millionaire packer, has been awarded the Durant Scholarship at Wellesley College, where she is a senior and a member of the debating team. Miss Morris is one of the most popular students in her classes and since her entrance has maintained a wonderful record for studiousness.

DE VALERA BLAMES TREATY FOR IRISH DISTURBANCES

Dublin, April 7.—(By Associated Press.)—The "Mexican politics" which the newspapers have been talking about always will be rampant in Ireland under the treaty agreement because the Irish people are against the treaty, Eamon DeValera declared in an address yesterday at Dun Loagh-haire (Kingstown).

"If the people do not want Mexican politics," he said, "they must remove the treaty by the roots, and if they want a stable government pending its removal they must allow the Dal Eireann to take its rightful place as the government of the nation."

"But if the Dal attempts to do what cannot legally be done, and establish the provisional as the government of the country, then I tell you such a government will not be obeyed, and will not function."

ASK CONSENT TO MERGE IRRIGATION PROJECTS

State Engineer Copper has been asked by the recently organized Middle Fork Irrigation district of Hood River county to approve plans for the purchase of the rights of the Middle Fork Irrigation company on which an option has been secured by the district. The consideration is given as \$48,000 and the district plans to vote bonds to cover the amount.

The system of the Middle Fork Irrigation company was designed to irrigate 4164 acres of land in the upper Hood River valley with the waters of the Middle Fork of Hood River and various other streams and has been in successful operation for a number of years. Much of the land is in a high state of cultivation and produces some of the finest apples, pears and strawberries grown in Hood River valley. The recently organized district proposes to take over the operation of the irrigation system and to make certain improvements.

D'ANNUNZIO ENVOY TO GENOA CONFERENCE

Genoa, April 7.—Gabriele D'Annunzio is to participate in the coming international conference here as the representative of Italy's seamen, according to the Italian newspapers.

Does Your Food Digest?
Mi-O-Na, that's the name of the best prescription ever written for indigestion or stomach distress. Guaranteed by Daniel J. Fry. (adv)

RECEIVES COPY OF BOOK HE HELPED TO COMPOSE

Dallas, Or., April 7.—County Clerk Floyd D. Moore is in receipt of an autographed copy of a book in which he has been made the principal character. The author of the book, M. S. Pittman, was at one time rural director for the Oregon State Normal school at Monmouth and it was while engaged in this line of work that he became closely associated with Mr. Moore. Mr. Pittman had at the time some advanced ideas along the line of rural education and it was through the help of Mr. Moore that they were put into active practice. William Hoppes, a student at the normal school at that time, also took an active interest in the methods advocated by Mr. Pittman, and on becoming school supervisor of Marion county adopted them in a number of the rural schools. It is in recognition of the early help given to the author by Mr. Moore that this recent honor was bestowed upon him.

DALLAS PLANING MILL BUSY ON OUTSIDE WORK

Dallas, Or., April 7.—A. R. Frisgen & Sons, proprietors of the Dallas planing mill, are now engaged in turning out the mill work for the Tigard high school, for which they recently secured the contract. They have also signed a contract with the LaCrosse Canning company for furnishing the mill work on their new cannery building. This building will represent an outlay of \$4500, the cost of the lumber running close to \$2000. The work is being done under the supervision of Oscar Holmes, a contractor of this city, who is at present working a crew of 18 men. The frame work of the building is now up and shingling of the roof was started Tuesday. As soon as the building is covered the work of installing the machinery will be started at once. A boiler room of frame construction, 20x30 in size, has been finished and the big boiler installed.

STARKWEATHER TO ASK FOREST SERVICE PATROL

Portland, Or., April 7.—Harvey G. Starkweather, president of the Jackson club, has announced that he will contest former State Senator Walter M. Pierce of La Grande for the democratic gubernatorial nomination.

Your Druggist

Does not keep Pinkham's Compound. He sells it.
During the year 1920, nearly 3,000,000 bottles of this medicine were shipped from the factory at Lynn, Massachusetts. There is also a branch in Canada and one in Mexico.
Lydia E. Pinkham's Vegetable compound has the largest sale of any medicine for women's ailments. Every day, more and more women are proving its worth. Made of selected roots and herbs, this compound contains no harmful drugs and can be taken in safety by any woman. (adv)

TEACHERS TOLD EDUCATION TOO FINE IN THEORY

Spokane, Wash., April 7.—The educational work has suffered from too much theorizing and until ideals and ideas are translated into actual practice, education will not occupy its rightful place in the world of affairs, Harry Charlesworth, president of the Canadian Teachers Federation, declared in an address read before the Inland Empire Teachers association here Thursday.

"One of the greatest problems we face as educator today," Mr. Charlesworth said, "is to harness the forces of inspiration, enthusiasm and optimism which are aroused at our educational conventions and concentrate them on the definite work of making essential improvements and advances in our educational system."

The first vital step to be taken in raising the standard of educational efficiency, he said, must be taken by the teachers themselves.

He added, "When we each become a practical radiating center for the propagation of the doctrine that our schools are beyond doubt an essential vital factor of national life, then the effect on the general public will be such that we shall no longer have to

mourn of the apathy and disinterestedness of the people."
The most important function of the school is the inculcation of right principles of living, with the spirit of "service, not self" always predominant, Mr. Charlesworth said.

FIRE PROTECTION PLANS TO BE MEETING SUBJECT

Means of providing more adequate fire protection for the city of Klamath Falls will be considered at a conference arranged by the public service commission to be held in Klamath Falls on Thursday, April 13. The conference will be participated in by T. A. Stevenson, executive secretary of the Klamath county chamber of commerce, the California-Oregon Power company and the Oregon Insurance Rating bureau. It is expected that a representative of the state fire marshal's office will also be present.

Other hearings arranged by the commission follow:
April 11—Glendale, industry spur.
April 13—Klamath Falls, Southern Pacific crossing at Chiloquin.
April 11—Clatskanie, hearing on crossing in Columbia county.

The Grants Pass irrigation district has requested the approval by State Engineer Copper of the sale of \$13,900 in bonds to cover the cost of additional pumps to be used in the irrigation of the Jerome Prairie and Demaray units of the project.

GIRL ACCUSED OF KILLING KINKEAD HELD NOT GUILTY

New York, April 7.—Olivia M. P. Stone, nurse, acquitted last night in a Brooklyn supreme court of the murder of Ella Guy Kinkead, former corporation counsel of Cincinnati, said today that she would go back to her work and attempt to forget her "terrible experiences."

After she had received the congratulations of many friends and sympathizers on her acquittal, Miss Stone, at her request was escorted back to the Raymond street jail, where she had spent many sleepless nights during her trial.

This morning she said she had a restful sleep and felt refreshed. The jury that acquitted Miss Stone had deliberated ten hours. The announcement of the verdict brought cheers from several hundred persons crowded into the little court room.

When the foreman spoke the words "not guilty," Miss Stone's face brightened into a smile and almost inaudibly she added: "Thank God, its over."
Mrs. Marie Gormley Kinkead, widow of the slain lawyer, was not in the court room.

POLK COUNTY FAIR SHAPING

Dallas, Or., April 7.—W. V. Peller, chairman of the executive committee of the Polk county fair, is already receiving assurances from owners of dairy cattle that the livestock exhibit this year will be an exceptionally good one. With the addition of the new livestock building on the grounds, the facilities for exhibiting stock will be much better than it has heretofore been.
