

**PRODUCTION OF PIGS NO LONGER RISKY BUSINESS**

By C. M. McAlister.  
I have already told you about the general hog situation of the country as regards the number of hogs available. To summarize, the conditions at the first of the year were a distinct shortage of hogs in the western part of the country and the eastern part of the county, with a normal supply in the middle west. This condition made it appear that our Pacific northwest farmers could safely go into the raising of hogs at this time without fear of over production for quite some time.

A new situation has arisen which makes the hog shortage of the country appear even more pronounced. The middle west has been looked to produce an enormous supply of hogs for market, and it was hoped they would exceed their usual large quota. But something has happened. The Poland China Journal, looked upon as an authority on matters pertaining to swine, has a special article in their publication of April 10, under the heading "He We Fed Too Much Corn." It appears that with their large amount of cheap corn in the middle west farmers have used it too freely with their breeding sows, with a result that the pig loss in farrowing is tremendous. They say in their article: "The death rate among little pigs this spring is so extensive that it has already become a menace to the country, as a shortage in the pig supply is a strong probability. Two weeks ago the Poland China Journal stated that the losses had been heavier than usual, and since then we have received hundreds of reports of the spring pig crop and what was thought at first to be a possible exaggeration of the situation has turned out to be a reality. The pig crop is reported short in all but a few localities."

Reports indicate that even in our Pacific northwest this same condition exists to some extent on account of the late spring and unfavorable weather. I feel that this situation means a great deal to the farmers of the Pacific northwest. It becomes more and more apparent that hog production conditions throughout the country are such as to guarantee beyond a reasonable doubt a profit from the

**Cabbage and Sausages Woman's Diet**  
"I have doctored with the best doctors in the United States. Some said one thing and some another was ailing me and all wanted to cut me open, but Mayr's Wonderful Remedy saved me, so now I eat cabbage, sausage and anything I want to. Nothing hurts me." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. J. C. Perry and D. J. Fry. (adv)

**Son of Ex-Emperor Is Named Austrian King**

*Otto of Austria*  
Crown Prince Otto, son of the late ex-Emperor Charles of Austria, has been named "king" of that country by the legitimist party, declare reports from Vienna. Prince Otto is ten years old. He is at Madeira, where his exiled father died. The naming of Otto as king is taken seriously, inasmuch as the royal family was dethroned during the war. But the child is said to have royal rights in Hungary and Prince Otto may yet become involved in Europe's politics.

raising of hogs in the Pacific northwest. With this condition in the middle west as a warning, I think our Pacific northwest farmers who have sows that will farrow this spring, should take particular pains to see that their sows are given proper feed and care at farrowing time to protect both the sow and the litter.

With forest fires prevented, nature will grow new forest crops on our deforested land.

**Reduced Round Trip Fares**  
Tickets on sale daily on and after April 15. Return limit seven days after sale.

**RADIO TO SPREAD ARBOR DAY TEXT**

Washington, April 21.—Secretary Wallace of the department of agriculture will attempt tonight on Arbor day eve, what is described as "the most widespread radio distribution of a single message" ever to be made. The message will be transmitted at 9 o'clock, eastern standard time, from the government station at Arlington, Va., San Diego and San Francisco, Cal., the Great Lakes navy station and all army and postoffice stations, and also by the radio relay league and radio broadcasting stations. Radio experts state the voice of the secretary will reach "more people than any human voice since time began."

One year ago there were perhaps 60,000 radio receiving sets in this country. Today there are over 800,000 and the present monthly increase is estimated at 100,000. Boy Scouts who receive the message will, wherever possible, arrange to deliver it on the golden anniversary of Arbor day tomorrow, to the mayors of their cities.

**BONDS**

**Non-Callable for 25 Years UNITED LIGHT & RAILWAYS COMPANY**  
First Lien and Consolidated Mortgage 6 pct. Gold Bonds  
Business and Territory—This company operates properties furnishing diversified public utility service in 77 prosperous communities in the heart of the middle west, serving a population of over 600,000. Most of these properties are situated in Iowa and Illinois, two of the wealthiest states in the Union from an agricultural and industrial standpoint.

Earnings—Earnings available for annual interest on the funded indebtedness of the company, including this issue, are about 2.20 times the annual requirements.

Security—This issue secured dollar for dollar face value by first and refunding mortgage 6 percent Gold Bonds of the company, or in lieu thereof, cash or obligations of the United States government. The issue is additionally secured, as defined in the mortgage, by direct mortgage lien upon important properties and by pledge of all securities of subsidiary companies.

Purpose—These bonds are issued for refunding purposes. They are dated April 1, 1922, are due April 1, 1952, but are non-callable on or before April 1, 1947. The purchase is therefore assured of a long term investment at high interest rate, accompanied by unusually attractive security.

PRICE—93 3/4 and accrued interest, yielding over

**BURNED TIMBER EXCEEDS AMOUNT CUT FOR LUMBER**

This is forest protection week. The area of forest land swept by fire each year is, broadly speaking, twice the size of the area cut over annually by logging operations. Forest service records for the past five years show an average yearly total of \$2,500 forest fires, burning over 7,560,000 acres and causing an annual damage of \$17,240,000. For the period of

1916,1920, inclusive, the total number of fires reported was 160,300, covering 58,488,000 acres and doing a damage of \$85,715,750. Over 80 per cent of these fires were due to human agencies, and could have been prevented through the exercise of care on the part of citizens. For the Pacific northwest some 70 per cent of the fires are due to man-made causes, careless campers alone being responsible for about one-third of all fires. For the country as a whole, fully one-seventh of all forest fires, according to the forest service, are due to railroads. Nearly as many start from careless burning of brush by farmers, and incendiarism is a close third. Campers, including all pleasure seekers in the woods, hold fourth place, causing nearly one-eighth of all forest

fires. One of the principal offenders is the careless smoker, particularly the user of "tailor-made" cigarettes. Lumbering stands fifth as a fire hazard, although in some states it often becomes a major cause of fire. About one-tenth of all forest fires are started by lightning. Belgrade—Four hundred car loads of ammunition and high explosive which exploded Tuesday at Monastir, southern Serbia, killed several hundred and wounded several thousand, virtually destroying heart of city. Washington.—War department's plea for an army of 150,000 rejected by house, which fixes maximum at 11,000 officers and 115,000 men, urged before senate committee during consideration of army pay.

**New Incorporations**  
The Northwestern Radio Manufacturing company of Portland, capitalized at \$50,000 filed articles of incorporation with the state corporation department here Wednesday. The incorporators are Frank Phillippi, Charles L. Austin and Jas. H. Page. Other corporations filing articles were: The Barnes Road Cooperative Water Users association, of Eastern Washington county; capital nil; Geo. Teufel, L. Roseander, B. H. Greenham and W. M. McEwan; Grange Cooperative Store, Hood River, \$10,000; Wm. Muhro, Frank C. Dethman and others. The King Estate of Portland filed a certificate showing a decrease in capitalization from \$200,000 to \$10,000.

**No Old Women Nowadays**  
Modern dress, hair dressers, facial experts and cosmetics all combine to keep women of all ages young and attractive in appearance. Not until the telltale wrinkles become so deep, the figure stoops, or some ailment or weakness develops to drag a woman down does she really look her age. Every woman owes it to herself and her family to keep herself young in appearance, and happy. When headaches, backache or "the blues" develop or when a woman reaches the trying age from forty five to fifty, Lydia E. Pinkham's Vegetable Compound may be depended upon to keep her in health as it has so many other women whose letters we are continually publishing in this paper. (adv)
