Buchtel-Williams Urge Contest Over Recall Be Dropped

Abandonment of litigation instituted by the Law and Order league to nullify the recall election against Fred A. Williams and Fred G. Buchtel, public service commissioners, on the grounds of fraud and misrepresentation, is asked in a letter to the league today by Buchtel and Williams. The two commissioners express their wish that the recall election be allowed to take its course and the people of the state given an opportunity to vote their sentiments on the principle involved therein.

"I have always been a firm believer in the doctrine of Theodore Roosevelt that the people should rule and the contemplated litigation, if your interpretation is correct, would prevent this, by depriving the people of the right to exercise the ballot," declares Buchtel in his letter which is addressed to Roscoe P. Hurst, attorney for the Law and Order league.

"Having been elected public service commissioner by the people if I am to continue in the office it will be by their sovereign will expressed at the polls and not through any court decree. Such being my feelings and views on the matter and having performed the duties of commissioner in accordance with my oath of office I willingly submit my case into their hands, feeling satisfied that justice will be rendered."

In a letter accompanying that of Buchtel, Chairman Williams writes: "I endorse the sentiment expressed by Commissioner Buchtel and believe that no one can say but that the members of the Law and Order league are inspired by most laudable motives."

COUNTY TO HAVE GRADUATION DAY HERE NEXT JUNE

Marion county's first graduation day exercises will be held in the Salem high school auditorium on June 17. It was announced this afternoon by Mrs. Mary L. Fulker, county superintendent of schools.

Approximately 200 grades will participate in the exercises which will culminate in the presentation of grade school diplomas, Mrs. Fulker said.

Scores of letters, favorably commenting on the plan for a county graduation day, have been received at the superintendent's office during the last few days.

Although graduates of city schools have long been accustomed to receive their diplomas at a public meeting, students of the rural schools have, in the past, had but little recognition. Feeling that some recognition was due these pupils educated in the country schools, Mrs. Fulker set about to determine what the teachers' attitude would be on a proposal for a county graduation day.

Several prominent speakers are scheduled to speak at the services June 17, among them being J. A. Churchill, state superintendent of public instruction.
