

ARMOUR THINKS GOOD BUSINESS FAST RETURNING

By Thomas Wrigley

Kansas City, Mo., May 4.—J. Ogden Armour, head of the Armour packing interests, is one of the country's great industrial giants who sees prosperity ahead. And the farmer, he says, is the hinge upon which the country will swing again to normalcy in business. Just as soon as good crops are assured, this summer "things will begin to happen in the industrial world," Mr. Armour asserts.

Mr. Armour was interviewed on business conditions while here to attend a hearing before a commissioner of the Department of Agriculture.

"The great amount of unrest that has predominated in this country for the past few years gradually is wearing away as people become more concerned regarding the condition of the country," he declared.

"Beginning to Think."

"The people of America are beginning to think coherently again and business men are learning to appreciate small but sure profits. These are the two of the surest signs of returning prosperity."

"Reports from all parts of the country claim bumper crops for 1922. If these are assured the farmer will have attained the position he lost with the financial crash of two years ago."

"Prices for his produce will reach a fair level and he, in turn, will be able to buy his commodities at a fair price."

"When these two conditions prevail none of the rest of us need to worry. The farmer is the hinge on which this country will be turned back to prosperity once more."

"Packers Not Making Money"

"Contrary to the general opinion, the meat packers are not making money. We have had so many things to readjust that we have not yet become stabilized on the new basis of the business world. With the return of good crops and the normal output of livestock each year, the packing industry will follow in the natural course."

Squaring his shoulders, Mr. Armour talked emphatically on the business man who at this period thinks and acts only in terms of the dollar sign.

"People have been narrow—in mind and principle," he exclaimed.

"During the last few years men have forgotten to think except in the terms of dollars. They now are getting better in mind, and that alone will be the greatest help in returning to normalcy."

PRETTY GIRLS IN CIRCUS SPECTACLE

It's no trick at all to assemble a ballet of girls good to look at in the strip of California dedicated to the one-piece bathing frock, and that's where the winter home of the Al G. Barnes circus, coming to Salem next Saturday, May 6, for two performances at 2 and 8 p. m., is located. Yes, it's no trick at all to find pretty beach flappers, who can dance a bit. But it's another story when it comes to singing voices, for Al G. Barnes, producer, composer and librettist of each new edition of that beautiful fairyland pageant and fantastic extravaganza "Alice in Jungland," the opening spectacle of the circus performance is insistent in the matter of singing voices. Every one of the hundred ballet and chorus girls must possess a singing voice, a trained voice. Of course, there is a chance for a personable girl with an untrained voice, if it is naturally of promise. And, as much of the ballet and chorus work in "Alice in Jungland" is done among wild and domestic animals, no little courage is required. However, the girls are well paid, well housed in standard sleepers and looked after by the wardrobe matron. There are hundreds of applicants every winter—girls from

the picture studios nearby, girls from road shows, girls from the vocal, dancing and dramatic schools of Los Angeles.

DOCTOR ORDERED WOMAN OBEYED

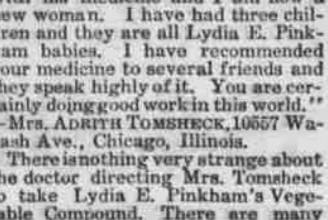

Took Lydia E. Pinkham's Vegetable Compound and is Now Well

Chicago, Illinois. — "You surely gave women one good medicine when with his medicine you put Lydia E. Pinkham's Vegetable Compound on the market. After I had my baby I was all run down and so nervous it kept me from gaining. My doctor did everything he could to build me up, then he ordered me to take Lydia E. Pinkham's Vegetable Compound with his medicine and I am now a new woman. I have had three children and they are all Lydia E. Pinkham babies. I have recommended your medicine to several friends and they speak highly of it. You are certainly doing good work in this world."

—Mrs. ADRIEN TOMSHECK, 10857 Wabash Ave., Chicago, Illinois.

There is nothing very strange about the doctor directing Mrs. Tomsheck to take Lydia E. Pinkham's Vegetable Compound. There are many physicians who do recommend it and highly appreciate its value.

Women who are nervous, run down, and suffering from women's ailments should give this well-known root and herb medicine a trial. Mrs. Tomsheck's experience should guide you towards health.

ABANDON SEARCH FOR KIDD'S GOLD

Indianapolis, May 4.—Pursuing the trail of Captain Kidd is a fruitless pastime, in the opinion of J. P. Dunn, who has just returned to Indianapolis after a romantic quest of buried treasure in Haiti and the Dominican Republic.

Backed by a group of hard-headed Hoosier business men, Dunn, who formerly was City Controller of Indianapolis, set out more than three months ago to seek the traditional "lost" Spanish gold mine and, incidentally, to investigate mineral deposits of the West Indies.

Now he is back, bronzed by the tropical sun and smiling, but of the opinion that it is "not worth while" to seek Captain Kidd's gold.

Dunn visited the old monastery at San Almerzo De Macoris and delved into ancient manuscripts setting forth the legend of the lost treasure. In looking over the time-worn records, Dunn said, he was assisted by Padre Huervos Pasatros, who is in charge of the archives.

The documents inspected related the story as told by a native woman, Almaceresa, said to have been a passenger of the galleon Isabel La Catolica, which was captured by Captain Kidd. The pirate chief, according to the record, was believed to have looted the "lost" mine and to have transferred the gold from the La Catolica to another vessel, in which he set out to find a safe hiding place for the treasure. Some treasure-seekers, Dunn recalled, have traced this voyage to a point on the New Jersey coast.

Notwithstanding that, so far as uncovered any buried treasure was concerned, Dunn's quest without result, and that the traces of manganese he found in the islands were not sufficient to warrant exploitation. Dunn reports he "thoroughly enjoyed" the expedition.

The Douglas county court has called for bids on \$500,000 road bonds to be issued this year. Bids are due May 22.

Many Claim Estate of "Kinless" Mrs. Giles

New York, May 4.—Mrs. Mary Giles has a flock of "relatives" she knew nothing about during her lifetime. Inasmuch as she left a statement declaring she had no living relatives, the observant "spirit" of the dead woman no doubt is surprised to notice—

Three men who claim to have been her husbands; two boys who say they are her sons and six-two persons who declare they are sisters, nieces, cousins, nephews, aunts and uncles.

Unless some of this group can prove legal relationship to Mrs. Giles, who amassed a snug little fortune of \$16,000 as a chambermaid in a local hotel, her estate will go to the city.
