

# \$294,235,000 IS PROVIDED IN NAVAL MEASURE

Washington, June 10.—Appropriations of \$294,235,000 are made in the annual naval appropriation bill as reported out today by the senate appropriations committee. This represents a net increase of \$42,965,000 over the house bill but \$131,251,000 less than requested by the navy department.

The bill is to be called up next Monday by agreement to lay aside the pending tariff bill temporarily, under plans made by Senator Underwood, republican, Washington, who will have active charge of the naval budget.

**Little Opposition Expected.**

Much less opposition than usual was anticipated in the senate because of the committee's action in agreeing with the house to an enlarged personnel of 86,000 men and 9,500 marines, but notice has been given of objection to several of the committee increases. Senator King, democrat, Utah, is expected to move to reduce the marine corps personnel to 10,000 men and to terminate marine operations in Haiti and Santo Domingo.

Principal increase in naval appropriations noted in the committee report were:

Navy building, \$10,000,000; new aircraft, \$6,537,000; pay, \$6,015,000; engineering, \$2,000,000, and construction and repair of vessels, \$2,000,000. The \$10,000,000 additional for construction, the report said, was necessary in the interest of economy and of the attainment and completion of the plans of new ship construction of the various classes of ships contemplated by the arrangements made in the recent conference on the limitation of naval armament and by the additional plans of congress and the navy department consonant with the terms of the arms limitation treaty.

**Many Items Slashed.**

As revised by the committee, the bill entails a large reduction in initial expenditures, the appropriations for the present fiscal year being \$425,486,000, or \$119,000,000 more than the bill reported today.

The bill carries no appropriations requested by the navy department for new Pacific coast naval bases, the committee rejecting requests for a new torpedo destroyer base at San Pedro, Cal., a proposed fleet base at Alameda, Cal., and an aviation base at Point, Wash.

The committee however, authorized \$687,500 increases for the Paget Sound and Pearl Harbor, Hawaii, navy yards. In this connection the report said: "These are the only naval bases which the United States has on the Pacific capable of properly receiving and accommodating our great armed and equipped battle-ships."

**Treaty Limits Bases.**

"As the arms limitation treaty prevents the development of naval bases further west," the report

## The "Divine Sarah" to Act in U. S.

King Sarah Bernhardt

Sarah Bernhardt from her latest photograph, showing her in her most recent stage offering, "Dans la Glorie." Despite her advanced age and the loss of a leg, she is preparing for a tour of the United States and declares she will act up to the last day of her life.

continued, "these stations become of increased importance. The main fleet of the navy is now stationed in the Pacific and it is necessary for its maintenance that there should be deep water bases at which it can find shelter, supply, repair and equipment."

Regarding the naval aviation increases the committee said "that the absolute independence of the air service as a branch of the naval warfare" had been demonstrated. The total aviation appropriations were \$14,703,000 and the report said that \$15,000,000 had been appropriated for the army air service, a total for both of \$29,703,000 as compared with aviation budgets of \$86,424,000 by Great Britain, \$44,600,000 by France and \$18,723,000 by Japan.

European nations are working themselves up to the conclusion that the trouble with the world is that America has too much money.

One day the great need in Ireland seems to be that the factions get together; the next day the only proper thing for them to do is to break away.

## MAJOR LEAGUE PITCHERS WARM UP TO BUSINESS

Chicago, June 10.—(By Associated Press.)—With warmer weather and more work, the major league pitchers are hitting their stride, with the result that the sluggers are finding it harder every day to get the ball into safe territory. This is shown by the steady shrinkage during the past week or two in the batting average of such hitters as George Sisler, Ty Cobb, Tris Speaker, Rogers Hornsby and others.

The youngsters who set the league afire in the first weeks of the season with 450 marks, now are getting back to their normal averages of .275, while Sisler and others, dropping more slowly than the flash-the-pan batters, still are rapidly getting down to their usual records. Sisler still tops the American league batters today,

despite a drop to .419 this week, the mark including games of last Wednesday.

Sisler cracked out nine hits in his last six games, scored six runs and stole five bases. With his 23 stolen bases, Sisler is far in front of his rivals on the paths, his closest competitor being Kenneth Williams who has pilfered 17 bases.

The late start and slow progress made by Babe Ruth, king of swat, to retain his honors, has encouraged other players to enter the competition in the hope of topping the Babe. Ken Williams of St. Louis bagged another homer, bringing his string to 14. Ruth has five. Ed Miller of Philadelphia is trailing Williams with 12; Harry Hellmann of Detroit has 8 and C. Walker of Philadelphia has

nine while Baker of New York, Judge of Washington and Falk of Chicago have entered the contest with 7 each.

Hank Gowdy of the Boston Braves is leading the battlers of the National league with an average of .384. Gowdy is 9 points ahead of Bigbee of Pittsburgh and Hargreave of Cincinnati, who are tied with .375 for the runner up honors. Hornsby of St. Louis and T. Griffith of Brooklyn are trailing for third place honors with averages of .374 each.

Hornsby failed to add to his home record in his last five games, but is far in front, with 13.

A whole lot of job holders in Pennsylvania do not like Gifford Pinchot because, being a forester, he knows how to use an ax.

**Studebaker**

PRECISION plays an important part in the manufacture of the Special-Six. It is largely responsible for the dependable service that has singled out the Special-Six as an incomparable value.

Six hundred and eighty inspectors safeguard precision in the Studebaker factories. They literally inspect every part that goes into every car—and every operation on every part. Before cars are passed for delivery 9,500 inspections are made.

In the Special-Six there are 1,120 mechanical operations to the accuracy of one-thousandth of an inch, 360 to one-half-thousandth.

As to the car's performance, a brief experience will reveal its superiority far more convincingly than we could tell it.

Studebaker cars make friends quickly, because they give most for the money. And they invariably keep these friends, because of the universal satisfaction they give in fine performance, economy and service.
