Ohio Reform Mayor Seeks Governorship

George L. Oles of Dr. Amy Kulekner

By William J. Huske
Cleveland, June 10—Can George L. Oles, reform Mayor of Youngstown, who last fall defeated the candidates of both Democratic and Republican parties in a three-cornered race for Mayor, during which he mixed political philosophy and epigrams with his grocery advertising, repeat on a statewide scale in November?

Here are some of the promises made by Mayor Oles to the voters in announcing his candidacy:

Tenets of Platform
Take the electric chair out of the penitentiary and hang all murderers outside the penitentiary where everyone can see them and where their fate will serve as a deterrent to the crooks who have not left the country.

Make prohibition a fact in Ohio. Give personal attention to state penal and correctional institutions. Clean up the taxation muddle. Build more highways. Drive 100,000 "crooks and profiteers" from the state of Ohio. Financial relief for cities. There's a good job still open in connection with the Mayor's political aspirations—that of campaign manager.

"For that job," says Oles, "I want the smartest, fastest, best and most honest man in the state. If any man thinks he possesses these qualities let him drop around and see me. I also want a few good spellbinders. These must be top-notchers, have leather lungs, be quick on the trigger and regular Solomons. All such I can use."

CARD OF THANKS
May we take this means of expressing our sincerest thanks to all who so kindly assisted us by deeds of kindness and expressions of sympathy during the illness and death of our dear wife and mother. We would like to make this a personal message if it were possible to reach the host of friends who helped. Signed, S. W. Drake.

What's New on the Market

By REX STEWART

The first string beans and the first Oregon hot-house tomatoes appeared this morning. The beans are not generally distributed but will be by the middle of next week. They are priced at 20 cents a pound. The tomatoes are much larger than the garden variety received in a shipment the first of the week from Mississippi, but their price of 40 cents a pound is 10 cents higher.

Failure to move strawberries which have been on their hands for the last day or two has forced some merchants to reduce the price to two boxes for 15 cents. Berries selling at this figure, however, are not in first class condition. The best can be bought for two boxes for a quarter.

No changes have been made during the week in the retail or buying prices of butter and eggs.
