

HARDING FEELS PEOPLE FAVOR SHIP SUBSIDY

Washington, June 21.—Confidence that a "very favorable reaction" will be encountered by members of congress who take the administration's ship subsidy bill before their constituents prior to its consideration by the house is expressed by President Harding in a letter to Representative Mondell of Wyoming, the republican leader, giving formal approval of the plan to press the legislation to a vote immediately after the bill has been sent to conference by the house.

Presenting a detailed statement of reasons favoring passage of the bill at this session, the president, in his letter made public today, declared the public interest would not permit of postponement until the December session, in view of the loss entailed by the government's ship holdings which the bill is designed eventually to get into private hands.

Despite "every drive toward economy" this loss, the president points out, amounted to more than fifty million dollars during the fiscal year now closing.

Asserting the question was "not to be prejudiced by the old and worn out cry against subsidy," Mr. Harding urged that if that was used "to awaken public hostility" it be emphasized that "we are subsidizing today by payment losses of fifty millions a year for inadequate service of no permanence, while the pending measure contemplates no such outlay."

The two outstanding problems to be met on the legislation, he said, are the handling of "our shipping assets to the highest advantage" and the establishment of an efficient merchant marine as an agency of commerce and an "indispensable element of defense" as well.

KING'S VALLEY MILL IS BURNED

Dallas, Ore., June 21.—The big sawmill of the Foster Lumber company at King's Valley, was burned to the ground Monday, the fire being of an unknown origin. The mill was valued at about \$100,000. The mill, which has not been in operation for about six months, will probably not be rebuilt. Preparations were being made before the fire to operate the planer. The mill was located on the line between Benton and Polk counties, the sawmill being in the former county and the lumber yard in the latter.

Saa Francisco—A conference of public utility commissioners from war western states to discuss the Southern Pacific-Central Pacific separation question closed with a telegraphic appeal by the commissioner of California, Arizona and New Mexico to the interstate commerce commission to expedite its proposed consolidation scheme for the two railroads under authority of the transportation act of 1920.

Raino Wirkkunen, 4-year-old son of Mr. and Mrs. Richard Wirkkunen of Astoria, was accidentally drowned Saturday when he fell into a small creek at Mount Solo. They have to introduce a bill in the house, but some of the bills that come to our house are old acquaintances.

Night News Summary

Cincinnati.—Government ownership and operation of the railroads will not be an issue in the threatened strike of 1,000,000 shop workers and others, spokesmen for the rail unions told the American Federation of Labor convention which responded by withholding a reaffirmation of the federation's stand in favor of the adoption of such a policy.

Chicago.—Disaster for the striking railway unions and unfortunate results for their membership was predicted to follow the threatened walkout on which a strike vote is now being taken by nine railroad labor organizations in a letter from Ben W. Hooper, chairman of the railroad labor board, to the union leaders.

Topeka, Kan.—Senator Capper of Kansas in a special dispatch received here declares that Secretary of War Weeks is out of tune with the Harding administration and that if he does not resign, his resignation might very properly be requested by the president.

Chautauque, N. Y.—The board of directors on the general women's clubs in session here endorsed the principles of the non-partisan tariff league, and decided to send to the 2,000,000 members of the federation information on the work of the tariff league.

New York.—Senator Guglielmo Marconi, wonder man of the wireless, announced the invention of what might be termed a radio searchlight by means of which radio waves, which can be reflected like light waves, may be sent in a given direction in a beam, instead of being scattered to all points of the compass.

RECOVERS JUST AS HE IS ABOUT TO GIVE UP JOB

Portland Man Says He Often Had to Lay Off Days at a Time Until Tanlac Entirely Overcame His Alarming Stomach Trouble

"I was so bad off I almost give up my job, but I feel just fine since taking Tanlac," said Andrew G. Kregness, 1140 E. 11th St., North, Portland, Or. "For over two years I suffered dreadfully from stomach trouble. Everything I ate would sour, I bloated terribly with gas and there was a burning just like a coal of fire in my stomach. My head ached fit to burst and I got so dizzy it was all I could do to keep from falling. I also had pains across my back so bad I could hardly stoop over. My sleep did me no good and I always got up with an awful bad taste in my mouth and feeling worse than when I went to bed. "Six bottles of Tanlac completely rid me of my troubles. I now eat anything, never have a headache, have gained several pounds in weight and never lose a day from work. Tanlac sure is a great medicine."

Tanlac is sold by all good druggists. (adv)

DELEGATES TO LABOR SESSION TO BACK STRIKE

Cincinnati, Ohio, June 21.—(By Associated Press.)—The national convention of the American Federation of Labor will be halted temporarily tonight while the delegates go to Newport, Ky., where a strike of steel workers has been on since last October, to hold a mass meeting in support of the workers.

For a time during the strike, refusal to hold public meetings was denied the strikers by the military authorities on control of the city. President Samuel Gompers and other national figures in the labor world will address tonight's meeting.

The report of the conventions committee on education reported that no evidence had been found of anti-union propaganda being circulated in school textbooks.

The report of the special committee appointed to consider the recent Coronado decision, probably will be submitted to the convention today.

President Ban Johnson of the American league announced today. Ruth consequently will not be able to play until Monday.

GUN FIGHT MAY BE FATAL TO TWO

Yakima, Wash., June 21.—Mr. and Mrs. Arthur Wright and Claude A. Labbee were all wounded in a gun fight last night on the Wright ranch near here. Physicians state the first two have practically no chance of recovery and that Labbee's condition is critical.

According to the story told by Labbee, who lives next to the Wright ranch, he called Mrs. Wright out and was talking to her when Wright stepped to the door with a gun. They both shot, Labbee hitting Wright in the head and in return being wounded several times. When Mrs. Wright, who had run to hide in the stable, came out Labbee fired on her, Wright says. He also de-

clares he was shot as soon as he stepped out of the house and charges Labbee with attempting to break up his home. Wright is too weak to give a coherent account of the episode.
