

WAST BUSINESS ON UP GRADE IS RESERVE REPORT

San Francisco, Cal., June 28.—May for the first month this year the dollar value of sales of 22 representative department stores in small order houses was greater than in the corresponding month of last year, according to a report issued by the National Retail Merchants' Association in May, 1922, based on a survey of 15.5 per cent greater in volume than in May, 1921. In the whole trade the various lines (except automobiles tires and shoes) report increases of 1 to 51 per cent over the dollar value of their sales in May 1922, compared with May 1921, by far the most favorable showing made this year. These increases evidence the greater purchasing power of the community growing out of increased activity in industry, with improved employment situation, and advancing prices for farm products.

**Lumber Cut Increased.**  
Since January of this year there has been a steady increase in the production of lumber in the district and in May, reports from lumber mills operated at 100 per cent of normal capacity for the first time in two years. Orders received exceeded the output and filled orders on hand at the close of the month were nearly twice as large as one year ago. Several of the principal copper mines of the district which recently resumed operations are now producing ore, and one more large company announced the opening of its mine during the month. During the present year each month's davy production of petroleum in California has exceeded that of the previous month, the month of May setting a production record of 357,376 barrels a day. Stored stocks of petroleum in that state, at 42,041,461 barrels, stand at the highest figure reached in the past five years.

**Crops Favorable.**  
The crops of the district made favorable progress during May and normal yields are expected in most sections. Prices already made for some varieties of deciduous fruits are uniformly higher than those paid to the grower a year ago. Shearing of wool has been completed except in some parts of the northern states and about 90 per cent of the district clip (1,200,000 pounds) has already been sold. New clip wool has recently been purchased for 35 to 45 cents a pound compared with prices of 25 to 27 cents paid at this time last year.

The banking situation in the district changed little during the month. Re-discounts with the Federal Reserve bank, both by city and country members, banks were reduced, the total on June 14 being \$1,255,000 or 2.9 per cent less than on May 10. Loans and discounts of reporting member banks remained practically stationary and on June 7 were \$853,560,000 compared with \$853,281,000 on May 3. Interest rates on commercial paper (bought and customer's paper in some of the leading financial centers of the district declined one-fourth to one-half of one per cent during the month.

**Building Active.**  
Building activity continues at record figures, the number of permits issued during May having exceeded only in one month, October, 1921. Permits issued were 32.1 per cent greater in number and 59.1 per cent greater in value than in May, 1921. Debts to individual accounts in the district were 3.1 per cent greater in the four weeks ending May 31, 1922, than in the same four weeks in 1921, indicating an increase in the volume of business transacted. Business failures were less in number in May than in April, but liabilities were greater. Compared with May, 1921, the number of failures increased 14.5 per cent and the amount of liabilities 27.5 per cent. Savings deposits in the principal cities of the district have increased in each of the past seven months except April and on May 31, 1922, were 4.4 per cent greater than on May 31, 1921.

**ENGINEER KILLED IN WRECK NEAR LINCOLN**  
Lincoln, Neb., June 28.—Engineer W. C. McClennon of Fairbury, Neb., was killed and a number of passengers on the Flyer, of the Chicago, Rock Island & Pacific railroad, received minor injuries when the train went into a ditch, piling up five coaches and the engine near Prairie Home, Neb., early today.

The train, a limited out of Chicago, was made up of steel coaches which probably saved the lives of many passengers. The giving way of the roadbed, following heavy rains, was blamed.

**Miss Brassfield Weds**  
Miss K. McCoy at Morning Service  
Miss Mabel Brassfield this morning became the bride of Earl McCoy, at an impressive service at St. Joseph's church, Rev. J. R. Buck officiating. Salem To Welcome Visitors

Several of the chautauqua artists upon their arrival in Salem tomorrow and later in the week, will be greeted by long time friends. Foremost among these will be Ope Read, America's most distinguished story teller, whom many Salem folk met personally during his sojourn in the city about ten years ago, when he appeared at the First Christian church, as a feature on the Red-path Lyceum course. Dr. H. C. Epley was among those who became acquainted at that time with the man, who has been picturesquely termed "America's Arch Dreamer."

Speaking of him, C. E. Wilson of Salem, who is here as director in charge of the Ellison-White chautauqua, says: "He is a wonderful man to meet. His store of reminiscences is remarkable, his own acquaintance including practically everyone of interest and importance since Mark Twain. He was a close friend of James Whitcombe Riley, living across the street from him for many years. Of him, as well as a host of other nationally known folk he talks in the most intimate and delightful manner."

In Los Angeles, Mr. Wilson said that Mr. Read was the guest of Mary Pickford and Douglas Fairbanks.  
"Mr. Read," said Mr. Wilson, "is strong in his defense of the flapper. When interviewed concerning the latter along the route, here is what he will tell the reporters: 'Her dress is more sensible, sanitary, comfortable and slightly than grandmother's. Just remember the bustle—hump of deformity—and the skirt with four yards dragging on the ground, raking up the dust. Looks foolish, doesn't it? It's a good thing hoop skirts have disappeared. With them, you couldn't get more than three women into a street car.'"

"You don't call whiskers sanitary, yet you want women to have long hair. A woman's crown of glory is her hair—when it is bobbed."  
"When Mr. Read is asked what he dislikes most he replies, 'Cultivated stupidity.' And when he is asked what he admires most, he will say, 'Naturalness and expression.'"

The Patton Brothers, Lowell, Donald and Gault, all of Portland, are other artists who are well known here, Lowell having appeared in Salem on previous lyceum programs. Among their friends locally are Dr. and Mrs. W. C. Kantner, who will entertain them at dinner during their brief stay in the city.

**Help You Choose Tires**  
500 miles at 94.48 miles an hour—a relentless grind over a rough-finished, sun-baked concrete and brick pavement at record-breaking speed—that is the grueling test Oldfield Cord Tires underwent successfully at Indianapolis Speedway May 30th. They were on the winner's car for the third successive year and on eight of the ten finishing in the money, upholding the confidence successful race drivers have in the trustworthiness and ability of these tires to meet the greatest demands of speed, endurance and safety. Their records in every other important race have been equally as good.  
Consider this achievement along with another test of Oldfield quality made at Wichita, Kansas, this past winter and early spring.  
34,525 miles on rutted, icy Kansas roads, running day and night on a Studebaker stock car without a single tire change. This test was made by a group of Wichita automotive dealers in a tire, oil and gasoline economy run. Mayor Kemp of Wichita was official observer and made affidavit to the mileage and service given by Oldfield tires.  
You may never subject your tires to the grueling experience of Indianapolis nor the steady grind of bad winter roads, but it is good to know you can get such safety and mileage economy by buying Oldfield tires. Ask your nearest dealer.

**165% Increased Business**  
The buying public is the surest barometer of the value of any article. Their approval of Oldfield tires has been demonstrated by the increase of 165% in business for the first five months of 1922 over the corresponding period of 1921.

**Agents Everywhere**  
Oldfield Tires are distributed through 75 branches and distributing warehouses in all parts of the United States. More dealers are constantly becoming Oldfield agencies and Oldfield tires are now available in your community.
