LABOR SHORTAGE FELT HERE; 200 PICKERS WANTED

A labor shortage, brought on by the loganberry season, is in evidence in Salem, according to Police Judge Earl Race, who conducts a free employment bureau in the city hall.

There is a great demand for pickers and at least 200 more men, women, boys and girls could be used at the present time, Judge Race said this morning. It is the first time in several months that Judge Race has been unable to fill the requests made by growers of the vicinity.

Salem motorists, returning last night from Portland, said there are signs all along the highway on which growers announce their need for help.

The recent hot weather, it was said, will damage the berry crop considerably.

Growers will continue to pay one and a half cents a pound for berry picking. At that figure but few growers are offering bonuses for pickers who remain through the season, officials explained.

SENATORS PLAY SHERIDAN HERE

With the same line-up which proved disastrous to the Portland Woodmen of the World yesterday Manager Harry Wendroth hoped to win from Sheridan when the ball teams of Salem and that city met tomorrow at 3 o'clock for a contest at Oxford Park.

Sheridan has the reputation of having a fast team. Salem's new line-up is improving with every game and as a consequence a good game is expected.

Cleveland, Ohio, July 3.—Ten New York Central locomotives, seven from Cleveland and three from Elkhart, shops were sent to the American Locomotive Works at Dunkirk, N. Y., today to be repaired. D. R. MacBain, assistant general manager of the New York Central lines here announced.

This was because of the strike of shop craft employes in company shops, MacBain said. More engines will be shipped out of Cleveland for repairs later on, he said.

Furlong, fleet gunnery officer, had just sent a report to Washington, D. C., that at long range gun and torpedo practice the fleet has set up a new standard for the United States navy.

GERMAN MARK FALLS HARD

New York, July 3.—The German mark fell to yet another new low level here today, being quoted before the opening of business at .023, or the equivalent of 100 for 23 cents. Before the war the value of the mark in this country was 23 10-100 cents.

Diners, Attacked In Cafe, are Beaten and Robbed By Bandits

San Francisco, Cal., July 3.—While between 75 and 100 persons were dining in the Bimbo restaurant, in the foreign quarter of San Francisco last night two men wielding blackjacks, beat three men into unconsciousness, beat and battered two other men and knocked down two women.

The bandits escaped in an automobile with three gold watches and \$64 in cash, taken from their victims.

One of the victims, J. Barrett, is so badly injured that physicians at the county hospital hold out little hope for his recovery.

The others injured are Mr. and Mrs. Jesse L. Thompson and Mr. and Mrs. W. A. Hunt, all of Oakland, and Peter Fazzere and Joseph Cronin, both of San Francisco.

The Thompsons and Hunts were dining at one table. Hunt arose and crossed the floor on some errand. As he passed a table at which two men were sitting, one of the strangers attempted to seize a diamond stickpin Hunt was wearing in his tie. The other bandit made a grab for Hunt's watch. Hunt resisted and Thompson with the other two men rushed to his assistance. Then the two bandits drew blackjacks. With three of the men unconscious, the two holdups seized the watches and went through one of the victim's clothes, stealing a wallet containing \$64.

Such men are entitled, the resolution added, to the pain of every department and branch of the government, state and nation.

New Men Are Sought.

The New York Central today advertised in newspaper for men to replace shopmen who went out on the strike Saturday. In its advertisements the New York Central said: "Mechanics and helpers wanted—on account of the action of a number of our shop and engine house employes who left the service in defiance of the United States labor board."

"Wages: Standard as directed by the United States labor board."

At the Jackson, Mich., shops of the Michigan Central 1000 shopmen who walked out Saturday were given until July 15 to return to work under the road's threat to close the shops permanently and have all work done in the east.

Officials of the mechanical department of the Missouri, Kansas & Texas railway at Parsons, Kansas, went into the round house and took the places of striking shopmen. Officials announced that necessary repair work would be done in the local round house and that no attempt would be made immediately to reopen the big shops. Union and railroad officials agreed to settle their wage controversy by a system agreement which was expected to result from a conference in St. Louis today.

Little change was reported in the strike situation in the St. Louis district, where officials and clerks took the places of strikers to do repair work.

Motive Power Lacking.
Among the first reports of impairment of train service came one from Corbin, Ky., where it was said the lack of motive equipment forestalled the movement of 2400 cars of coal in the yards.

UNDER STRIKE CONDITIONS BEST EXPLAINED BY CHAIRMAN BEN W. HOOPER OF THE UNITED STATES RAILROAD LABOR BOARD IN HIS STATEMENT OF JULY 1ST READING AS FOLLOWS

"In the past a man who took up the work of another man who was on strike against wages and working conditions was termed a 'scab' or a 'strikebreaker'—terms to which much opprobrium was attached. In the present situation created by the strike of shopcraft workers, men who assume the work of the strikers cannot justly be reproached with such epithets.

"This is not a customary strike in which the employer tries to impose upon the employe unjust wages and unreasonable working rules. In this case the conflict is between the employer and the oppressed employe. The people of this country, through an act of congress, signed by President Wilson, established a tribunal to decide such disputes over wages and working conditions, which are submitted to it in a proper manner. It is the decision of this tribunal against which the shop crafts are striking.

"Regardless of any question of the right of the men to strike, the men who take the strikers' place are merely accepting the wages and working conditions prescribed by a government tribunal and are performing a public service. They are not accepting the wages and working conditions which an employer is trying to impose. For this reason, public sentiment and full government power will protect the men who remain in their positions and new men who may come in."

Adequate provisions have been made for the full protection of all new employes, the same as old employes who have remained loyally at work. Applicants should apply to the office of the superintendent at Portland (Union station), or to the assistant superintendent at Roseburg.
