## What's New on the Market

Increases in the wholesale and retail prices of butter were announced this morning with corresponding increases paid producers for butterfat. The wholesale price of butter is now 45 and 46 cents with the retail quotations at 46 and 50 cents. Butterfat is now bringing 41 cents which makes a general increase throughout of three cents over prices of last week. The dry weather and the freshening of many dairy herds at this time has slackened production and made an increase in price necessary.  
Manmouth blackberries, the first of the season, and a little earlier than usual, were offered this morning at the reasonable price of three boxes for 25 cents. They are in good condition and are an excellent table variety.

## Striking Shopmen

(Continued from Page One.)

ployes, who include track workers and other common labor, definitely abandoned the idea of a walk-out at this time.

Credit for averting a rail strike was threatened to become general among all classes of railway labor except the "big rour" brotherhoods and telegraphers, was generally conceded to Ben W. Hooper, chairman of the United States labor board; W. L. McMenimen, labor member of the board, and E. F. Grabis, president of the maintenance men; the "big three" in yesterday's conference.

**Maintenance Men Stick.**  
As a result of the holiday conference, nearly 400,000 maintenance of way men who for a week hovered on the verge of a strike after voting overwhelmingly in favor of a walkout, will remain at work.

Maintenance men will stay on the job "under protest" against the \$60,000,000 cut in their wages, pending negotiations for a readjustment of wage scales upon an appeal by the employes.

In many rail centers strikers have been notified that they would forfeit all rights and consideration for future employment if they failed to return to their jobs immediately. Many roads were accepting new men for work in the shops.

**Leaders Predict Walkout.**  
Omaha, Neb., July 5.—Despite the decision of executives of the maintenance of way men's union not to strike pending mediation efforts, local union leaders today predicted that many maintenance men would walk out before night-fall.

M. R. Gibson, strike chairman in the Council Bluffs, Iowa, district, said he expected a large number of maintenance men would join the shopmen strike this afternoon.

Howard Gates, chairman of the Omaha strikers, said the strikers had no official information concerning the rumored walkout of maintenance men here, but said there were strong indications "that a great many of the men will walk out today."
