

ROUND UP TO BE HELD AT DALLAS FOR THREE DAYS

Dallas, Or., July 19.—The quarter-mile race track at the county fair grounds which is to be used during the three days' roundup which is to be staged in Dallas on July 28, 29 and 30, is now practically completed and work on the other buildings and corrals is being rushed as rapidly as possible.

The roundup is to be given under the management of Guy Ray and Everett Wilson, both experienced in staging such events, and both having actively participated in them as riders. Fifty head of wild and tame and trick horses have been secured, being the pick of the choice ones from eastern Oregon—where the wild ones come from.

The services of the Miller & Pollock Amusement company have been secured and this means that all kinds of amusements will be on hand during the three days. Among the features billed by this company is a Ferris wheel, merry-go-round, attractive side shows and concessions of various natures. All will produce a carnival in connection with the roundup that will be well worth going miles to see. The Mollala roundup band of 18 pieces has been secured for the entire three days. In addition to the evening performance and other features, a dance will be given Friday and Saturday evening, which will be given in the largest building on the grounds. These dances will be given under the direction of Cole McElroy of Salem. Season and single admission tickets will be sold at a reasonable price.

This will be the first attraction of this nature that has ever been held in Polk county and it is the intention of the managers to make it an event that will be well attended and enjoyed, also in the future to make it an annual affair to be held in this city.

ORDER ISSUED FOR ARREST OF FIRE STARTERS

Olympia, Wash., July 18.—Orders have been issued by State Forester Fred E. Pape to all fire wardens to arrest immediately any persons starting fires for any purpose in or dangerously near a forest until after sufficient rain has decreased the forest fire hazard. Several fires said to have been started by berry pickers have necessitated strict enforcement of regulations since the suspension of fire permits July 3.

One fire of this nature in the works of the Mason County Logging company in the western part of Thurston county last night was threatening the company mill which is on the edge of the town of Bordeaux. The company had a large force of men out fighting the blaze from last reports.

A telegram was received from the warden at Stevenson in Skamania county today that a fire was raging across the Columbia river on the Oregon side over a seven-mile front and ashes and sparks were blowing across the river so that it was necessary to put on a patrol.

The general situation however, shows improvement and a slight prospect of rain if weather predictions are correct, Mr. Pape said today.

Owing to trouble of some standing there had been a bad spirit between the two men, resulting in making the threat by Richards. He was armed and standing in the roadway waiting for Moad and also threatening to kill any one interfering with his intentions. The sheriff and his deputies took him into custody early Tuesday morning and brought him into Dallas, where he will be held pending court action.

Oregon City, Or., July 19.—Motion for a new trial for Russell Hecker, convicted July 7 of the murder of Frank Bowker, Portland musician, was filed here Tuesday by Hecker's three attorneys.

Insufficient evidence to constitute a conviction, misconduct of the jury and errors of the court on points of law were the three reasons given for the petition.

The charges of misconduct of the jury were made on the basis of four affidavits to the effect that during the course of the deliberation the five women members of the jury left the petit jury room and, unaccompanied by the bailiff, walked into another room some distance down and across the hall. The affidavits are signed by George S. O'Neal and T. E. Shea, representatives of two Portland newspapers at the trial; by Percy Johnson, one of the witnesses for both state and defense, and by B. I. Hecker, father of the defendant.

MOTORISTS ARE URGED BY POLICE TO SIGNAL

Salem motorists should take more pains to signal when they are operating automobiles or motorcycles on Salem streets, Chief of Police Moffitt declared today. "I wish to ask the motorists not to wait till they start to turn before signalling," Moffitt said. "They should give the machines behind them a chance. If motorists will signal as they are supposed to, there will be far fewer accidents."

Four per cent of the output of steel in this country is consumed in the production of motor vehicles.
