President Harding And Chairman Hooper of Labor Board Review Situation.

Washington, July \$2.—Chairman Hooper of the railroad labor board presented to President Harding in a four-hour conference today details of the raft strike situation, reporting on the controversy between the union workers and the executives from the in-

ception to the present time. Leaving the White House after the conference the labor board chairman told newspapermen that "naturally I do not feel at liberty to discuss details of the conference," and declined to state whether the president had in mind any future conferences or give any inkling as to what the administration program might be. He did say, however, that he was returning to Chicago.

Labor Pledges Sympathy.

Almost coincident with Mr. Hooper's arrival the American Federation of Labor made public telegrams sent by the labor representatives of the national and international unions located at Washington to B. M. Jewell, leader of the rail strike forces, and John L. Lewis, president of the United Mine Workers, pledging sympathy and cooperation in the respective strikes of the railroad shop and mine workers. The telegrams were signed by Samuel Gompers, president of the Amer ican Federation of Labor, a chairman of the legislative representa-

tives conference and said:
"Reports made to the confer ence from various sections of the country indicate a rising public sympathy in favor of the men who

# MILITARY SYSTEM FOLLOWED IN ORGANIZATION OF THE KLAN

"The Modern Ku Klux Klan" This is the seventh installment of the book written by Henry P. Fry exposing the real character and sinister purpose of the Ku Klux Klan. In the previous chapters, the history of the order was related, Mr. Fry describing how he came to join the Klan under a misapprehension and his ex-

periences as a Kleagle. Discovering the real aims of the mercenary promoters of the order, Mr. Fry withdrew and wrote a scathing letter to the "Emperor," to which the latter never replied. In it he concisely set forth the menace of the order to Ameri-

This is shown by affidavits and information in possession of the Public Defense Lengue organized by the Protestant people to prevent a monumental injustice being done the state, the nation and the whole world.

This data provides material by which we can prove that Hall's opponents have stolen the nomination for a candidate whose every recent act has borne the indelibile stamp of the Catholic Pope in

This contest will make political history as no other has in modern times. The disclosures will shake the very foundation of the institution which has ruled in Oregon and which now would offer American liberty on the alter of the Catholic Ruler in far off Italy, in exchange for political favor.

We must meet the situation. We must throw every ounce of energy, every thought and act into this great fight. We must provide funds for Legal talent, for court expenses, for expenses of witnesses whe will come from nearly every part of the state. We must win this struggle for this and the generations that are to follow.

Many thousands of dollars will be needed and every Klansman is called to raise personally, at least \$15.00 so that this county will be able to meet the quota required. This amount can be raised by direct donations as many of the Klansmen have already done or by soliciting contributions from your friends and friends of the cause. The functions of Edward Young Clarke as Imperial Kleagle appear to be exclusively to propagate the work and organize Klans, after which they are turned over to Simmons. According to a statement made by Clarke to the World the organization has one thousand chartered Klans, it requiring the services of two people engaged every day to write charters. After the Klans are chartered they are turned over to Simmons. In this connection, it would be well to turn back to the charter and note that under Section 7, the "business of he society shall be under the control of the Imperial Wizard (President)," etc. This control is so thorough that in the secret constitution of the organization the term of office of the president is for life, and he can be removed only by the unanimous vote of his Imperial Kloncilium. The constitution also provides as follows:

"Article I, Section 2. The government of this order shall ever be allitary in character, most especially its management and control; and to legislative enactment or constitutional amendment hereafter forever shall eneroach upon, effect or change this essential, fundamental principle of this order-The Invisible Empire.

"Section 2. The government of this order shall be invested primarily in the Imperial Wizard, as Commander-in-chief or Emperor of the Iuvisible Empire."
