

APPLES IN NEED OF SPRAYING FOR CODLIN MOTH

Dallas, Aug. 11.—Of interest to apple growers of Polk county the following statement issued by Paul Carpenter, county agent, will be of interest: "We are not able to get away from the August worm spray this year. The worm situation is bad, due to the fact that eggs were laid all during the month of June. It would be poor business to bring fruit to this season and then abandon the worm control at a most critical point."

He further says: "About August 20 apply arsenate of lead, 3 pounds of the powdered to 100 gallons of water. To avoid blotchiness of fruit and to seal the poison coat so it won't 'come off' the use of a quality spreader is urged. A high grade commercial spreader will run about two bits to a 200 gallon tank."

Mr. Carpenter also mentions anthracnose as a disease peculiar to apples. This disease can be brought under complete control by a late summer application of Bordeaux, 4-4-50. If a property is seriously affected by anthracnose it will be well to combine the Bordeaux with the August lead spray. Bordeaux in August likely means wiping the fruit.

It is just possible that the August lead application will call for the same treatment, but not probable where a spreader is used. In a few orchards the Bordeaux for anthracnose was put on with the July spray. This early use of Bordeaux may control the disease and still avoid wiping.

WOODBURN ITEMS

Mrs. Alice A. Kramer, wife of Henry Kramer, was buried at Belle Passi today after services in the Christian church. Mrs. Kramer died at the Salem hospital after an operation. She was 53 years of age, a native of Cedar Rapids, Iowa, and had resided in Woodburn for the past nine years. She leaves a father, husband, daughter, son, six sisters and six brothers.

On Monday next Mr. and Mrs. F. McKee of this city will quietly observe the 66th anniversary of their marriage. Mr. McKee, an Indian War veteran, was born in Franklin county, Mo., March 9, 1837, and crossed the plains to Oregon in 1850. Mrs. McKee, born at Bonville, Mo., August 8, 1840, came to Oregon in 1853. They were married near McKee, this county, August 14, 1856.

Mr. and Mrs. E. G. Emmett and Misses Lillian and Claire Cornell have left for a tour through Rainier National Park. They will be absent about ten days.

Many are absent from Woodburn on summer outings, a large number being at Newport.

W. F. Norman, who for thirty years has been with Fairbanks, Morse & Co., has purchased an interest in the First National Bank and he and his wife have moved here from Portland. P. G. Havemann retires and Fred Dose retains a small interest. The reorganization was effected by the election of the following officers: W. F. Norman, president; Fred Dose, vice president; I. A. Beckman, cashier.

C. W. Gillette and wife, who have resided here for the past 19 years, have moved to Eugene, where Mr. Gillette has become associated with storage and commission business.

Bids have been let by the city for the hard surface improvement of Montgomery and Young streets, Harrison, Lincoln and Hardecastle streets are also to be improved. This will prove a record year for street improvement progress and will leave few of the main thoroughfares in Woodburn unimproved.

Livesley News

Livesley, Or., Aug. 11.—A. Wolcott and family visited recently with his sister, Mrs. E. G. Ranton.

Reas Hallin and Gwendolyn Hallin are visiting in Sheridan with their sister, Mrs. Nolan Kelly.

What Happens When Two Big Boats Crash

Here is what happens when two big boats collide. The excursion steamer Grand Republic, with 1,200 persons on board, rammed the Erie B. R. ferryboat Chautauqua in the Hudson river in New York. Three women jumped overboard, but were saved by heroic rescuers. Many fainted. Fifty were injured. The Grand Republic had a gaping hole torn in her bow, and the Chautauqua got a gaping hole in her side.

DEAD BABY FOUND BY YOUTHS UNDER BRIDGE

A dead baby, carelessly wrapped in some paper, was found by two Salem boys under the inter-county bridge yesterday afternoon.

Police investigated immediately and it was believed possible that the tiny infant may have been thrown from the bridge.

Talking of a tariff upon lumber there is imported into the United States, under the duty-free clause of the Underwood tariff law, only 90,000 feet a month. This amount could be saved by any one of several Lane county mills in less than an eight-hour shift.—Eugene Guard.

Brooks News

James Dean of Portland was visiting the Murlicks Monday.

Mrs. Monroe Sturgis came home from the hospital Saturday and is recovering slowly.

Miss Ruth Breille of Dallas is visiting her uncle M. Sturgis.

A number of the loganberry growers are already cutting out old vines and training their vines for next year's crop.

Mr. and Mrs. Ivan Brundage, Mrs. L. S. Mordick and daughter, Nina motored to Newport Tuesday for a few days of camping out.

Mr. and Mrs. Runyan of Vancouver, Wash., have moved to Brooks. Mr. Runyan is working for the Southern Pacific.

Mrs. Gilbert has been suffering from lumbago since Monday.

New Incorporations

The Lumberman's Service & Manufacturing Co., of Portland, capitalized at \$4000 filed articles of incorporation with the state corporation department. The incorporators are John Proheske, P. F. McCarson and J. W. Richards.

Resolutions of dissolution were filed by the Pinelyn Park company of Bend.

Cancers Preventable If Taken In Time

One's life may depend on the prompt medical examination of a mole, skin blemish or lump, painful or not, according to the warning given in an address here by Dr. Joseph Colt Bloodgood, noted authority on cancer, who is making a tour of the country as part of a campaign of education against the spread of that scourge which claims eighty thousand American lives each year and who recently spoke in Salem.

Dr. Bloodgood, who is professor of surgery at Johns Hopkins medical school, declares in brief that cancer can always be prevented if taken in time but can rarely be cured. Prevention is his slogan.

Following, in brief, are his words of warning: "Cancer of the lip, tongue and mucous membrane, of the tongue and cheeks, attacks adults who use tobacco in any form and who have ragged, dirty teeth. The combination is the cause; and the combination is unnecessary."

For persons with skin marks: "Warts and moles and other abnormalities of the skin can be divided into three groups."

"1—Those which should be removed at once, because they are of the kind which frequently develop into cancer."

"2—Those skin defects, like the red birthmarks, and things like freckles, in which cancer practically never develops, and to which no attention after the first examination need be given."

"3—Those skin defects which should be watched and removed if they show any sign of growth, weeping or ulceration."

For women: "Cancer of the uterus attacks the mothers of our children. It is largely or entirely due to the neglect of the proper repair or healing of the injuries due to child-bearing. There is much evidence that cancer of the uterus is a preventable disease. It is certainly largely curable if recognized at once."

"A lump in the breast of any woman over 25 years of age should receive immediate medical examination."

For every adult: "When you know you are sick in your insides, go to your family physician and demand a thorough examination with the X-ray and other laboratory methods."

"A surface sore that is 'ripe' is, if it should happen to be cancer, 'ripe' for death and not for cure."

The Loeb sawmill, about six miles east of Brownsville, which was shut down one year ago, will soon be reopened.

WE SPECIALIZE IN MILK FED POULTRY

Do you know the difference between milk fed poultry and the ordinary ranch fowl? IT'S THE FLAVOR

We can serve you any day in the week. Give us your trial order and be convinced.

Insurance Company Loans

During the financial stringency and the period of high interest rates following the war, agriculture was financed with difficulty due to the high rates of interest yielded by many other competing borrowers and the diversion of funds of rich investors from farm mortgages to tax exempt securities.

During these trying times, life insurance companies were loyal to agriculture investing millions in farm mortgages when they could have made an average of one per cent larger income by purchasing foreign government bonds and bonds of public utilities, railroads and industrial companies. In the ten months ending October 31, 1921, forty-seven life insurance companies, owning 93.34 per cent of the admitted assets of all American companies, loaned \$161,300,000 on farm mortgages.

RAIDERS WRECK TRAIN AT DUBLIN

Belfast, Aug. 11.—(By the Associated Press.)—A band of well dressed raiders wrecked a train on the Great Northern railroad near Dublin today, says a dispatch received here. The wreck caused interruption of traffic northward.

Dublin, Aug. 11.—(By the Associated Press.)—Communication with Cork except by sea, is still impossible and the exact result of the fighting between the irregulars and the provisional government forces are unknown here.

The crew of a vessel arriving from Cork said the admiralty house and the British naval hospital at Queenstown were blazing when they left, as well as two other large buildings in which frequent explosions were heard.

News story says that Dan Cupid's aim is getting poor. Likewise is his missile quite frequently short of force.
