

UNITED STATES LEADS IN RADIO DEVELOPMENT

London, Sept. 15.—Wm. Marconi, who has just returned to London from his American tour, is enthusiastic over the vast progress in wireless telegraphy and telephony in the United States since his last visit. In an interview today he declared that the Americans were far ahead of the English in broadcasting and in wireless development generally.

"The Americans have reached a greater perfection of detail than have the British," the famous inventor said. "The clearness of speech and the remarkable ease with which messages are received in the United States are amazing."

Mr. Marconi said that music transmitted by wireless in America was much clearer than the phonograph. "It is in fact," said he, "as loud as many American jazz bands, and that is saying a good deal. The party on our yacht were able to dance to music sent out by the broadcasting station at Schenectady, N. Y. In crossing the Atlantic, Mr. Marconi was able to make numerous tests of the behavior of what is called atmospheric disturbances. These tests seemed to confirm the opinion that the disturbances which interfere with wireless originate on the continents and not on the sea. When he was near Europe, they all came from the east, or European side, whereas, when he was in mid-Atlantic, he found that the disturbances were very few and weak, and that they were coming from pretty well all around. On nearing America, the disturbances from the European side were very weak, while those from the American side were more marked."

2000 MASSACRED

(Continued from Page One.)

through the night in the midst of the flames. It is impossible to estimate the number of killed. Dr. Post, an American, who, with members of the American relief administration, expressed the opinion the number of victims up to the time of the fire amounted to 1000. (Other estimates from Athens run as high as 2000.) A large number of Christians are believed to have perished.

"Great quantities of provisions were destroyed, creating a food shortage. Several French and British establishments, the French college of St. Joseph and other French schools and the American Y. M. C. A. were destroyed. The outlying Greek and Armenian villages and the suburbs of Bursa and Burnabat, where Europeans reside, were burned."

A message from Greek semi-official sources from Athens dated Thursday reads:

"Absolutely trustworthy persons belonging to the foreign colonies at Smyrna, and notably Americans arriving here on the destroyer Simpson, which also brought United States Consul General Horton, relate terrifying details regarding the massacre at Smyrna following the big fire which reduced the Armenian, Greek and European sections of the town to ashes."

Carry off Girls

London, Sept. 15.—A semi-official Greek message from Athens says it is alleged the Turks carried off all the girls from the American girls' college in Smyrna.

Reports have reached London that the Turks have commenced reprisals against the Armenians at Smyrna.

The Athens statement says the city's foreign trade suffered enormous losses from the fire, especially the branches or agencies of the big American tobacco houses, such as the Gary Tobacco company and the Standard Commercial Trading company of New

Is "Baby Veteran" of Civil War

Charles H. Hilles, of Cincinnati, O., is believed to be the youngest living veteran of the Civil War. He is ten months younger than Warren G. Second, of New Rochelle, N. Y., who heretofore had held that honor. Mr. Hilles will be the guest of honor at the National Encampment of the Grand Army of the Republic when it meets in Des Moines, Iowa.

York, nearly all of whose stocks were destroyed.

The total property loss is estimated at one billion francs.

British Threaten Turks

London, Sept. 15.—The admiral commanding the British squadron at Smyrna has warned the Turkish authorities in the city that if massacres are continued the Turkish quarters will be bombarded, says an Exchange Telegraph dispatch from Athens.

London, Sept. 15.—(By Associated Press)—An American destroyer which has arrived at Piraeus, Greece, reports that the Turks entered the British consulate at Smyrna and killed an official who was assembling the archives, says a Reuter dispatch from Athens today. Postmaster Wilkinson also is said to have been murdered, as well as other Englishmen. Sir Harry Lamb, the consul general, is believed to have escaped on a warship.

Turks Try to Stop It

Smyrna, Sept. 15.—The Turkish troops are making strenuous efforts to prevent wholesale looting by irregulars.

General Nouredin Pasha, commander here yesterday urged officials of the American committee on relief in the Near East to arrange for the evacuation of as many of the Greeks as possible, as he feared their return to the interior would mean certain death in reprisal for the alleged malicious destruction of Anatolian villages by the Greek troops.

The Turkish commanders fear outbreaks among their own troops, who are without food. Several regiments posted on the outskirts of the city have subsisted on uncooked barley for the last few days.

Bodies Line Streets

Malta, Sept. 15.—(By Associated Press.)—Hundreds of bodies of victims of the Turkish massacre in Smyrna were lying in the streets of the city when the British hospital ship Maine left there with 44 refugees on board, it is stated by Reuters Smyrna correspondent, who arrived here on the Maine today.

(A dispatch from Constantinople last night said all the naturalized Americans in Smyrna were being taken to Athens, accompanied by George Horton, the American consul general on board the torpedo boat destroyer Simpson.)

Migratory Birds Take Flights of Over 3000 Miles

Washington.—How far will a migratory bird travel in its fall and spring flights? The biological survey has determined that they make flights of at least 3000 miles.

An investigation has been conducted for several years by the survey by trapping ducks and other strong winged fowl in northern sections, and marking them with light bands bearing a serial number and the legend, "Biol. Surv., Wash., D. C." The numbers on the fowl are recorded and from time to time, hunters bagging some of those marked, report where and when the bird was brought down.

More than two hundred such birds were loosed with the bands from Lake Scugog, in Ontario, about 25 miles north of Toronto, and many reports have been received. So far, the record flight is

that of a blue-winged teal, banded September 24, 1920, and killed two months and seven days later in a swamp near Port of Spain, on the island of Trinidad. The shortest possible flight the bird could have taken to reach this port, which is off the coast of Venezuela, is 3000 miles.

In tracing their routes it seemed apparent that the mallards and black ducks traveled together and their course from Lake Scugog was southward along the shores of Lake Erie by way of the St. Clair flats. Here the route divided, the majority continuing south-west, crossing the Ohio, and then to the Mississippi valley where the majority wintered.

The others took a southeasterly route, crossing the Alleghenies and reaching the Atlantic coast by way of Chesapeake and Delaware bays. None of the banded birds were taken.

Ex-Senator Sutherland Is Now Justice

Justice G. Sutherland

Ex-Senator George Sutherland, prominent Utah jurist, has been confirmed by the U. S. Senate, after appointment by President Harding, to be an associate justice of the United States Supreme Court, following the resignation of Associate Justice John M. Clarke.

WHITE HOUSE POLICE FORCE IS CREATED

Washington, Sept. 15.—A White House police force is created under a bill signed yesterday by President Harding. The measure transfers from the District of Columbia police department 33 men who have been on duty in the White House grounds. The president will be nominal head of the new organization.

WET AND DRY ISSUE LEADS IN ILLINOIS

Chicago, Sept. 15.—About one-third of the candidates in Illinois for congress have announced their attitude toward prohibition. Of these, fourteen declared themselves wet, seven dry, and five said that prohibition was not an issue in their districts. None of the other candidates have announced their position thus far.

Of the candidates declaring themselves wet, three were republicans, four democrats, four socialists and three represented the farmer-labor party. Of the drys, two were republicans, two democrats, one a socialist, and two farmer-labor men. Three republicans and two democrats said there was no liquor issue in their districts.

PILES

Guaranteed to be Cured Without Operation

"CAN I be cured and will I remain cured," is the constant thought of sufferers from Piles.

You can be cured and will remain cured under my non-surgical treatment. No knife, no operation, no anesthetic, no pain, no confinement—and a positive money-back guarantee of cure, no matter how chronic or severe your Piles may be.

If you are a sufferer from Piles, Fissure, Fistula or Itching, write to me today.

USES MUSIC TO REFORM BRITISH JAIL METHODS

London, Sept. 15.—E. P. Brown is a comparatively young man, with a young man's enthusiasm for reform. He wants to make prisoners better and happier men inside the jail, and to give them a chance to make good when they get out. He is governor of Dorchester Goal, where he is trying certain experiments that come to him from the United States, and the home office is watching them to see how they turn out.

The effects of the new treatment already are pronounced to be amazing. The tone of the prison is excellent and the general conduct of the prisoners is very good. And this in spite of the protests raised by the old fogey type of prison authorities against undermining discipline by introducing "flashy American methods."

Music is Mr. Brown's most powerful instrument of amelioration. Nearly every week he organizes good concerts. The prisoners display a real hunger for these events, and the better the music the better they like them, showing an almost pathetic delight in violin solos of the higher class.

Also Mr. Brown has organized a series of debates and lectures for the prisoners. The debates, especially, are hugely enjoyed by the prisoners. Some of them participate with great zest, for among those now "doing time" at Dorchester are men of excellent education and remarkable argumentative skill.

RED CROSS CONVENTION MEETS AT CORVALLIS

Corvallis, Or., Sept. 15.—The regional Red Cross conference is being held today in this city with meetings open to the public, and the following chapters participating, Clatsop, Columbia, Washington, Tillamook, Portland, Clackamas, Willamette, Douglas, Lincoln, Lane, Coos, Curry, Josephine, Jackson and Klamath.

Miss Katherine Ewing, field representative for Oregon of the American Red Cross, is here, and R. C. Branlon, assistant manager, as well as Miss Harrington of the nursing service, and Miss Conannon, director of the Junior Red Cross.

The wooden bridge on the Albany-Corvallis road at the Stewart hill about two miles north of Corvallis, is being replaced with a concrete structure.

FEAR FELT FOR SAFETY OF GREEK ARMY IN ASIA

Mudania, Sept. 15.—(By Associated Press.)—The Greek cruiser Gorgias Averoff and Kildos, the latter formerly the U. S. S. Mississippi are at Panderna covering the retreat of the Greek army, for whose safety grave concern is felt. The Turks are at the heels of the fleeing Greeks, and it is believed the latter are doomed unless the Greek government can provide vessels for their escape.

Two companies of French infantry were sent to this city from Constantinople for the temporary protection of the thousands of Christian refugees here, many of whom, panic stricken, are throwing themselves into the sea.

When the Turks invaded the town they notified the French commander that the presence of his troops would not be tolerated, but he stood his ground.

Ghemiek, east of this place, is practically deserted. The Greek destroyer Panther put up a heroic fight to keep back the invading Kemalists there but the latter brought into action long range guns which soon forced the warship to retire.

AUTOS GROWING IN FAVOR IN SWEDEN

Stockholm, Sept. 15.—Sweden today counts 40,000 automobiles, according to recent statistics, double the number in use two years ago. Swedish farmers, formerly hostile to the invasion, have become reconciled and are buying cars. Much of the gasoline and an overwhelming majority of the cars come from the United States.

S. S. S. Fills Out Hollow Cheeks, Thin Limbs!

Men and women, whether you will ever build yourself up to your normal, just-right weight depends on the number of blood-cells in your blood. That's all there is to it. It's a scientific fact. If your blood-cell factory isn't working right you will be run-down, thin, your blood will be in disorder, and perhaps your face will be broken out with pimples, blackheads and eruptions. S. S. S. keeps your blood-cell factory working full time! It helps build new blood-cells. That's why S. S. S. builds up thin, run-down people. It puts firm flesh on your bones, it rounds out your face, arms, neck, limbs, the whole body. It puts the "pink" in your cheeks. It takes the hollows from the eyes, and it fools Father Time by smoothing out wrinkles in men and women by "plumping" them up. S. S. S. is a remarkable blood-purifier. While you are getting plump, your skin eruptions, pimples, blackheads, acne, rheumatism, rash, itching, blotches are being removed. The medicinal ingredients of S. S. S. are guaranteed purely vegetable. S. S. S. is sold at all drug stores, in two sizes. The larger size is the more economical.

\$525 Steger & Sons
MADE PIANO
Fine mahogany case. Can't be beat for tone. Only \$215, on terms of only \$10 down and \$7 a month. If you will come in and see and hear this piano you will buy it.

MANY "PHOTOGRAPH BRIDES" REACHING AMERICA.

A group of "photograph brides" who have arrived in America on the liner Constantinople from Armenia, Greece and other countries in Asia Minor. These girls exchanged photographs with country-men who have made their homes in America. Correspondence followed, and then the girls came here to meet their "picture husbands." The few who were not met by their intended were cared for by the Travelers' Aid Society until the groom arrived.
