

LAST OF VIRGIN PINE BELTS PUT UPON THE MARKET

Washington.—The last great tract of untouched pine timber in the United States and the last frontier of settlement, are about to pass.

Behind the announcement of the forest service regarding the proposed sale of timber in the Malheur national forest, Oregon, says a statement by the National Manufacturers association, lumbermen see the last opportunity for their trade to deal initially with a virgin pine forest of great extent, and the last opportunity for the settler to take possession of a region, now remote from railroads and markets, and virtually unused agriculturally.

"The opening for sale of the timber of the Bear valley unit of the Malheur national forest," says the statement, "affects 890,000,000 feet of the great Blue mountains forest now and means the beginning of the lumbering of the entire forest with its more than 7,000,000,000 feet of timber. To begin the lumbering operations it will be necessary to build about 30 miles of main line railway, besides tap lines, which will open for settlement an agricultural country with area of 10,000 square miles.

"While this ancient forest is doomed, the terms are such that the accession of its sylvan posterity is secure. Though the timber now offered for sale by the forest service is sufficient only to keep a moderate sized mill running continuously for twenty years the service will at the end of that time open up another unit and eventually 7,000,000,000 feet of timber will be available. It is reckoned that by the time the last unit is cut over, the first one will be ready for cutting again."

WOMEN REPLACING MEN AS GAMBLERS

New York, Sept. 15.—Women are replacing men gamblers aboard ocean liners.

"Little Eddie" Mallon, the watchdog of the piers, whose job it is to "spot" sea-going gamblers, is authority for the statement. He says the men claim they are going straight because they have found that travelers are too careful and ship's officers too watchful.

Most of the gamblers, says Mallon, came to that conclusion just about the time a White Star captain sent a well known gambler to the detention hospital aboard his ship following a spirited little party in the smoking room, when flats were brought into action.

But where men have dropped cards and dice, women have taken them up. The women are known to Eddie and to other detectives who help him watch the piers, but the problem is to catch them.

Car Worst Menace, Parents Lax, Avers Police Matron Here

A woman—a public official—has gone through an entire interview, discussing the boy and girl problem, without using the word "flapper" once.

That's news.

And the woman, Mrs. Elsie Eissaman, Salem police matron, felt that, if somebody must be arraigned for contributing to youthful delinquency it should be the parents rather than the daughters and sons.

Mrs. Eissaman's observations were offered after she had studied the local situation for many months. Among other things she believes.

Parents Held Lax.

That parents are too lax in their training of children.

That they're too busy keeping up with the times.

That the automobile is a far greater menace to girls than is the dance hall.

That smoking is becoming rather common among girls and women.

That it's a bad thing.

That Salem should have a municipal dance hall where dancers might be properly supervised by Salem parents and officials.

Church Pews Empty.

"I believe the boys and girls of today do not get the religious training that was offered a generation or two ago," Mrs. Eissaman said. "The parents, perhaps, are too busy—too busy earning enough money to buy an automobile—or another automobile. At any rate the church pews are showing fewer and fewer young people, while their attendance at the movies is on the increase. In saying that I am not criticizing the motion picture theater."

In dealing with the dance hall question Mrs. Eissaman said that, although it may offer objectionable features, it is far better for girls than is the automobile party.

Smoking More Common.

"I had far rather have my children dancing than away some where in an automobile," she explained.

Mrs. Eissaman said she is convinced that smoking is becoming more and more common among women and girls of the community. Naturally no figures may be obtained on the number of addicts, she explained.

She did not know whether liquor is being used by girls of the present generation. There are no indications of it near Salem.

Municipal Hall Favored.

It was on the matter of the municipal dance hall that Mrs. Eissaman became most enthusiastic.

"I am convinced," she declared, "that it would solve a number of our most annoying problems. If dance were conducted under the supervision of city officials, Salem fathers and mothers could be obtained as patrons and patronesses. Men and women could be properly introduced. Proper music—and that does not mean the elimination of the type of music which young people want—could

be played. The hall could be self-supporting.

"No doubt," she continued, "this plan would receive a lot of criticism from persons averse to dancing. The fact remains, however, that we do have the dance hall with us and that it is likely to remain. As long as we do have it, ought it not to be conducted in the safest manner possible?"

It is understood that several city officials have expressed approval of the plan.

In returning to the subject of home training, Mrs. Eissaman declared that too many fathers and mothers are willing to turn their sons and daughters over to some organization or institution for training to avoid assuming this responsibility themselves.

ASK COURT OF ARBITRATION

San Antonio, Sept. 15.—An International Court of Arbitration "whose purpose and function shall be the avoidance of war, and the peaceful settlement of international disputes," is formally resolved upon by the Pan-American Round Table of San Antonio, according to announcement today by Florence T. Griswold, director general.

Dispatches from Washington recently giving prominence to a proposed American League of Nations have occasioned the sending of letters by the director general of the local Round Table to Dr. L. S. Rowe, director general of the Pan-American Union, Washington, and president Brum of Uruguay, South America, suggesting that a Pan-American Court of Arbitration would be of greater significance. The republics of South America, for many years, frequently have made effective use of the principles of arbitration, reads a resolution of the local body, sent to Washington, and "in one instance the president of the United States tendered the services of this hemisphere, to render all possible assistance in solving an international dispute between Chile and Peru."

"QUEEN OF SHEBA" BOOKED FOR RUN AT THE GRAND THEATRE

"Queen of Sheba," the super-special which created a tremendous sensation during its run at a prominent Broadway, New York, theatre, will come to the Grand theatre Saturday for a two days' run. Metropolitan critics described the picture as a marvel of beauty, color and dramatic force, and as a spectacle unsurpassed in magnificence. All wrote with wondering approval of the pageantry attending the arrival of the Queen of Sheba at King Solomon's court, and declared the chariot race cheered by 5000 spectators to be one of the most thrilling scenes ever shown on the screen.

STRANGE DRAMA OF GIRL'S REAL AND DREAM LIVES

When "night drew her sable curtain down and pinned it with a star," Marjorie Latham shrank from the ordeal of her dreams. For her dreams were not fantasies nor visions. In them, every night of her life, she was another

personality living a life entirely unrelated to her own.

When Marjorie Latham, daughter of a United States governor, closed her eyes in sleep, Aziza, a fiery tempered, light footed, passionate dancing girl, opened her eyes to a new day. Though a beggar, Aziza was loved by a great and rich man. Marjorie, though rich, had to make a great personal sacrifice to save her brother from disgrace.

At the Liberty Sunday.

GAYEST BROADWAY IN "BROADWAY ROSE"

With Mae Murray in the stellar role of "Broadway Rose," which comes to the Oregon theatre on Sunday, motion picture fans will see the beautiful star in an elaborate production which is said to surpass even "Peacock Alley" and "Fascination."

As in the latter pictures Miss Murray is provided with a role which gives prominence to her ability as a dancer and affords opportunity for striking costumes in great profusion.

FROM SWEATSHOP WORKER TO COWBOY

Not every man can look the hero sitting cross-legged on a tall-or's bench industrially plying his needle. Nor is it always easy to seem heroic even in a cowboy uniform. The "movies" have just as many cowboy villains as heroes. But our sweatshop worker and cowboy isn't a hero. He's a regular two by four coward, whom the world and his girl always squelch. With such a man for a hero, Goldwyn has made a delightfully humorous photoplay called "His Chariot Race Cheered by 5000 Spectators" for three days, beginning Sunday.

The Cottage Grove cannery has put on a night crew in an effort to handle the avalanche of produce coming into the plant.

Cuticura Soap
IS IDEAL

Soap, Ointment, Talcum, etc. everywhere. For sale by all dealers. Cuticura Laboratories, Dept. 3, Malden, Mass.

CROOK IS HUB OF THIS STATE

Washington, D. C.—The center of the United States, according to the Coast and Geodetic Survey, is at exactly 39 degrees 50 minutes north latitude, and 98 degrees 35 minutes west longitude. It may be said that point is in northern Kansas, in Smith county, in fact. Trust the Smiths to be there.

The ideal "Hub" of population, government and industry, should also be the geographical center, the survey believes, but that is true in few, if any, cases. "Hubs" just grow up regardless, and the center of population in this country is yearly moving westward.

The geographical center of Oregon is in Crook county, 25 miles southeast of Prineville, near the postoffice of Crook.

Thomas Johnson of La Grande narrowly escaped death Friday when an infuriated bull attacked him, tossing him into the air several times. He is in the hospital with a broken leg and severe bruises.

TO SELL TWO THIRDS OF TOBACCO CROP

These three men have been selected by 150,000 tobacco growers in nine States to handle the sale of 450,000 to 500,000 pounds of American-grown tobacco, worth more than \$100,000,000, which will be marketed cooperatively through their three organizations. R. R. Patterson is Manager of the Leaf Department of the Tobacco Growers Co-operative Association of Virginia, North and South Carolina. J. C. Stone is president and general manager of the Burley Tobacco Growers' of Kentucky, Tennessee, Indiana and Ohio, while Joseph W. Alsap is chairman of the executive committee of the Connecticut Valley Tobacco Association.

CAPITAL JOURNAL WANT ADS SATISFY THE WANT

Saturday is the Last Day to Buy Munsingwear at 10% Less

Many people have taken advantage of this 10 per cent reduction on Munsingwear. Every garment Men's, Women and Children's included in this showing.

More than a dollars worth for 90c because Munsingwear is underwear that is built up to a standard of high quality and in comparison with lots of other brands is far superior, making it more than a dollar's worth at regular value.

STYLE APLENTY!

Autumn Hosiery

Have you been getting Hosiery satisfaction? Your Money's worth? Perhaps you've been paying too much for them.

Holeproof Stockings must contain a certain amount of wear. This we leave to the judgment of the buyer. If you do not get full value from Hosiery purchased here we want you to return them and let us "make good."

Our New Fall Stocks are arriving now—Our aim is to show you better Hosiery, better Styles, lower prices than any other store in Salem.
