

# BROWNS HOPES OF PENNANT IN LEAGUE DIMMED

St. Louis, Mo., Sept. 19.—(By Associated Press.)—Hope is not lost, but the Browns' road toward the 1922 championship of the American league has been made rougher.

This appeared to be the thought of thousands of St. Louis fans today, following what they termed the heartbreaking defeat the Browns suffered yesterday at the hands of the leading New York Yanks, 3 to 2, in the final game of a three-game series which had been heralded as an indication in the pennant race of the New York and St. Louis teams this season.

**Play Washington.**

The Browns today open a three-game series with the Washington Senators. The local are a game and a half behind New York, with only nine more games on their season's schedule. New York has more games to play.

After the game the Yanks left immediately for Detroit, where they inaugurate a three-game series with the third place Tigers today. The remainder of the schedule, according to the "dope," seems to favor the locals.

The Browns have a three-game series scheduled with each Washington and Philadelphia, considered the weaker teams of the league, and three games with Chicago, while New York faces Detroit and Cleveland, regarded as two of the strongest teams, in six games, Boston in three games and Philadelphia in one.

**Seven Out of Nine.**

Local experts pick the Browns to win at least seven of the last nine games, and if they accomplish this, New York must win seven of its ten games in order to top the flag. By being victorious in six of the games, New York would have no better than a dead-lock with the Browns and if they divide equally their remaining games, the Browns would nose them out, provided, of course, they won the seven of their nine games. Failing to hit safely against

Bush yesterday, George Sisler, Brown first baseman, broke his string at 41 straight contests. Coincidentally, he started his consecutive hitting streak against the Yanks and was stopped by a Yankee pitcher. During the batting spree, Sisler bagged 76 hits out of 171 times at bat for a batting average of .444.

## MAKING STATE LIBRARY 100 PERCENT EFFICIENT

Of the 770 post offices in the state 603 are now being served by the mail order department of the state library. Three hundred towns and cities in Oregon have a place in the files of the traveling library. This was set out in a report prepared here today by Miss Cornelia Marvin, state librarian.

Of 158 towns and cities in Oregon which last year did not use the state library actively 53 were served through the county unit system which receives much of its material from the state library. Only 92 of the postoffices in Oregon are not represented in the files of the state library.

Miss Marvin said today that it is her ambition to make the Oregon state library 100 per cent efficient.

## FATAL SKIRMISHES IN IRISH CONFLICT

Belfast, Sept. 19.—(By Associated Press.)—Ten republican and six nationalists were killed in a conflict at Erris, in County Mayo when the republicans, retreating from Ballina, were attacked by government troops.

The military were at a disadvantage, as they had no machine guns and they suffered severely in the earlier stages of the fighting. Their accurate marksmanship took a heavy toll from the republicans. Three nationalists and one republican were killed and others wounded when a small party of troops was ambushed in County Tipperary Sunday morning.

A massed attack by the republicans on Rathkeale, County Limerick, resulted in the capture of the court house, which was set on fire by its garrison. One of the nationalists lost his life in the fire.

A good many people are being kept out of the taxpaying class by high taxes. You find the answer.

### Women's Wear

#### For the Coming Season

it seems that everybody has contributed his fullest share to make the new garments more beautiful and more wonderful than ever.

The manufacturers of the woolsens and the silks seem to have vied with each other in producing materials that are marvelous in their texture and design.

The embroiderers and the producers of passamenteries have brought from Europe ideas that enhance the beauty of women's clothes. And even the furriers have scoured the far off ends of the earth to bring in pelts that will harmonize with the weavings and the colorings of the new cloths.

The designers and the master workmen seem to have been inspired by the glowing efforts of the producers of the materials, and their sparkling style creations bid fair to rapture every woman's heart.

We are proud of our new garments, and it will be our pleasure to show them to you.
