POLK'S PRUNE CROP ESTIMATED 7 MILLION POUNDS

Dallas, Or., Sept. 21.—The estimated prune crop in Oregon for this year has been conservatively placed at 57,000,000 pounds and of this amount 7,000,000 pounds are produced within territory that is tributary to Dallas. The amount in this territory might be reduced to some small extent on account of the prevailing shortage of pickers and dryer help. The crop in Polk county was over-estimated to a considerable extent, estimates now placing it at about the same amount as that of 1920. During that year it was impossible to save the crop on account of the heavy rains. Fortunately this year the growers have not had to contend with any inclement weather and as a consequence the entire crop will be gathered. Lack of pickers will delay the gathering to some extent and if the good weather continues it is calculated to have most of the crop picked up the first of the month. In some few cases the crop will have been picked before that time. If dryer help was procurable the dryers could handle a larger crop than what is looked for at the present time.

Third in the State.

Polk county ranks third in the state of Oregon in prune production. Marion county coming first and Douglas second. The estimated crop in the vicinity of Independence and Monmouth will run about one-quarter million pounds. The influx of pickers and other helpers into Dallas and vicinity

BISHOPS DISCUSS CHURCH UNITY

Portland, Or., Sept. 21.—The concordat, declared by those who advocate it as a movement in the interest of church unity, was before the house of bishops today for final action.

This proposed agreement with the Congregational church provides for the ordaining by Episcopal bishops under certain conditions of ministers of the Congregational church who may ask for such ordination.

The house of deputies faced a big task upon proposed changes in the communion service.

Addition of an eleventh commandment one quoting Christ's words urging brotherly love, is before the house of deputies, having been approved by the house of bishops.

Election of members of the national council is a task ahead of both houses.

TOWN CLOSING NOT NECESSARY

The movement among the business men to close the stores in Dallas Tuesday did not materialize as it was not deemed necessary, most of the growers having secured sufficient pickers to carry them over the worse point.
