

MEDFORD FILES FOR WATER FROM BIG BUTTE SPRINGS

The city of Medford has filed with State Engineer Copper an application covering the use of water from King's Cabin springs on Big Butte creek for a municipal water supply.

Other applications covering water rights have been filed with the state engineer as follows: By Ralph E. and Edgar Schott of Condon, Gilliam county, covering the appropriation of water from Columbia river for the irrigation of 25 acres.

By A. E. Jackson of Portland, covering the appropriation of water from a spring or seepage, near Sandy river, for municipal use for the community known as Jackson's Camping Grounds, at a cost of \$500.

By George T. Hershberger of Central Point, Jackson county, for the appropriation of water from Willow creek for irrigation of a 10-acre tract.

By A. P. Smith of Medford, covering the appropriation of water from Spigee creek for irrigation of two acres, and for propagation of beaver, in Jackson county.

By George H. Stowell of Eagle Point, covering the appropriation of water from Rogue river for irrigation of 20 acres in Jackson county.

By Jessie Drew of Dalry, covering the appropriation of water from Bunk creek, tributary to Lost river for irrigation of 65 acres in Klamath county.

J. A. Freeman and sons of Portland, covering the appropriation of water from a spring, tributary to Molalla river for irrigation purposes, and for domestic supply in Clackamas county.

By the Oregon-Western Colonization company of Ontario, covering the appropriation of 12 second feet from Snake river for irrigation of 419 acres in Malheur county.

By Ada Benfield of Beaver, covering the appropriation of water from Boulder creek for irrigation of fifty acres in Tillamook county.

By William Briot of Hillsboro, covering the appropriation of water from a spring for development of 25 horsepower, and for domestic use in Washington county, at a cost of approximately \$300.

PLAN DRIVE FOR W. C. T. U. HOME

Rev. W. E. Ingalls, a Methodist minister who is taking a year of rest from pastoral work in his home in the suburbs of Salem, has been engaged as field secretary for the children's farm home of the Women's Christian Temperance Union and is beginning his work in Marion county, being enthusiastically supported by the Salem Ministerial association.

Rev. E. J. Hammond, of the Kimball school of theology, Willamette university, and Rev. Long, pastor of the Salem Presbyterian church, have been a special committee to assist in this work.

The campaign in Salem will be opened about October 15, and it is expected that Salem will do herself proud in the establishment of this home. Marion county quota has been reduced to \$5000 to meet the present hard times.

Rev. Ingalls began his work by presenting the home claims to the Friends church at Rosedale last Sunday, at which time a vigorous local committee was appointed to canvass the entire community. They plan to raise \$200 to pay for a Rosedale acre of the farm.

There seems to be a general impression in Germany that losing the war was quite a mistake.

Newer Form of Iron Quickly Increases Pep Strength and Energy

"You cannot be well and strong and full of vigor, force, and power unless your blood is rich in iron," says Dr. James Francis Sullivan, formerly physician Bellevue Hospital (out door department), New York, and the Westchester County Hospital. "It is your red blood that enables you to resist and overcome disease and that nourishes every organ in your body. Without iron your blood becomes thin, pale, and watery. Poor blood cannot nourish your vital organs and as a result you may have pains in your heart or kidneys, indigestion, headaches and feel all run down and tired out."

When your blood lacks iron do not waste your time taking stimulating medicines or narcotic drugs, but directly enrich your blood with the newer form of iron sold by all druggists under the name of Nuxated Iron which is like the iron in spinach, lentils, and apples and is in a form easily assimilated into your blood.

Get a bottle of Nuxated Iron today. Take it for two weeks and if you have not, like thousands of others, obtained most surprising health, strength and energy, the manufacturers will promptly refund your money. The following local druggists will sell you Nuxated Iron with this "satisfaction or money back" guarantee: Dan J. Fry, J. C. Perry and Tyler's drug store. (adv)

APPROVE PLANS FOR BLIND SCHOOL

Tentative plans for the building to be erected for the employment institution for adult blind in Portland were approved by the state board of control at a meeting here Wednesday. The architects, Hotelling & Dougan of Portland, were instructed to complete the plans as quickly as possible in order that bids for construction work might be advertised for. It is expected to have construction work under way by the middle of December.

The plans approved at this time provide for four buildings, administrative building which will house the offices of the institution, library, kitchen and dining room; men's dormitory, industrial building and heating, and power plant.

Appropriations available for the new institution which is to be located at East Glisan and Eighty-fifth streets, Portland, amount to \$171,000. The four buildings are to cost approximately \$135,000.

SEPTEMBER AN AVERAGE MONTH 1.95 RAINFALL

September was an average month meteorologically, with 1.95 inches rainfall against the annual average of 1.84 inches and 1.85 inches for 1921. October average is 2.81 and the outlook is that Salem will receive at least this amount.

Record by Days
The following is the monthly summary:

Day	Max.	Min.	Pre.
1	73	35	.00

Number of days with .01 inch or more precipitation 8, clear 8, partly cloudy 16, cloudy 12.

The Vogt correspondent makes the announcement that the ex-crown prince is anxious to go back to Germany. This rather suggests that Germany is not so poor as some people imagine.

It's Neuritis! Not Rheumatism

That sharp, stabbing pain in the upper arm, about the shoulder blade, in the nape of the neck, along the forearm or down the thigh and leg, is often Neuritis—not Rheumatism.

If you have severe frontal headache with a feeling that something is twitching or pulling at the eye-balls—a dull, aching pain in the back, accompanied by an occasional shooting pain in the side—numbness or tingling in the fingers or "stitches" of pain here and there, the chances are that your trouble is Neuritis.

No matter where your pain is located, you can get prompt relief without taking bromides, narcotics or other dope. Take a few Tysool Tablets in hot water, and in a few minutes you will be rid of the torture. Tysool is guaranteed harmless. It helps to soothe and heal the weak, inflamed nerves.

Don't suffer any longer. Get a \$1 package of Tysool Tablets from Dan J. Fry, Tysool Co., 409 Sutter street, San Francisco. (adv)

WOULD YOU

Like to own and drive the classiest, most distinctive, and nicest Speedster in the Willamette Valley, or in fact Portland also. At 1-3 the original cost? Has been driven 5,000 miles, is in perfect shape, wonderful to drive. Very highest grade, and exclusive car, seats 2 people, and has invisible jump seats for 2 more passengers. Has every known accessory; also 5 wire wheels and 6 excellent cord tires, and attracts attention wherever seen.

TERMS:

If you are interested and would care to own this beautiful car, write box Speedster, care Capital Journal, for private demonstration from private party.

GRAND JURY ASKS NEW BASTILE FOR POLK COUNTY

Dallas, Or., Oct. 5.—The grand jury finished its deliberations Tuesday afternoon after an extra hard grind on their time and energy. The jury was drawn Monday morning and was composed of Frank Ackerman of Suver, J. E. Allen of Monmouth, W. J. Estabrook of Rickreall, D. L. Key of Perrydale, Blaine Southwick of Rickreall, G. A. Schroeder of Salt Creek and Otis Waite of Rickreall. They immediately began their deliberations under the direction of Joseph Helgeson, district attorney. The same evening one of the members, Blaine Southwick, became ill and was unable to complete the work. It therefore became necessary for the court to excuse him from further duties and draw another to fill his place. William Dawes of Independence was the juror selected. The jury then proceeded with its deliberations resulting in two indictments for murder in the first degree against Phillip Warren of Grand Ronde. He was arraigned Tuesday afternoon and given until 10:30 o'clock on the following day to plead. He is being defended by Attorney Oscar Hayter of Dallas, the prosecution being in the hands of District Attorney Joseph N. Helgeson, who will be assisted by Walter L. Toose Jr., of McMinnville. On Warren's appearance before the court his plea was "not guilty," trial being set for October 9.

District Attorney Helgeson has received notification from Washington, D. C., that Attorney General Daugherty has directed United States Attorney Lester W. Humphrey at Portland to assist in the prosecution of the case against Warren if his services are desired by the district attorney. Mr. Helgeson now has this proffer of assistance under advisement.

The report of the grand jury as submitted was as follows:

"We, the grand jury selected to serve during the October, 1922, term of the circuit court for the county of Polk, do hereby make the following recommendations concerning the county jail and the county court house:

"We do hereby recommend that the building now being used as a county jail be dispensed with and the steel cages now in said building be moved to the court house block, either in the basement or adjoining thereto. We make these recommendations concerning the jail for the reasons:

"That after a thorough inspection, we find same to be unsafe, unsound, and unsanitary and in every way unfit for a county jail. That in case a fire should occur in the county jail, Polk county would pay out many times the cost of a jail in damage suits on account of the probability of some inmate being burned to death or otherwise seriously injured.

"That we, after a thorough inspection, find a very crowded and congested situation in nearly all offices of the county officials of this county due to lack of room. Especially does this apply to the county sheriff and the county

clerk, who neither have proper room nor good fireproof vaults for their records, nor have proper office space for their respective offices. In both instances these public officials are the custodians of the most important records in the court house, being our deeds, records and tax receipts. It is apparent that these vaults should be enlarged now and must be done within the near future, and by so doing the office space of these officials will be reduced to a great extent. Particularly should the office of the county sheriff be enlarged as it is inadequate, inasmuch as the sheriff has only one room in which to collect taxes and also attend to his official duties as sheriff. In many cases during tax collection times when some person calls at his office and wishes to discuss with him privately, there is absolutely no available space in which to do this. In order to remedy this we would recommend that the county court cause to be erected an addition on the east end of the building large enough to accommodate the business of the present time and for the immediate future, providing they have the means at their command to do this. Should they not have the wherewithal to make this desired enlargement they should put the matter on the first ballot and let the voters provide the means for the erection of the same."

HEAVY INCREASE IN ENROLLMENT DALLAS SCHOOLS

Dallas, Oct. 5. — On Monday morning, October 2, at 9 o'clock, the Dallas grammar and high schools resumed activities for the coming school term. The high school building has been remodeled to a great extent in order to properly care for the large increase of students. The seats in the assembly room have been replaced by desks and some of the former class rooms made into double rooms.

Last year the enrollment in the high school was 99 and this year it is over 150. R. R. Turner is again city superintendent of schools and C. A. Arpe is principal of the high school. In their address to the students Monday morning both gentlemen expressed their desire to cooperate with the students and parents in every way possible in order to make the coming school year the best the school has ever had.

James C. Riney, the athletic coach and manual training teacher of the high school, called a meeting Monday afternoon for the purpose of organizing the boys for the coming football season. No regular practicing has as yet started. There is some good football timber in the school and a cracking good team will undoubtedly be turned out.

MAP OUT PLAN FOR CONSOLIDATION OF STATE OFFICES

Portland, Oct. 5. — Governor Olcott's committee to investigate the commission or cabinet form of state government met in Portland yesterday and mapped out its program. Those present were T. B. Kay of Salem, chairman; A. J. Johnson of Corvallis, Frank I. Dunbar of Astoria, Frank J. Miller of Albany and C. H. Carey of Portland.

Work has been appertained as follows: Mr. Miller to investigate the state governments of Washington and Idaho; Mr. Kay to make a general review of state economic features; Mr. Dunbar to make a survey of state house work; Mr. Johnson to prepare statutory amendments as required, and Mr. Carey to look after the legal features.

"It is not the desire of the committee to undertake a revolution of the state government," explained Mr. Miller, "nor will there be a radical report. There is no graft in Oregon and the administration has been as economical as any in any other state. However, there is probably need of coordination of some boards, for there is some overlapping and there may be occasion for some eliminations. The committee hopes to point the way to increased efficiency and hope to bring about some economy."

RHEUMATISM Leaves You Forever

Deep Seated Uric Acid Deposits Are Dissolved and the Rheumatic Poison Starts to Leave the System Within Twenty-four Hours

Every druggist in this country is authorized to say to every rheumatic sufferer that if a full pint bottle of Allenru, the sure conquerer of rheumatism, does not show the way to stop the agony, reduce swollen joints and do away with even the slightest twinge of rheumatic pain, he will gladly return your money without comment.

Allenru has been tried and tested for years, and really marvelous results have been accomplished in the most severe cases where the suffering and agony was intense and piteous and where the patient was helpless.

Mr. James H. Allen of Rochester, N. Y., the discoverer of Allenru, who for many years suffered the torments of acute rheumatism, desires all sufferers to know that he does not want a cent of anyone's money unless Allenru decisively conquers this worst of all diseases, and he has instructed druggists to guarantee it as above in every instance. All druggists can supply you. (adv)

Taste is a matter of tobacco quality

We state it as our honest belief that the tobaccos used in Chesterfield are of finer quality (and hence of better taste) than in any other cigarette at the price.

Have you ever actually realized the importance of materials in all fashions?

MATERIALS and fashions this Fall seem almost made to order for home sewing, with the vogue for simple drapery, so easy to do, and so very effective in the soft textures of the new woolen materials. Then the silks and crepes—never were they softer and lovelier.

How many times have you been disappointed because you saw a dress you liked, but couldn't get it in the color you wanted! Or perhaps you liked the color, but you couldn't get it in the materials you wanted.

Our dress-goods department will solve these difficulties. Come, see for yourself its very large variety of colors and materials, showing the newest weaves and designs for Fall. Then look at our Butterick Patterns with the Deltor, and banish all thoughts of not being able to make your clothes yourself.

No need to limit your Fall wardrobe because of too little money or time!

IT SOUNDS like some sort of magic, doesn't it? And yet it is quite the simplest thing you could imagine, because of the Deltor, which comes with every Butterick Pattern. You save material (and material means money!) when you follow the Deltor cutting layout. You save time when you follow the Deltor pictures for putting together your particular pattern. And the Deltor shows you how to finish your garment in an entirely professional way!

As for fashion—if we tell you that at 27 Avenue de l'Opera, more Butterick Patterns are sold than at any other store in the world, you will appreciate how very close Butterick Patterns are to the dictates of Paris. At the identical time the new patterns are being presented in Paris, we are presenting them here. So your choice is the same choice as the best-dressed women in Paris.

MILLER'S Good Goods.

Butterick Design 3963—Shirt and blouse, strapings of wool material. It shows itself in a colorful style. It has endless possibilities.

Butterick Design 3967—There is nothing more effective than the draped front and blouse back of this charming one-piece slip-over design.

Butterick Design 3969—The loose wide panels on this slip-over one-piece dress add a touch of beauty to its correct fashion.

Butterick Design 3970—A delightful example of the new crepe fabric and the draped skirt, both features of the newest fashions.
