

EVANGELICAL FACTIONS MAY BE REUNITED

Barrington, Ill., Oct. 5.—The eighth quadrennial session of the general conference of the United Evangelical church, to convene here today, will act on the proposal to merge with the Evangelical Association, from which the church separated thirty years ago. Favorable action would reunite the followers of Jacob Albright, who founded denominations in Pennsylvania in 1800. The United Evangelical body claims 100,000 members and the Evangelical Association more than 150,000.

The general conference of the Evangelical Association will convene simultaneously at Detroit. If the United Evangelical conference approves the proposed union it will probably move to Detroit and consummate the merger, according to leaders.

The commission on church union of the United Evangelical church, which will report at the conference here, has reached a basis of union after ten years of negotiations, according to official announcement by the United Evangelical church. All conferences of the other body, except that of East-Pennsylvania, voted 614 votes for union and 58 against, the statement said. An unofficial poll of delegates to the conference showed 73 for and 15 against, the statement added.

Fogs Halt Non-Stop Flight

San Diego, Cal., Oct. 5.—Because of heavy fogs prevailing in the mountain districts beyond Temecula early today, Lieutenants John A. MacReady and Oakley Kelly abandoned their proposed non-stop San Diego to New York city flight in the big army monoplane T-2, and returning to this city, announced that they would try for a new endurance record.

Minnesota Forest Fires

St. Paul, Minn., Oct. 5.—Over an area of more than 100 miles square, scattered forest fires blazed today in northern Minnesota, while forestry and state military officials directed the fight to subdue them. Many small settlements are threatened but there have been no casualties.

ASK INCREASE IN TAXES TO BUILD POLK HIGHWAYS

Dallas, Or., Oct. 5.—The office force of the county clerk's office is now engaged in preparing election notices and making ready to mail copies of the same to all members of the election boards. It will be of interest to the people to read the election notices when they are posted as they contain very material measures, referred to the people by the county court, pertaining to voting additional taxes to provide funds as follows:

The court has asked that the people increase the tax levy by \$63,452 above the constitutional limitation.

In their certificates to the county clerk they state that it is necessary to increase the amount of the general fund and road district funds of the county to the extent of \$40,000 to provide sufficient funds for the purpose of construction of roads, the erection of additional gravel bunkers and the operation of the gravel trucks in taking care of the road building program necessary to keep Polk county out of the mud.

They are also putting the question to the people as to whether or not they desire to vote \$2000 for county fair purposes, \$2000 for the county agent's salary and \$2682 for the county library. No doubt the county court desires to relieve itself of the responsibility of putting the last three items in the budget and it is up to the people in the November election to support or reject these three items. By their rejection or acceptance will also be the rejection or acceptance of the \$40,000 program for the general fund as the four items will be in one measure, totaling \$46,682.

Another certificate of necessity filed with the county clerk by the county court is in substance a measure for the people's consideration wherein the court asks the voters to consider a \$26,800 added tax for the general fund of the county which is to provide for the construction of bridges on the West Side Pacific highway at Rickreall, Basket Slough near the tile factory north of Mouthouth, and two bridges across Soap creek. It will be necessary for an affirmative vote by the taxpayers in order to connect up with those

bridges on the West Side highway through Polk county.

The people of the county realize the county is without the necessary funds to promote the completion of the Pacific highway and unless the above measure is supported the county will be unable to connect up with the counties on the north and south.

DROUGHT IN PENNSYLVANIA

Pittsburgh, Pa., Oct. 5.—Western Pennsylvania's drought entered its twenty third day and authorities expressed alarm today as to the reserve water supply, which was rapidly diminishing. River transportation has been practically paralyzed and farmers reported severe damage to crops.

WOMAN AVIATOR TO FLY ACROSS CONTINENT

San Francisco, Oct. 5.—Miss Lilian Gatlin, the only woman member of the National Aeronautic association, will leave Grissy field here today for a transcontinental air trip as a memorial to the Gold Star Mothers of aviation who lost their lives in the war.

The airplane will be made under the supervision of the United States mail service. The itinerary call for a direct trip from here to New York and then back to Detroit, where Miss Gatlin will attend the aerial meet to be held there.
