

# Hollywood Women To Start Work

The Hollywood women's social club met Wednesday afternoon to actively resume their work for the winter and they started with two very definite projects in view. ## HARDING ENTERED IN PRESS GOLF TOURNEY

## DROUGHT HOLDS ON THROUGHOUT EASTERN STATES

Washington, Oct. 6.—With another 24 hours of generally fair weather forecast for the entire section of the country from the plains states eastward, the United States weather bureau saw no immediate prospect today for a break in the protracted drought which has gripped a great portion of the country. Attending high temperatures for the season, which yesterday established records at a number of points in the east and middle west, also were expected to continue at least until tomorrow night.

Despite the extent and intensity of the drought, the damage to crops has been exceedingly small, agriculturists declare. The most serious effect has been the retarding of winter wheat sowing. The menace of forest fires, already causing huge damage and threatening additional loss of life in Canada, in addition to areas aggregating about 100 square miles, now burning in north Minnesota is by far the most feared consequence of the drought.

## FIRE SWEEPING THRU FORESTS OF MAINE

Jackson, Maine, Oct. 6.—There was no halting today of the forest fire which started in cut over land north of here three days ago and, racing through the piles of slash, felled woodmen and their families to flee.

The flames have made deep inroads through the Aroostook county forests eastward along the north shore of the Moose river. Extra fire fighters are being rushed there.

## VICTIM OF HIGHWAY ACCIDENT RECOVERS

John P. Hunt was bedridden about four days as the result of a torn ligament at the base of his back, the injury having been incurred in an accident on the Pacific highway this side of Horse-shoe park. He was driving south and passing a string of cars last Thursday when one of the cars, owned and driven by L. J. Yoder of east Hubbard, suddenly turned out to pass the others and hit Mr. Hunt's car head on. The impetus threw Mr. Hunt's car to the side and Mrs. Yoder's in front of and east a truck and into the ditch. The only one injured was Mr. Hunt, and while both cars were damaged no glass was broken in either. A lady was riding with Mr. Yoder from Woodburn to Hubbard. Mr. Hunt has not entirely recovered from the effects of the accident.—Woodburn Independent.

## INCREASED PHONE TARIFFS WITHDRAWN

Olympia, Wash., Oct. 6.—The proposed general increases in exchange telephone rates have been withdrawn and cancelled in all cities of the state except Seattle, Tacoma and Spokane, the department of public works announced today upon receipt of notice from James T. Shaw, San Francisco, representing the Pacific Telephone & Telegraph company and the Home Telephone & Telegraph company of Spokane. **Men Blind to Woman's Suffering**

How many men, think you, have any idea of the pain endured by women in their own households, and often without a murmur? They have no patience when the overworked wife and mother begins to get pale, have headaches, backaches, faint spells, or is melancholy and cannot sleep. There is help for every woman in this condition, as evidenced by the many voluntary letters of recommendation which we are continually publishing in this paper for Lydia E. Pinkham's Vegetable Compound. It will pay any woman who suffers from such ailments to give it a trial. (adv)
