BRITISH POLICY IN FAR EAST IS GIVEN SUPPORT

London, Oct. 7.—(By Associated Press.)—A sensation has been caused by a letter from Andrew Bonar Law, upholding the British government's attitude in the Near Eastern crisis.

The pronouncement is held widely to be equivalent to a direct threat to withdraw the British troops from the Rhine and completely terminate the entente unless France comes into line with the British policy in the Near East.

Bonar Law's position as potential head of a potential conservative government in the near future and his intimate relations with several of the present cabinet ministers are regarded as giving his view special weight.

HUNTINGTON SAYS HIGH SCHOOL MEN LIGHT BUT SWIFT

The Salem high school football team will probably be lighter this year than it has been for several seasons past. It will be fairly fast, however, and will have in its lineup a few individuals who show considerable potential ability.

Huntington comes to Salem with an enviable record behind him and fans are of the opinion that, although this is his first season with the locals, he will turn out an organization that will bring lines of worry to the brows of rival coaches.

The heaviest individual in the Salem lineup will be Linn Jones, 190-pound left tackle. Jones' style of work holds promise for the future. He charges fast and handles his hands well.

"Speed" Harris may be used at left guard; Coffe at right guard; Reinhart at left end and Ringie at right end.

No game has been arranged for the immediate future. Silverton was to have been met next Saturday but was postponed as a result of internal strife at the Silverton school.
