Barber, state insurance commissioner. The itinerary of the speakers has been arranged as follows: Portland, Monday; Corvallis, Tuesday; Albany, Wednesday; Eugene, Thursday; Salem, Friday and McMinnville, Saturday.

C. E. Oliver, a student at Willamette University, has been appointed by the United States weather bureau to report the conditions of the weather to the office in Portland. Mr. Oliver will be taking the place which was held until recently by Harry McLain, who graduated from the University last spring. Readings will be made twice daily, at 6 o'clock both morning and evening. Anyone wishing any information concerning temperature or rainfall should call Mr. Oliver at the Kappa Gamma Rho fraternity house. The telephone number is 1074.

CLUBMEN TO HEAR FIRE EXPERT TALK

J. H. Shively of San Francisco, an official of the national fire prevention bureau, will be the main speaker at the Monday noon luncheon at the Salem Commercial club. Robert Duncan, manager of the club, declared today that Shively is an exceptionally able speaker and that he expects a large crowd to hear him. Mr. Shively, it was announced, will address other organizations in the valley during fire prevention week. He is scheduled to appear before the Lyons club here later in the week.

A. F. Marcus, chairman of the fire committee of the city council, will preside at Monday's luncheon.

BISHOP STUNTZ TO SPEAK HERE

At a luncheon to be served at the First Methodist Episcopal Church on Monday night, Oct. 9, at 6 o'clock, the principal speaker will be Bishop Homer C. Stuntz of Omaha, Nebraska. The subject of his address will be "The Living Christ in the Modern World." Few men in the church are more widely travelled, or are more familiar with the present world situation than he, having served as a missionary in the Philippines, India, and South America.

The dining room can seat only 250 and it is expected that every place will be taken. Invitations have been issued first of all to the members and wives of the official board of Jason Lee, First, and Leslie churches, and to a more limited list from Silverton, Falls City, Dallas, Turner, and other churches of the district. A few additional invitations have been sent to others here in the city.

This luncheon is one of a series being held through the country, whereby the emergency of the present world situation and the work of the benevolent boards of the church are to be laid before the people.

FREE LECTURES WILL OPEN TUESDAY NIGHT

George Cromwell Blower will begin Tuesday evening in the First M. E. church a series of two lectures on "Harnessing Your Brain Power." A second lecture will be given at the same place on Wednesday. Each of the talks will begin at 8 o'clock.

Mr. Blower is a prominent vocational advisor and psychoanalyst, and his talks are intended to help men and women make a success in life's work. In a word he tells them how to get on and keep on the Royal Road to Success; how each person may find the bundle of wonders in his subconscious mind.

Born in England of poor parents who migrated to the coal regions of this state with their offspring, Mr. Blower grew up amid poverty and hard toil. Determined to lift himself out of his surroundings he worked himself through leading American and English universities. In his studies he acquired mental training that has enabled him to be largely successful as a lecturer and commercial teacher, and to acquire wide prominence. He has been sought out by executives of large enterprises and his advice and information is declared to have been largely helpful, not only to such business heads but to many of the men and women in the ranks.

KIRKPATRICK TO GIVE STEREOPTICAN TALK

A Stereopticon address will be given at the First Methodist church on Sunday evening by the pastor, Rev. Blaine E. Kirkpatrick. The subject of the address will be "Man as God's Partner."

These slides are beautifully made dealing graphically with the subject of stewardship and human responsibility in the redemption of the world. One feature will be a number of home made slides dealing with the program and plans of the local church for the coming year. These slides were shown at the church night program last Thursday evening and seemed to be of such value that a number have suggested that the message conveyed should be given a wider hearing. Admission is free and the public is invited.

Hunt the bright side. If you knew what the weather was going to be, how could strangers talk? Albany Democrat.

A radio message can be sent from New York city to San Francisco, Cal., in one-sixty-second of a second.

SIX MILLION GALLONS GAS USED LAST MONTH

All previous records for gasoline consumption in Oregon were broken during August when a total of 6,761,657.3 gallons were sold according to reports filed with Secretary of State Koser by the various distributors.

Receipts from the state tax on gasoline totaled \$140,373.34 during August this year as compared to \$125,123.34 for August, 1921. Receipts of the motor fuel oil tax department to date since the law became effective in February, 1919, aggregate \$2,571,964.45 with a refund of \$33,920.87 on gasoline purchased for use in other than vehicles operating upon the public highways.

TURKS ENTER INTO THRACE

(Continued from Page One.)

leave must evacuate immediately. Second—A Turkish civil administration will be installed at the same time the allied troops take the place of the Greek forces to preserve order.

Third—The Turks army will be allowed to cross the straits of the Dardanelles and enter Thrace only upon conclusion of a peace treaty, and it will not be until eastern Thrace is restored to Turkey.

French Cabinet Acts. It was announced this afternoon that the cabinet had fully approved the instructions sent the French representatives at Mudania by Premier Poincare as the result of this morning's conference.

This general agreement now will be submitted to the French and British cabinets, which are in session and will be referred to Rome by the Italian representatives here. There is considerable doubt, however, that all will accept and that the details will be worked out this afternoon so that the allied generals at Mudania can resume their conference in full agreement with each other as to terms to be offered the Turks.

Agreement in Sight. The conversation between M. Poincare and Lord Curzon consumed two hours and a half.

"We hope to reach a complete agreement during the day," Lord Curzon said. "We went over the situation at Mudania and some other matters and now are referring them to our respective cabinets."

The modified program of the allies, it is believed, will give the Kemalists added assurance that the three powers intend that eastern Thrace shall be returned to Turkey as soon as adequate measures have been taken to make the transfer without danger of the Christian minority.

Sessions Resumed. Mudania, Oct. 7.—(By Associated Press.)—The sessions of the conference here were resumed at 8 o'clock this morning.

Owing to the lateness of the arrival of the British instructions from home, no formal session was held last evening, but the allied generals conferred late into the night.

The session this morning opened with optimism. At the start Ismet Pasha, the Turkish nationalist representative, sounded a conciliatory note by making the astonishing statement that at the time the conference broke up on Thursday he had not received a copy of the Angora government's reply to the allied peace proposals. This reply reached Constantinople from Angora at 3 o'clock Thursday afternoon.

Apparently Ismet, upon receiving the Angora reply, became convinced that his position in the conference had been considerably at variance with the Angora position and that he had demanded more than the Angora authorities were asking.

In any event, at the opening of today's deliberations his attitude had softened markedly and the whole situation seemed to have become more hopeful.

LIQUOR BAN APPLIES

(Continued from Page One.)

treasury secretary also was charged with the formulation of regulations for the enforcement as to foreign ships, to begin as soon as they can be promulgated.

Court Test Anticipated. The next development awaited in the situation, as foreseen by both Attorney General Daugherty and Chairman Lasker, was a move by foreign lines to secure a final determination in the courts of the application of American drug laws to foreign ships entering American territorial waters.

In the opinion, these were construed to include waters not only within the three mile limit of continental United States, but also of the Philippines, the Hawaiian Islands, Porto Rico, the Virgin Islands and Alaska, the Panama Canal Zone being exempted because of its specific exemption in the enforcement statute itself.

With the government already advised that a case is about to be filed which would bring the issue as to foreign ships to the supreme court Chairman Lasker was of the opinion that the foreign lines would first seek to restrain enforcement of the law by an injunction, which he said it was reasonable to suppose the courts would grant.

Lasker Claims Handicap. Mr. Lasker also expressed the opinion that regardless of the decision of the supreme court, American ships would be placed at a permanent disadvantage, citing as an illustration that even though the interpretation as to foreign ships were upheld, it would not prevent their selling liquor to the three mile limit, where remaining stocks could be dumped overboard.

The shipping board chairman expressed the opinion that the enforcement would undoubtedly hamper the board's efforts to build up American shipping to the Orient and South America. The disadvantages which he believed would result to the American merchant marine would make more necessary, he said, enactment of the ship subsidy bill if the American flag was to stay on the high seas.

May Appeal to Congress. There was a suggestion today that congress might be asked to take up the bill introduced more than a year ago by Representative Edmonds, Pennsylvania, ranking republican of the house merchant marine committee, which would permit American passenger ships engaged in foreign commerce to sell liquor beyond the three mile limit.

At hearings on the bill before Chairman Volsteads judiciary committee, representatives of American shipping lines contended they could not compete with foreign vessels on which liquor was sold. Officers of the Anti-Saloon League vigorously opposed the measure, declaring it was their intention to extend the American drought to the seven seas.

BOHLER TAKES 26 PLAYERS ON TRIP

Twenty six members of the Bearcat football squad, accompanied by Coach Bohler and assistant Coach Sparks, left this morning at 8:30 o'clock via the Oregon Electric for Eugene where they will give battle this afternoon to the Lemon Yellow eleven.

The large number are being taken by Bohler in order that he might give the most of them a chance to show their wares. It is said that the substitutes are nearly as good in some cases as the men starting the game and the team will not be materially weakened by a change. At the same time the new men will be getting valuable experience. "We can't expect to win but will consider it a victory if we can keep the score down," Coach Bohler said this morning just before leaving. "I expect to give as many of the men as possible a chance so that when we play some of the teams where we have a chance of winning I will have experienced men to use."

The men who will likely start in today's game for Willamette are: White, c; Jones, rg; Stolzheise, lg; Moore, rt; Baggot, lt; Carey, re; Patton, le; Bain, q; Zellar, Capt. rb; Isham, lb, and Sherwood, f. The other men who were taken are: Bird, Booth, Cramer, Caughlin, Dimmick, Skirvin, Chapin, Warner, Helsey, Huston, Dunnette, Logan, Reynolds, Oliver and Allen.

FIRST WESTERN ROAD RENEWS WAGE CONTRACT

Chicago, Oct. 7.—(By the Associated Press)—The Chicago, Rock Island and Pacific railway company today renewed for one year its wage, working rules and conditions agreement with its engineers, the first road in the west to do so.

It was learned the brotherhood of Locomotive engineers and locomotive firemen and engineers must sign such agreements individually with the railroads, inasmuch as the committee representing the western managers association has disbanded.

McQUAY-NORRIS PISTON RINGS, PISTONS & PINS

Renew Your Motor's Power
Every once in a while you bring your team in to be re-shod. You know you can't have horse-power without horse shoes. Now, isn't it reasonable not to expect horse-power from the motor of an automobile, truck, tractor or engine that has worn parts in it?
When the pistons and piston rings are worn, the motor wastes gas and oil and can't produce power. It doesn't mean that you need a new machin. Thousands of added miles of car life and many added hours of power usefulness can be given most motors by renewing their piston rings, pistons and pins. If these three vital units in your motor are worn, gas and oil saving alone will usually pay the expense of installing McQuay-Norris Piston Rings, Pistons and Pins.
Wherever you plan to have the work done, you can secure prompt service by ordering McQuay-Norris products.

Pistons and Pins \$125
McQuay-Norris Water-tight Pistons and Pins—gray iron pistons as light in weight as safety pistons—specially designed for replacement—available in standard sizes and thousands of over-size—plus of special hardened steel, ground to exceptional accuracy.

\$100 Per Ring
Keeps lubricating oil out of combustion chamber. Collects excess oil on each down stroke of piston and empties on up stroke, which ordinary grooved rings cannot do. Each ring packed in a parchment container.

50c JIFFY-GRIP
A one-piece ring. Non-burning joint, which can be fitted closer than ordinary step cut—velvet seals—3/16" sealing. "Sets in a fit." To keep them clean and free from rust, each ring is packed in an individual glassine envelope.

Snap-Rings
Of the highest grade. Raised above the average by McQuay-Norris manufacturing methods. Their use lowers all the maintenance possible for you to get from a plain snap ring. They are packed twelve rings to the carton and rolled in waxed paper.
