

DOCTORS PROTEST ATTACKS MADE BY K. K. K. NURSE

To the Editor: We the undersigned members of the medical profession of Portland, hereby voice an emphatic protest against the campaign of vilification conducted by a certain woman lecturer and her associates—directed against the Sisters of Providence and St. Vincent's hospital, Portland.

Our daily contact for years with the sisters and their hospital has thoroughly familiarized us with their lofty standard of personal morals, their unimpeachable character and efficiency. Not being of the Catholic faith, we have no ends to serve except the highest standards of our profession; as medical men, we value our own reputation and integrity too highly to be actively associated with any organization or institution upon which serious reflections could truthfully be cast. Therefore we regard this vilification of the sisters and their institution as a reflection upon ourselves.

We denounce as the crudest and most malicious form of falsehood statements like these: That the sisters are cruelly treated by their superiors; that they are enslaved; that they are deprived of physical liberty; that there are moral irregularities of any kind connected with their sisterhood or their private lives.

The untruthful labors and countless benefactions of the Sisters of Providence and their hospital (St. Vincent's) during the long term of devoted service in Portland—merit for them the deepest gratitude from our citizens. These should be deprecated and denounced the libelous falsehoods and slanderous insinuations, which the above referred to "ex-nun lecturer" (Lucretia or Elizabeth Schaffner) has been disseminating.

tured because they were "the most consistent fighters."

Of course, the Giants have ability. The Giants are giants. Courage without skill in the last five days at the Polo Grounds would have been as useful as an untrained doughboy marching against a battery of big Berthas.

Strategy Proves False.

No mean loss were the Yanks. It was courage and skill that enabled long George Kelly to straighten out Joe Bush's fork ball in the eighth inning of the game yesterday when the Giants were one run behind and the bases were full with two out. He had just been belittled by Miller Huggins, the Yank manager, who had ordered Bush to pass "Pop" Young to get a chance at the "easy mark."

That play was the climax of the game and the series, and will remain a matter of controversy. Some say that Huggins was justified in having Young walked to get at Kelly. Many, including McGraw, himself, say it was smart baseball. Long George was the weakest batter in the winning lineup. Young was an almost hitting certainty.

Bush Defies Orders.

But Huggins did not figure the human element that McGraw calls courage. The Yank manager had expected his pitcher, Bush, to be a soldier. But Joe is a star and a temperamental. Before the 40,000 he flouted his manager by plainly showing his disgust when the order to pass Young was given and shouted, "Aw, let's play baseball."

At any rate he was off his stride when Kelly came to bat. He sent over a wide one. Then he shot one of his fast ones. Kelly, awkward and gaunt, bent over the plate. His lips were set. He gripped his bat tightly. He met the fast one squarely—the tying and winning run scored.

As in two of the preceding games, the Yanks gained a lead and then dissipated it.

Yanks Score First.

In the first the Americans scored once on Dugan's single to center. Ruth's sacrifice bunt and Pipp's liner to center that went for a hit.

McGraw's men overcame this score in the second, when Emil Meusel scratched a hit to Dugan. Walker walked, Kelly sacrificed and Cunningham sent both runners in with a single to center. The Yanks tied the count in the fifth. Ward walked. Scott singled to right. Bush singled to right and scored Ward.

The Americans took the lead in

Foster, Oregon.—"I used Lydia E. Pinkham's Vegetable Compound for pains across small of back. They bothered me so badly that I could do my work only with the help of my husband. One day he saw the 'ad.' in our paper telling what Lydia E. Pinkham's Vegetable Compound is doing for women, so I began to take it. It has helped me wonderfully. I am feeling fine, do all my housework and washing for seven in the family. I have been irregular too, and now am all right. WOMAN SWIMMER IS SPEED PEER OF MEN

Hamilton, Bermuda, Oct. 9.—Swimmers here today are discussing the world's records made by Sybil Bauer of Chicago at St. George Saturday night, including the feat of excelling a world record made by a man. In the 440-yard back stroke race Miss Bauer won from Ethel McGary, New York, establishing world records in the 300, 400 and 440-yard marks, the figures being respectively 4:19 2-5, 5:50 and 6:24 4-5. The old record was 6:28, held by Harold Krueger of Honolulu. This was the first time in the history of swimming that a woman has beaten a world record set by a man.

Walter M. Pierce On Taxation

(From an Address Made at Albany, Oregon, October 4, 1922)

I came into this State 40 years ago, a wandering boy, working as a farm hand. For 30 years I have been in public office. I have never deliberately misled or deceived anybody. In public life I have tried to play absolutely square.

When I was nominated last May, I said to my friends: I will carry the message of lower taxes to the people of this State. I have no money, but I expect to make a hundred speeches. Five times I have touched the ocean, and gone from California to the river in Idaho three times. I have gone wherever the invitation was extended; wherever I could meet a little group and talk to them about what I think is a startling state of affairs. I am trying to do it fairly, honestly and in the open.

Friends, if we save Oregon from the auction block, if we save our property from confiscation by taxation, we have got to do some very hard thinking. To my mind, the tax question is the foremost problem in Oregon today. It rises above all else. The question is: Are you going to own your own homes and your own farms in future years, or are they going to be taken from you by the rising tide of taxes?

The rental value of all property in Oregon is too high according to the value of the property, caused by the high taxes. It doesn't cut much ice in the money markets when the property passes away from the man who thought he owned it. He is left with the husk; the kernel is gone.

When I went to the Senate the first time it took about 15% of the rental value of property to pay taxes. That year Umatilla county raised 3,000,000 bushels of wheat. Our State taxes were \$100,000 in that county; 3 1/2% of the wheat crop paid its taxes. This year that county produced 4,000,000 bushels of wheat, while her taxes are \$1,549,000, of which \$433,084 is State tax, while the whole is 40% of the value of the wheat crop taken for taxes. The population of the State then was about 313,000. Now it is not quite 800,000.

When I entered the State Senate 20 years ago, \$1,000,000 was the total State expense. When I returned to the Senate six years ago it was \$2,500,000 per year. Today \$15,000,000 or more is collected from us in taxation. Can this tide continue to rise if we keep our property? How high is it going to go?

There is collected \$6,000,000 in fees now, six times as much as we spent 20 years ago; more than twice what we spent six years ago.

In knots and in groups I have been carrying this message to the people: "THIS MUST STOP!" I shall continue to carry it until election day.

I asked Mr. Day, as Secretary of the Tax Investigation Committee, to collect some figures for me. According to these figures, there are only five or six States in the Union that have more bonded indebtedness than we have. In wealth and population we rank down about thirty-sixth. The figures show we are spending more money for State government than the State of Kansas. Kansas spends \$8,500,000; we spend \$15,000,000, while Minnesota spends only \$1,600,000. You ask, "Why is Minnesota away down there?" It is because Minnesota has raised from indirect sources the larger part of her revenue for State purposes, while we have raised it from the farmer, the cattle man and the sheep man. They thought these men could not kick, but

they ARE kicking today. If I do not miss my guess, they will show still more kicking in November.

Minnesota collects 5% upon all public service corporations in that State. California pays her State taxes in the same way. That should be done in Oregon. You may say this tax comes back upon the people. Just the same, it is spread out on more people. It is not on a few scattered farmers.

Today we are confiscating property and ruining the people of this State, who are feeding us. They cannot operate their farms at a profit, and they cannot pay the heavy taxes levied upon them.

Minnesota collects 25 cents from every ton of ore dug up and taken from the State. This is done by a severance tax. When you take a product from that State, you must pay for the privilege. I was at a place in Oregon where they showed me a mine from which a company had taken out a million dollars in gold. It was owned by citizens of England. They had not paid a dollar in taxes to the State of Oregon for removing this great wealth.

A severance tax has been levied by several States in this Union. It is something for us to talk about and consider. In a few years Oregon's beautiful forests will be blackened stumps. Here we allow the Government to set aside great forest reservations, from which no taxes are received. From forests in the reserves Easterners cut the timber and ship the lumber to Oklahoma. Thus from Oregon's great forests in the reserve there come no taxes to support the State.

We have \$10,000,000 in bonded indebtedness for the soldier boys. I don't regret the money we gave them. It was Senator Smith of Coos and I who introduced the bill. Two and a half million dollars have been raised to encourage the boys to go back to school. I am glad we have given this money to them. We can never do too much for the men who went down on the fields of France to do and die.

We have on the ballot a measure to impose a flat income tax. I am opposed to that, but I am in favor of a graduated income tax, because I believe the man who has the large income should pay more than the man who has the small income.

A gross earnings tax would be another source of revenue.

The cattle grower certainly needs relief. Cattle are selling cheaper than they have sold in 30 years in proportion to cost of production. A million head of cattle in this State are going to the butcher's block. They simply cannot be produced for the money that is paid for them today. The burden upon the farm and ranch has become unbearable.

There is no question in this campaign but that of taxes. There is no other thing to talk about. If I don't do anything else, I am going to do this to the end of time. You can in six years drive this State into bankruptcy. I have done and am doing the very best I know how to carry this message of lower taxes to the people of Oregon. Extravagance must stop! Expenses must be reduced! Taxes must come down!

It all depends upon you who read these words. You can say by your ballot in November whether you want to go on paying this terrific cost, or whether you don't.

My pledge is this: If elected Governor, I will do every proper thing within my power to reduce taxation in Oregon. On this basis I ask your support and vote.
