FIRST RAILROAD RUN TO JOLIET REENACTED TODAY

Chicago, Oct. 10 .- A special train rolled out of the LaSalle street station this morning just 70 years after "the first run" to Jo-liet, III., on the Chicago, Rock Island & Pacific railroad. At the throttle was Charles Hayden, chairman of the board of directors of the Rock Island.

The re-enactment of the first run from Chicago to Joliet was part of the railroad company's celebration of 70 years of service. The principal parts of the observance took place in Chicago and Joliet but the anniversary was also ommemorated in special ceremonies in scores of cities and hamlets along the Rock Island's \$000 miles of rails.

Aboard the train was President J. E. Gorman of the Rock Island. other officials of the road, including the directors, officials of the Union Pacific and its president, Carl R. Gray, and Mrs. W. W. Stevens of Hubbard Woods, Ill., who was a passenger on that first train on the first link of the sys

tem in 1852.

CEMENT WORKS PLAN JOSEPHINE RAILROAD

Grants Pass, Or., Oct. 10 .-That the Beaver Portland Cement company at Portland and Gold Hill is planning on extensive development work in Josephine ounty was indicated Monday when the company inserted a call for bids in a local paper for the construction of three miles of standard-gauge railroad and 6000 et of tramway to the Cheney reek lime quarries to connect with the California & Oregon oast tailway. It is also probable hat a plant will be erected near rants Pass upon the completion the railroad, the whole enterto cost approximately \$1, 00,000. The new rallroad will b own as the Marbie Mountain

Advance Sale of BLANKETS AND COVERINGS

"Firewood, driftwood, oil stoves and soft coal may have to be used to keep Salem warm this winter," says E. H. Outerbridge, chairman of Governor Miller's State Coal Commission.

He should have added BLANKETS!

.The papers are full of such talk-and it is more than talk. It is a fact! No matter how soon the coal strike ends, there will be a coal shortage this winter.

Well, if you can't get coal, get blankets!

And get them now. There may not be a shortage of blankets-though that is possible under an emergency demand caused by a coal shortage-but wool is advancing in price, and blanket prices will have to advance, also, sooner or later.

Raw wool is up from 50 to 100 per cent, according to grades, since November of last year. And the tariff may send it higher.

Blanket manufacturers are even now sending notices of advance. Such notices came only a few days ago.

The blankets we offer in this sale were contracted for when wool was at rock bottom-lowest for many years---and in addition we are selling them at close profit, which means the values are really extraordinary.
