YARD MASTERS GIVEN 25 PERCENT INCREASE IN PAY

Chicago, Oct. 16.—(By Associated Press.)—An eight hour day with overtime, which is said to amount to nearly a 25 per cent increase in pay, were granted approximately 2,000 yardmasters on 25 class one railroads and at six switching terminals by the United States railroad labor board today. This is the first time the board has established rules and working conditions for yardmasters who now are classified as subordinate officials and subject to the board's jurisdiction under the transportation act.

25 Percent Advance By establishing the eight hour day with pro rata overtime wages, the yard masters affected virtually have been awarded a 25 per cent wage advance, according to J. S. Eldridge, president of the railroad yard masters of America. The organization is international in scope.

The ruling affects all yardmasters as were classed as officials under a ruling of the interstate commerce commission on last November. On at least 12 roads yard masters have agreements with the railroads which will govern in those cases.

The Delaware & Lackawanna, the Pennsylvania and the Illinois Central railroads were excluded from the decision today. W. L. McMenimen, a labor member of the board, although contending that those three roads were properly before the road in the matter, voted to exclude them in order to obtain a decision which otherwise would have failed for lack of one vote.

The rules provide that yardmasters required to work seven days a week shall be given two days off each month.

The Yard Masters' Association is said to have a membership of between 4,000 and 5,000.

Among the roads affected by the decision are the New York Central lines east and west; Baltimore & Ohio; Kansas City Southern, Kansas City, Oklahoma & Gulf; Missouri Pacific, San Antonio & Kansas Pass; Denver Union Terminal; Fort Worth & Denver City; Gulf Coast Lines; Sea Board Airline; Texas & Pacific & Wabash.
