

JUDGE GEORGE CHOSEN SENATOR FROM GEORGIA

Atlanta, Ga., Oct. 18.—(By Associated Press)—Walter F. George former justice of the state supreme court, with a total of 304 county unit votes was overwhelmingly nominated as successor to the late United States Senator Thomas E. Watson, in yesterday's special democratic primary, according to complete unofficial returns compiled by the Atlanta Constitution today.

The victory of George marked the second defeat of Governor T. W. Hardwick within as many years and, according to political observers, showed that the Watson block of votes, estimated at 50,000 at full strength, remained intact and voted almost solidly for the former court justice.

Of the 160 counties in the state, George carried 125, giving him 95 more convention votes than the 208 required for nomination, according to the Constitution's complications. Governor Hardwick carried 23 counties with 76 unit votes; Seaborn Wright, seven counties with 22 unit votes, and John R. Cooper none, the newspaper's figures showed.

Definite reports of the popular vote in 71 counties gave George 27,914; Hardwick 19,026; Wright 7063 and Cooper 400, it was stated.

The democratic state convention meets October 26 to confirm the results of yesterday's primaries. The convention nominations are considered equivalent to election in the November vote.

American Women Are Careless

Women are too apt to overestimate their strength and overtax it. When feeling well they take unnecessary chances, which in the long run cause much pain and trouble. Wet feet, exposure to cold, lifting heavy burdens and overwork will often develop troubles which cause no end of suffering. Lydia E. Pinkham's Vegetable Compound is the unfailing remedy in such cases. Thousands of American women will testify to this fact who have regained health and strength by its use. If you are suffering it will pay you to give it a fair trial. (adv)

SALEM'S BEAUTY LURES SETTLERS

Last July Mr. and Mrs. Brockman and family, tourists from Spokane, were registered at the local camp ground. They had a desire to move to Oregon so decided to look about the state before finally making their choice.

At the time the party was first here they said that they liked Salem exceptionally well and if Mr. Brockman could find a suitable place to open a photograph studio they would stay. However, no opportunity seemed to present itself so the family went south. After passing through Medford, Ashland and Roseburg, without finding a place as well liked as Salem they decided to go to The Dalles. They were not any better impressed there than at the other places so it was decided to return to Salem and make another attempt. For a month Mr. Brockman looked for a place and at last found where he could go in with an established studio.

It is just another case of where the beauty of Salem was so appealing that a homeseeker couldn't keep away. Mr. Brockman was connected with the Alexander Film company in Spokane for a number of years.

You Are Choosing Today between spending a little for paint now or spending heavily for repairs later

YOU can't escape the choice. Either your buildings are well protected by paint or they are rotting and will require repairing or rebuilding within a few years.

When you paint use the best paint. It costs less in the long run. It spreads more easily—saves labor cost. It covers more surface per gallon than "cheap" paint.

But most important, the best paint serves you five or more years longer than "cheap" paint.

We have been making the best paints for 73 years. They are scientific in formula and preparation. They meet the weather conditions in the West.
