

CAR OF PRUNES SHIPPED DAILY FROM DALLAS

Dallas, Or., Oct. 18.—The big Dallas plant of the Oregon Growers Packing corporation is now working to full capacity with a large crew and in a number of the departments a day and night crew is being worked. The newly harvested crop of prunes is the main cause and they are being received in large quantities at all hours of the day.

The large main building is packed with sacked prunes from floor to ceiling and they are being worked through as rapidly as possible. The crop is larger than at first anticipated and it looks as if there will be no cessation in the arrival of prunes.

The crews are now being cut down in size to some extent although it is expected that a goodly number will be employed most of the winter. At the present time 42 employees are at work in the packing house and 28 in the dryer, circulating about \$1300 weekly in Dallas. In addition to packing and grading prunes a crew of seven is at work grading and packing apples. This department is in charge of P. Maulding, who has been connected with the asso-

ciation for about four years. He understands the business and when an apple once passes through his hands its safe bet that it is ready for an epicurean's palate. An average of 185 boxes are packed each day and each of these boxes contain 125 apples neatly wrapped in paper and each of uniform size. The Spitzenburg's, Delicious and Newtown varieties are packed in three grades and other varieties in extra fancy and fancy grades. Mr. Maulding states that the apples are of as fine as years and as clean as any that he has seen during his three years work in the Willamette valley.

Prunes are being sent out in carload lots, averaging about one carload each day. Some of these are consigned to European markets and the balance to the eastern markets. In the prune drying and grading department a day and night shift are working. The grader in charge of the day shift is Ralph Savery, who acts as foreman, and Mike Benedict, who acts in the same capacity at night. Harry Butz, a veteran at the game, is head processor. In charge of the receiving end of the plant is O. B. Long and the shipping department is handled from the main office.

The magnitude of the department in which is handled the walnuts would be a surprise to many who do not realize what the raising of nuts means to Polk county. In this department which is located in the top of the dryer building, W. E. Greenwood is in charge, working at present four men. A night shift in this depart-

ment was put in operation Monday evening. About two tons of walnuts are received daily.

In preparation for this rush, Charles E. Ramp, plant manager, had everything in complete readiness. The entire building had been given a complete overhauling and considerable new equipment added. The work of turning out the finished product is being handled in a systematic manner and as expeditiously as the large crew can do it.

BASKETBALL TEAM FOR MILLS CITY

Call for basketball men at Mills City to select material for an inter-department tournament. I brought 32 men, seven of the number being members of the last year's regular squad.

Four men from last year's high school team reported to strengthen the line of available timber for a fast independent team.

The following men qualified for places in the five team tournament:

Robert Quinn, Bob Haseman, George Cox, E. Carter, C. O. Bradley, Fred Ellsworth, L. S. Hatch, Frank Harris, Ray McLain, Walter Morgan, H. J. Reeves, Fred Olin, Z. Catherwood and L. S. Balzinger.

George Griffith made a short talk at the luncheon of the Kiwanis club yesterday in which he urged the Kiwanis to aid the Chamber of Commerce in its conducting drive for funds.

EVANGELIST TO CAMPAIGN HERE

The Court street Christian church of this city is planning quite an extensive evangelistic campaign for the month of November. John T. Stivers, evangelist, and Dr. H. C. Epley, music director, will conduct the meetings. Mr. Stivers has been a successful pastor and evangelist in the west. For the past two years he has been serving as pastor-evangelist for the Eugene Bible university. He is soon to become the state evangelist for the Churches of Christ in Oregon. Along with this able leader the local church counts itself fortunate in securing the services of Dr. H. C. Epley as song leader. He is a prominent citizen of Salem and for years has directed music at the First Christian church in this city. He is an able leader and worker in the church life of this city.

The present pastor, R. L. Putnam has been with the church for three years and is now in his fourth year. During that time the

membership has multiplied itself four times the size at time he took the leadership. There is now a membership of 300. The present building is taxed to capacity with a live graded church school. Also the church property is free from all incumbrances at the present time. It is the hope of the leadership that in a short while they may have a new plant and one that will meet the need of that fast growing community in east Salem.

The Parker-Shrode studio has again been selected to take all the pictures for the Willamette university year book, the Wallulah. The sale of the coupons at the school is now being held.
