

FRANCE JOYOUS OVER DOWNFALL OF LLOYD GEORGE

Paris, Oct. 21.—(By Associated Press.)—The dominating note in the French press comment on the fall of the Lloyd-George cabinet in England is that the change cannot fail to make negotiations for the settlement of Europe's problems easier. To the majority of the papers it is looked upon as a victory for France.

Andre Tardieu, writing in the Echo de Paris, however, advises care in passing judgment. "It will be the vogue of the moment, no doubt, to say that the departure of Lloyd-George is a success for France," he says, "but prudent people will take time to judge."

L'Homme Libre says: "Franco-British relations have reached an acute and painful point. With another than Lloyd-George, there cannot fail to be an improvement, with local effort and after frank explanations."

Gustave Herve, editor of La Vie, giving a sigh of relief, says: "Lloyd-George is finally overthrown. Now perhaps it will be possible to proceed seriously to the reconstruction and pacification of Europe."

Le Journal warns the French people against counting upon a complete change in the British policy.

TRACING BONDS STOLEN IN MAIL TRUCK ROBBERIES

Minneapolis, Ind., Oct. 21.—Deputy United States marshals today continued their search for the persons indicted by the federal grand jury charged with violation of the penal code in connection with the disposition of bonds stolen in mail truck robberies in New York and Chicago.

Nine of the 26 indicted persons had surrendered yesterday and several others indicated they would do so today. All those taken into custody were released on bail.

Lafayette French, United States district attorney for Minnesota, said today that the bonds referred to in the indictments were circulated principally in New York, Chicago and the Twin Cities.

"Chicago," he said, "seems to have been the clearing house. Fully \$1,000,000 were circulated in Minneapolis and St. Paul. These are believed to have been brought here from Chicago by two men who were then aided by local accomplices."

"Some of the buyers undoubtedly had a guilty knowledge that the bonds were stolen. Other persons, however, were no doubt innocent purchasers, believing they were obtaining legitimate securities."

A. B. Christofferson, president of the Midway State bank of St. Paul, who, with the vice-president of his bank, was arrested yesterday, declared his bank had been unwittingly involved in the disposition of stolen bonds, through handling them as security for a client in a deal.

MARINES LEAVE SAN DOMINGO TO NATIVE RULE

Washington, Oct. 21.—Formal installation of a provisional government in the Dominican republic today, to be followed by withdrawal of the American military forces there, is provided in a proclamation issued by the military governor in accordance with a plan of evacuation to be carried out by the provisional authorities.

In announcing plans for evacuation of the republic last night, the provisional government would be headed by Senor Juan Batista Vicini-Burgos and cabinet officers selected in accordance with the evacuation agreement. Withdrawal of American marines, according to the terms of the proclamation by Rear Admiral Samuel S. Robinson, military governor, will be as soon as the provisional president has ratified executive orders and laws of the administration in the island.

In taking the oath of office, President Burgos would further bind himself in carrying out the terms of the evacuation agreement to do all in his power to further restoration of constitutional government through elections free from the intervention of military government.

To the Editor: There seems to be many people with somewhat erroneous ideas concerning the so called compulsory school bill. Let us hope there is no one in this state who does not agree with a letter in this column of October 18th in one statement, that "the public school system is a grand and beautiful system" and money spent in it is well spent. No one denies that, not even the most radical opposers of the bill. To do away with the American public school system, in its entirety or in part, is not contemplated by anyone. The question is not whether our public schools shall continue intact and our private schools as they are, but the question is whether our private schools of all kinds shall be abolished?

It would be very interesting to know just how many of these people who are so anxious to abolish all private schools are actually acquainted with their work. How many of these people have ever visited for a day, or a half day even, any private school? How many of these people have made a careful examination of the course of study in the private schools and compared it with that of the public schools? How many have compared the educational qualifications of teachers in the private schools with those of corresponding grades in the public schools? If you have not done this with the utmost care are you prepared to abolish such institutions. What some one has told you is apt not to be correct. The only way to ascertain exactly what the private schools are doing is to go, if possible, if not, then write directly to the private schools; and not just one but several. It is only the most ignorant who already know everything that is necessary. Let us raise ourselves above that class, admit that we don't know all that there is to know on the subject and get busy and get some genuine facts first handed.

The greatest educators of today have awakened to the fact which they are now urging, that there can be no real education without systematic religious training. The advertisements for this bill state that it would not interfere with parents giving their children whatever religious training they see fit, but that is not true, for when parents are forbidden to send their children where they can receive religious training as a part of their education, the right of religious liberty is certainly abridged.

To the Editor:—In your valuable paper of October 18 in the "Open Forum," I noticed two calumnious articles about the Catholic religion in general and the parochial schools and teachers in particular. One article is signed by Paul Girod and the other by A. W. Zoeliner.

To go into details with these two knights of the know-nothing brigade would mean to carry "owls to Athens." Nor will I reveal the secret to them why true Catholics don't patronize neither the divorce courts nor the criminal courts, because if the patronage of these two and other semi-criminal courts is the measure of 100 per cent Americanism, then we Catholics yield to the charge of "falling way below the mark. But I will put the two gentlemen on the trail of another secret, which they follow if they are sincere. Now watch: Five miles southeast of Salem there stands a large "melting pot," people used to call it "reform school," and I guess it is that yet, although the name has been changed, because the term "reform" was rather too odious to some 100 per centers. Anyhow, they may ask the 200 or more boys who have been sent there by the juvenile courts for correction, how many, if any, of them have attended a parochial school from their 6th to their 14th or 15th year. If these 200 or more boys had attended a parochial school from their 6th to their 15th year, the reform school, this big taxpayer of the people's taxes, would be stonedead. On the other hand: If the parochial schools never had accomplished anything else but kept their boys out of the reform school, they have been and are still an immeasurable benefit to the commonwealth and the taxpayers of the state.

Hope you two gentlemen will find your way to the secret why there are no Catholic school children in the reform schools. If you won't believe me, go to any judge of any juvenile court and ask him his opinion in regards to a state reform school. He will tell you that it is only a short step from there to the penitentiary. I thank you.

A Sturdy Six at the Price of a Light Six

At its new low price the Jewett Six is still further removed from the possibility of legitimate comparison or competition.

This Paige-built six-cylinder, 50 horsepower automobile was introduced to the public less than a year ago as a new standard of value. On that basis it made good with a success of amazing proportions, for here at last at the price of a so-called "light" six was a six of genuinely sturdy construction. Every

part and unit was found to be more than equal to the demand of any speed, or any condition of the road.

The car that unquestionably established a standard of unprecedented value has now been reduced to \$995 f. o. b. factory. There is just one way to understand what this price means. You must examine the Jewett, ride in it, and then compare it with any other five-passenger six.

The complete Paige-Jewett lines of six-cylinder passenger cars offer a selection of thirteen models priced from \$995 to \$3350. The complete line of Paige trucks meets every haulage need. They are sold and serviced by Paige dealers everywhere.
