months with a trouble which confined me to my bed and was only able to be up part of the time, when I was advised by a friend, Mrs. Smith, to try Lydia E. Pinkham's Yegetable Compound and Liver Fills. I was so much benefited by the use of these medicines that I was able to be up and about in two weeks. I was at the Change of Life when I be-gen taking the medicines and I passed over that time without any trouble. Now I am hale and hearty, do all my housework, washing, ironing, acrub-bing, and cooking, all there is to do about a house, and can walk two or three miles without getting too tired. I know of several of my neighbors who have been helped by your medicines. "—Mrs. EMMA CULVER, 705 E. 7th St., Metropolis, Illinois. To may depend upon Lydia E. Pinkham's Vegetable Compound."

System Service without charge.

The ordinary business house cannot design its own system any more than it can make its own cabinets to fit the system. We maintain a staff of skilled office engineers for this workand the service is given free. These men are masters of every known filing method. If nothing already manufactured seems to fit, they design what will. They are instructed to dissuade customers from extravagant and purposeless buying of cabinet equipment, and to treat every customer as if he were employing them to give him expert advice.

There is no such thing as a ready-made, handme-down filing system. Insurance companies need one thing; mercantile houses, another; banks, another. Every office has problems and combinations of methods peculiar to itself. To a certain extent the supplies can be standardized, but in all cases the application must be individualized-and is. This is why we cannot designate our supplies as parts of the cabinets. Separate data of Filing Systems and supplies on request.
