

OLCOTT URGES ALL TO EXAMINE OFFICIAL RECORD

Corvallis, Or., Oct. 31.—Governor Ben W. Olcott, in an address tonight hammered hard against false statements made by Walter M. Pierce, democratic nominee, and urged the voters to examine closely the achievements of his administration.

Governor Olcott explained the reasons of the chief executive, reviewed his work as member of the board of control, told of his lack of authority to control tax matters by the veto and of his successful efforts to keep down expenses at the penitentiary, which is the only institution under his complete jurisdiction.

The governor declared that without any large appropriations for the purpose, the penitentiary had been so changed that it is now a better institution than those of any state wherein tens of thousands of dollars have been expended in recent years. In making this transformation the governor every effort had been made to curtail the expense in the interests of the taxpayers.

Figures were presented to show that instead of spending \$15,000,000 annually to conduct the administrative branch of the state government, as alleged by Mr. Pierce, this cost aggregated only \$3,000,000. Of this amount the governor said that \$1,000,000 of the money had been expended in caring for the insane and other charges of the state.

In defense of the state highway commission, which was attacked recently by Mr. Pierce in his Ashland speech, Governor Olcott said that his department has been given a free hand and had not been embarrassed by political interference.

T. B. Kay, ex-state treasurer and member of the legislature, referred to the severance tax and gross earnings income tax, which Mr. Pierce said would save the taxpayers of Oregon many thousands of dollars annually.

WOODBURN GRANGE PROTESTS '27 FAIR

At the last meeting of Woodburn Grange No. 78 the following resolution was adopted unanimously with request that it be published in The Capital Journal:

Whereas, During the past few years the farm has reached its lowest ebb as merchantable property, and the farmer has been stung in the re-action from war boosting harder than any one else; and

Whereas, He has seen his prices drop while his overhead remains extremely high, and there is a persistent effort on the part of some citizens who are ambitious to farm the farmer, by devising additional and exorbitant taxes; while we wish to go on record as favoring a 1927 world's fair at Portland on a safe and sane basis that does not play into the hands of the big interests, therefore, be it

Resolved, That we are emphatically opposed to financing the fair by a general tax levied on the real property of the entire state, but favor the organization of a stock company to be financed by voluntary subscriptions, and conducted on strict business principles.

O. C. WELLER, Secretary.
Woodburn, Or., Oct. 31, 1922.

TWO ARRESTS BECAUSE OF LOST AMERICAN

Moscow, Oct. 31.—(By Associated Press).—Two arrests have been made in connection with the disappearance two weeks ago of Philip J. Shield, American relief worker at Simbirsk, according to a telegram received here from Colonel William N. Haskell, head of the field forces of the American relief administration.

Until Saturday the authorities were inclined to believe the relief worker, whose home is in Richmond, Va., had committed suicide, but early yesterday certain developments not yet made public led them to believe that Shield may have been murdered.

Co-Lo
Restores Original Color to Gray Hair

Co-Lo restores the natural color, life and luster to gray and faded hair in a manner nature approves—a scientific process perfected by Prof. John H. Austin of Chicago, over 40 years a hair and scalp specialist.

Secrets of Co-Lo Success
Co-Lo is a wonderful liquid. Clear, odorless, greaseless. Without lead or sulphur. Without sediment. Will not wash or rub off. Will not injure hair or scalp. Pleasing and simple to apply. Cannot be detected like ordinary hair dyes and dyes. Will not cause the hair to split or break off.

Co-Lo Hair Restorer for every natural shade of hair—A8, for black and dark shades of brown; A7, for jet black hair; AB, for medium brown shades; A9, for light brown and Auburn shades.

At All Drug & Dept. Stores

Trial Bottle of Co-Lo
Post Co-Lo yourself. Tell exact shade of hair, on case to assist for postage and packing. Write today.

HEAVY SNOWFALL BLANKETS WYOMING

Cheyenne, Wyo., Oct. 31.—Under, the only Wyoming town which reported a heavy snowfall today, was digging itself out today with the flakes still coming down. The storm throughout the state was highly beneficial to the farmers and ranchers, as in many places the range was so dry that the grass was brittle enough to break off and blow away. Little loss of livestock is feared.

IT'S TOASTED
one extra process which gives a delicious flavor

PLAN UNITY OF EFFORTS IN FARM ORGANIZATIONS

Dallas, Or., Oct. 31.—A joint meeting of the Farm bureau, Farmers union and Grange was held in Dallas last week at the Woodmen hall. A fair representation of members from each of the organizations was present. P. O. Powell was elected chairman for the day and Mrs. G. B. Jones, secretary.

The main purpose of the meeting was to effect a concentration on all county work among the various farm organizations. Endorsement was made on the action taken by the three state executives at a recent meeting held in Portland, which was to outline a state plan for work. Considerable discussion followed in regard to united effort on the part of all farm organizations, and a committee of three was appointed to work out a plan of co-operation through the three organizations in this county. On this committee are W. J. Garner, Glen DeHaven and L. H. McBea.

At the afternoon session the report of this committee was read and adopted as follows:

1.—We recommend the efforts of the organizations be left in local organizations of the Grange, Farmers union and Community

clubs to be decided by the people in their localities.

2.—We recommend the work as being directed by the central committee as selected by the Farmers union, Grange and Community clubs. Each local organization entitled to one representative on the committee and the County Farm bureau be entitled to three representatives. By motion a committee was appointed to select a suitable time and place for holding the next meeting. The secretary was instructed to send out requests to all locals, granges and clubs interested in agricultural welfare to attend this meeting. This meeting was called by the committee to meet in Dallas on Saturday, November 25.

ESTIMATE 20,000 BUCKS SLAUGHTERED

Portland, Or., Oct. 31.—When the deer hunting season closes tonight, estimates of Captain A. E. Burghdoff, state game warden, the total number of bucks killed in Oregon this year will reach nearly 20,000.

The season as a whole was poor for hunting, as the weather conditions were unfavorable. During the dry spell in September and the first two weeks in October not nearly as many deer were killed as during the corresponding period last year, the warden said.

Startling Good News for Phonograph Owners!

Columbia discovers a process which produces records free from objectionable Surface Noise!

ROSA PONSSELLE is perhaps the most dazzling meteor in the history of grand opera. Here has been called the "voice of voices." Ponselle makes records exclusively for Columbia.

AS a phonograph owner you have always been annoyed by the swish and grinding and scratching noises of records. This "surface noise" has been considered impossible to remove. After years of experiment, the Columbia Graphophone Company to-day presents to the world a record that is virtually noiseless.

This record has been made possible by the discovery, in Columbia laboratories, of a process by which we are able to produce a surface material so fine in texture, so marvelously smooth, so free from friction that the phonograph needle travels over it almost inaudibly and with imperceptible wear.

The playing-result from the use of this new material is actually astounding—no other word can describe it. Melody unmarred by penetrating, obtrusive surface sounds, harmony without disconcerting scratch or scrape—think what this means to you and to every phonograph owner in the world.

This is made practical by Columbia's patented laminated, or three-ply, construction. The core or centre leaf in Columbia New Process Records, because it is absolutely distinct from the playing surfaces, is made of a harder, more durable substance. Over this rigid backbone are laid the two playing faces made of the new, ultra fine, ultra smooth surface fabric.

This laminated construction gives greatly increased strength and longevity plus the most noiseless surface ever perfected.

The invention of this new process record by the Columbia Graphophone Co.—for it is the genius-creation of Columbia engineers and chemists—marks the greatest outstanding improvement since the invention of the universally used disc record.

With New Process Columbia Records you get all the real beauty of voice; all the exquisite, delicate tones of the cello and the violin! You get melody uncontaminated by objectionable surface noise that has been considered impossible to remove UNTIL COLUMBIA REMOVED IT!

So great is our confidence in the enjoyment New Process Columbia Records provide that we ask you to tear out the list of records in this advertisement, take it to a Columbia Dealer and have him play them! Possibly he can play the same selections by other makers! Each comparison test will be a greater Columbia triumph!

You will be thrilled by the Columbia reproduction of every note, every inflection; of the most delicate phrasing—shades of harmony exquisitely expressed that have previously been LOST IN SURFACE NOISES!

In comparison with ordinary records, as made by other manufacturers, New Process Columbia Records will prove immediately preferable.

No other record can be like New Process Columbia Records. No one can produce anything even resembling them, for they are fully protected by broad basic patents.

In no other record can you get the same wonderful degree of surface quietness and pure, uninterrupted music, for the simple reason that Columbia alone possesses the secret of making a material which, employed as a surface for phonograph records, obliterates obnoxious and intrusive surface sounds.

This new substance does not hush loud surface noises. They are never created. Surface noise is merely friction, the point of the needle grinding on microscopic roughness and multiplied by the sensitive reproducer. In New Process Columbia Records this microscopic roughness is refined away till friction is almost a fiction.

With new and unbelievably quiet playing surfaces, the dream of making the phonograph a musical instrument of the highest and purest type has become a reality! Columbia's new surface discovery has solved the whole question! Reproduction of music has now entered a new and greater phase! To-day, the phonograph with the New Process Columbia Records is a masterful triumph. You can now buy Columbia New Process Records from any Columbia Dealer.

Go hear these Columbia Records! Take this list with you! Note the smoothness and fullness of Columbia tone! Note the beauty of expression! Note the seeming presence of the actual voice or instrument! GO hear these records to-day.

COLUMBIA GRAPHOPHONE CO., New York

- This illustrates the laminated construction of new process Columbia Records.
- A—illustrates the much smoother playing surfaces which are made of a new substance over which the needle travels almost inaudibly.
- B—illustrates the much harder centre core which resists warping.
