

POMONA GRANGE OF POLK COUNTY HOLDS MEETING

Saturday's sunshine early dispelled the fears of the most pessimistic as to the prospect of a good attendance at Pomona Grange, held on Saturday, the 28th, at the Brush College school house, good delegations motoring over from Monmouth, Oak Grove and Marion county.

The commodious two-room building, with its well equipped dining room and kitchen in the basement, which provides accommodation for its large school, serves, too, for all community gatherings, church, Sunday school, parent-teacher association and community club, as well as for the grange, which is a nucleus for their social life.

Georgous autumn leaves and vines had been freely used for beautifying tables, window ledges, walls and officers' stations, where they were arranged in art baskets and jardiniere, and in the dining room, effectively combined with rich hued dahlias and asters as centerpieces, achieved a most charming effect.

Speakers of the day, officers of Pomona and visiting patrons were given seats of honor at a special guest table. These, in addition to members of the local lodge with their families, numbered approximately two hundred to be seated, and much credit is due the two teams who regularly superintend the lodge dinners, for the beautiful hospitality they dispensed as joint hostesses both at noon and at 6 o'clock repast where a different menu was used.

Business Session Held.
The morning session was given up chiefly to routine business, P. O. Powell, master of Pomona, presiding.

Action was taken commending the plan worked out at the conference called by the executive board of the farm bureau, last week, at Dallas, where, together with the heads of the grange and farmers union, a plan was worked out regarding the organization of the county for handling marketing and other problems vital to the farmer producers.

A gentleman's agreement was reached not to duplicate the farm organizations already established in any district, but to work toward the better cooperation of those already established.

Education Keynote.
A rich program had been prepared by the Pomona lecturer, Mrs. A. W. Bartlett of Oak Grove. Rural education was the keynote of all addresses, talks and discussions, visitors participating in the latter.

Inspirational addresses by Professor Beattie of the Monmouth normal and Miss Cornelia Marvin, state librarian, held the closest attention of their audience. Professor Beattie made a strong plea for the consolidation of the rural schools, insisting that the one room, one teacher school is not more than 50 per cent efficient as compared with results in scholarship achieved in the city and consolidated public schools chiefly because of the too numerous grades and classes, and, often, inexperienced, poorly equipped teachers, and contended that it is far more important to have first

class teachers in the rural schools than in the city, where there is expert supervision.

Library Extension.
Miss Marvin gave an illuminating address upon the educational value of our public libraries, stressing the influence of our best known classics in inspiring high ideals, not alone in our own land, but told of astonishing experiences in meeting during her travels in the Orient, youths with an amazing comprehension of the heroic characters of our best fiction, and biographies of our heroes, calling attention to our culpability in permitting certain types of moving pictures purporting to typify American life, vulgar, buffoonery, coarse comedy, shown to those foreigners entirely ignorant that these pictures are caricatures as the pictures are explained by interpreters only a little less ignorant, thus giving a wholly erroneous impression of American morals and manners to those who are inclined to hold America up as worthy of admiration and imitation, the Oriental mind not having its sense of humor developed. Miss Marvin made a strong plea for the continuance of the county library system of circulating state owned books.

Miss Frank Haut, county librarian for Polk county, followed with detailed explanations of the actual service rendered, naming the stations when these traveling libraries are kept, showing what a boon this service is in the homes where ownership of a good library is made prohibitive by the present high cost of books.

Assembling Exhibits.
A. R. Ewing, master of Brush College Grange, gave a splendid talk upon the educational value to

Varicose Veins Are Quickly Reduced and Terrible Eczema Goes Quickly

Strong, Powerful Yet Safe, Surgeon's Prescription Called Moore's Emerald Oil, Has Astonished Physicians

There is one simple and inexpensive way to reduce dangerous, swollen veins and bunches, and get them down to normal, and that is to apply Moore's Emerald Oil night and morning. People who have painful, enlarged veins should not neglect them for they sometimes burst and cause much misery and loss of time. Moore's Emerald Oil besides being so marvelously antiseptic that it at once destroys germs and poi-

a community of the work of assembling an exhibit for the county fairs.

As Mr. Ewing has been the moving spirit in the work and had seen the community exhibit made under his supervision carry off the blue ribbon several times, he is authority upon the subject and did it full justice.

Mrs. Stella J. Henry, who has served Brush College grange acceptably as lecturer, spoke with authority upon the subject "How the Grange May Serve the Social Needs of a Community as Well as Being a Medium for Literary Expression," and gave in excellent good taste a patriotic reading which was much appreciated.

Mrs. William McCall favored the audience with a piano solo; Mrs. F. Ray Fawc, Billie Utley and Mrs. Arthur Utley delighted their hearers with vocal numbers, responding to encores, Mrs. Blodgett acting as accompanist.

Pomona will meet at Oak Grove in January.

CAR SHORTAGE TO CLOSE INLAND LUMBER MILLS

Spokane, Wash., Nov. 2.—Lumber mills and allied industries of the Inland Empire are facing shut-downs because of the car shortage, according to reports of plant managers here. Lumber mills are filling all available storage space with lumber, and even those which ordinarily operate all winter will soon be forced to shut down. I. N. Tate, assistant general manager of the Weyerhaeuser Sales company, stated today. Planting mills are even now being operated only when cars are available.

ons caused by germs is such a remarkable healing agent that eczema, barbers' itch, salt rheum and other inflammatory skin eruptions go in a few days. Piles are quickly absorbed and even gonorrhea, wens and enlarged glands are dissolved. For years it has been used in hospitals for boils, carbuncles, ulcers, abscesses and open sores, and with the most perfect success. With each original bottle which any pharmacist can supply you, is a folder that gives instructions for use in all of the above distressing complaints. Your druggist will be glad to supply you. (adv)

Here's a Knockout!

At The **Liberty Theatre** Friday and Saturday

A FIRST RUN CLASSIC
YOU READ IT IN THE "POST"

Johnny Duffey's life and hopes were bound up in two The Prize Ring—his office. Twenty-four feet square and simply furnished

The Engagement Ring—its diameter that of Constance Talbot's third finger

Johnny's story is that of **The RIGHT THAT FAILED**

starring **BERT LYTELL**

A fine cast headed by Bert's favorite leading lady, Virginia Valli, who was starred in "The Storm" and in "His Back Against the Wall."

A clean Human rib-tickler story of a Hi-Brow fighter in society.

FREE—FLOWERS—FREE
At the final showing of "Sisters" tonight we will present every lady with a big chrysanthemum with the compliments of C. F. Breithaupt, Salem's leading florist.

"Mother Why Not Try The Newer Form Of Iron"

And Be Strong and Well and Have Nice Rosy Cheeks Instead of Being Nervous and Irritable all the Time and Looking So Haggard and Old?

The doctor gave some to Susie Smith's mother and she was worse off than you are and now she looks just fine. There can be no healthy, beautiful, rosy-cheeked women without iron. Good physicians have strongly emphasized the fact that doctors should prescribe more of the newer form of iron—Nuxated Iron—for their nervous, run-down, weak, haggard-looking patients. When the iron goes from the blood of women the roses go from their cheeks, and strength and vitality from their bodies. This newer form of iron, like the iron in your blood and like the iron in certain green vegetables, is highly recommended by thousands who wish quickly to increase their strength, power and endurance. It is surprising how many people suffer from iron deficiency and do not know it. Iron is absolutely necessary to enable your blood to change food into living tissue. Without it, no matter how much or what you eat, your food simply passes through you without doing you the proper amount of good. You don't get the strength out of it, and as a consequence you are weak, pale, and sickly-looking. Just like a plant trying to grow in soil deficient in iron. You can tell the women with plenty of iron in their blood—beautiful, healthy, rosy-cheeked women, full of life, vim and vitality. You can get Nuxated Iron from any druggist under a absolute guarantee that it will do the same for you or your money back. For sale in this city by Dan J. Fry, J. C. Perry and Tyler's Drug store, all other druggists. (adv)
