- Nov. 13.—Scottish Rite Masons to meet in Salem.
- Nov. 25.—Football, Salem high vs Eugene high.
- Sweetland field.
- Nov. 30.—Thanksgiving day.

## WHEAT SHORTAGE CAUSES ADVANCE IN FRENCH BREAD

Paris, Nov. 7.—(Canadian Press, via Reuters).—The shortage in this year's wheat crop doubtless will cause an advance in the price of bread in France. The price at present is one franc and five centimes per 2.2 pounds and is fixed by the government.

The minister of agriculture has addressed a letter to the prefect's department stating that the present situation is due to causes which are not likely to recur. With the rates of exchange as they stand now, he says, it is necessary to avoid the importation of wheat into this country. The minister appeals to the population to avoid the necessity of sending French gold abroad.

France's wheat crop for this year is more than one-fourth short of last year and nearly one-third under the customary annual needs, according to statistics published by the minister of agriculture at the end of September. This is due to a reduction of six hundred thousand acres in the area planted, the small yield per acre and bad weather.

Remodeling and painting of the walls of the third floor of the city hall is now being done so that every thing will be in readiness for the Willamette university basketball practice season. A set of showers are also being installed.

O. C. German, 1455 Saginaw street, underwent a major operation in the city yesterday.

Senator Charles McNary was the speaker today before the Corvallis chamber of commerce, talking on Washington affairs of interest to Oregon.

A dinner to honor the 75th birthday of Justice McBride, of the Oregon supreme court, will be given at the Multnomah hotel November 15, under the auspices of the state bar association. All circuit judges and attorneys of the state are invited.

Mrs. Roberta Reese of Moro, Or., is visiting several days with her daughter, Gwendolyn, a student of Willamette university who lives at Lausanne hall.

Mr. and Mrs. E. R. Elliott and daughter of Ridgely, Wn., stopped in Salem last night on their way home from a three weeks trip to California. They registered as the guests of the Marion hotel.

The Women's auxiliary of the Y. M. C. A. is to meet Thursday afternoon at 3 o'clock at the "Y".

Earl Peary, district manager of the Oregon Growers association is spending several days in Portland where he is helping to arrange a display of the Mistlead brand prunes, apples and nuts at the Pacific International exposition.

The Leaders class composed of students of Willamette university, met last night at the Y. M. C. A. for luncheon. These men are in charge of the service membership Bible classes. Miss Leah Ross was in charge of four other Willamette women who prepared the dinner.

Six more pairs of Peon pants were reported as being sold yesterday and today. As yet none have been seen on the streets or at the high school. It was thought that the high school students would be the first to initiate the new fad.

A potato of the American Wonder variety weighing four and one half pounds and measuring 14 inches long was brought to the Journal office today by A. C. Foster, the potato being grown on the Cottage farm, located about five miles east of the city. This is the largest and heaviest potato that has been brought to the Journal office this year.

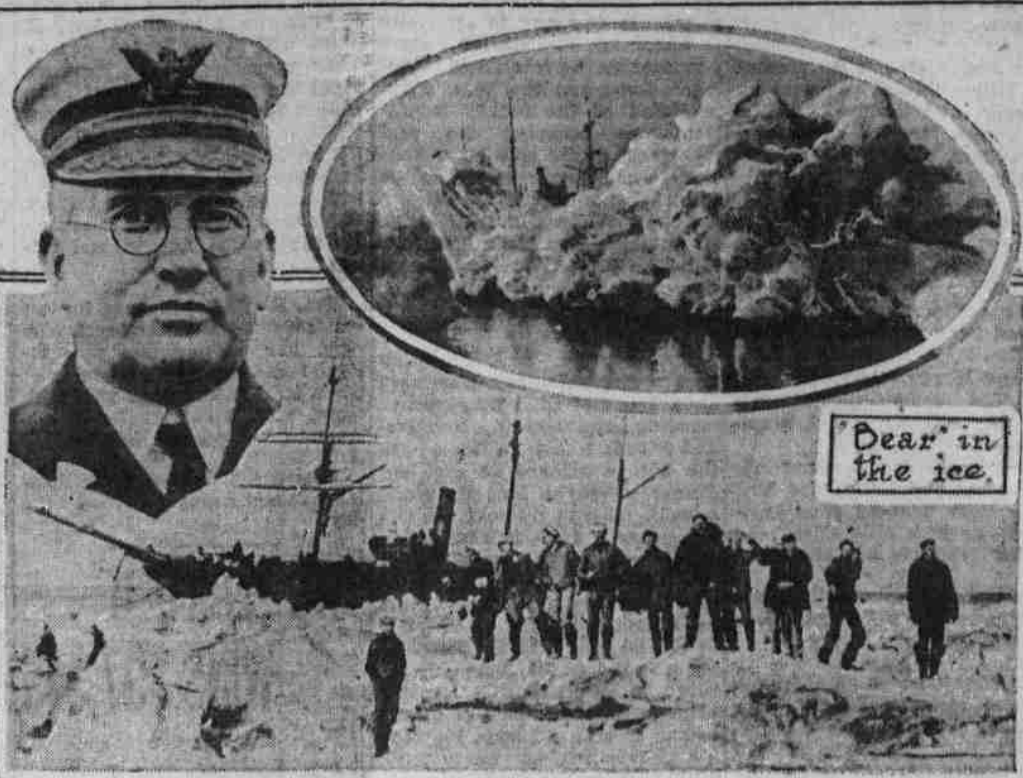

## UKRAINE NOW BUILDING HOUSES OF MUD BRICK

Kharkov, Nov. 7.—Lack of wood in the Ukraine has led French and German colonists to build houses of mud bricks held together by straw. These bricks are carelessly plastered over with mud, and when dry the mud is tinted in water colors. One house will be a bright blue, another yellow, the next one pink or green, and the village as a whole makes a colorful picture. Plots upon which the houses stand are surrounded by low walls made of the same material and tinted to correspond with the house. Gardens are well kept in summer and there is an abundance of fruit trees.

Harold H. Fisher, historian of the American Relief administration recently visited both the German and French colonies in the Ukraine. The German villages near the mouth of the Dniester, across from Zabarabia, he described as exceedingly picturesque and as spick and span as any along the Rhine.

The pedals should not be permitted to become smooth. If they do show signs of becoming smooth, place a rubber pad over the pedal or roughen up the existing surface with a diamond-nosed chisel.

## SURE AMUNDSEN WILL FLY ACROSS POLE

Capt. C.S. Cochran Crew of the "Bear"

Captain C. S. Cochran has brought the United States coastguard cutter Bear into Seattle, Wash., after a 23,000-mile voyage in the Arctic ice fields, where he met Captain Roald Amundsen, the explorer. Though this winter's ice is the worst in twenty years, Amundsen expressed the utmost confidence in his ability to fly across the North Pole.

## CLOSING RALLY AT SCOTTS MILLS

The final meeting of the republican campaign for Marion county was held last night at Scotts Mills. Walter L. Toose Sr., in opening the meeting, made a short but pointed speech in which he defended the administration of Governor Ben Olcott and condemned as absolutely impossible the promises of the democratic-Ku Klux candidate. He also struck a blow when he told of Pierce's statements, many of which were the opposite of previous statements. "It is all to win and nothing to lose that is guiding the opponent of the present governor," he said.

Rev. J. W. Perkins went deeper into the thoroughness of the administration of Governor Olcott by outlining the present governor's work from the time he entered public life and going through his whole work to the present time.

Lloyd Reynolds, candidate for the legislature, made a forceful talk on the taxation problems. "The present administration is to be praised for the part they have done in keeping down expenses," he said. As examples he cited the record of the state institutions.

Henry S. Daly presided at the meeting.

Of each \$100 expended, the operating expenses of an automobile are detailed as follows:	
Oil and grease.....	\$ 1.12
Gasoline.....	19.26
Tires.....	19.42
Depreciation.....	15.38
Miscellaneous.....	20.65
Repairs.....	42.17
	\$100.00

## BULL FIGHTERS AND ACTORS UNIONS AMALGAMATE

Mexico City, Nov. 7.—Two unions of a rather unusual nature have just been formed here, the bull-fighters' Syndicate and the Union of Playwrights.

The members all men who appear in the corridos from the highest salaried matador, to the lowest salaried matador. In the inaugural meeting it was decided to establish a wage scale, demand better bulls than were afforded last season, and better "working conditions," whatever that may mean.

The playwrights, acting in conjunction with the Union of Theater Employes, are now demanding that none but their own works be produced on the local stage, except by special permission.

## FAMOUS REDWOODS TO BE SAVED FOR FUTURE

Washington, Nov. 7.—The famous redwood sequoia—the "big trees" of California—are to be saved as a matter of good business. What is said to be the most important step on the part of private lumbering companies toward the preservation of the nation's timber supply was announced today by the National Lumber company, the Pacific Lumber company and the Mendocino Lumber company, the principal private companies owning the California redwood forests.

This decision, says a statement of the National association, means that the redwood forests, made up of the largest trees extant, and the oldest living things, the sequoias in the sempervivens species, will be maintained indefinitely as an economic factor in the life of the nation and as one of the wonders of America.

## POISONED FOUR OF HER HUSBANDS

Chicago, Nov. 7.—Investigation of the life of Mrs. Tillie Klimek, who, according to the police is believed to have poisoned at least four husbands, was under way today. Her present husband, Joe Klimek is seriously ill from poisoning, police say. He recently had his life insured. In the body of Frank Krupcek, another husband, was found enough poison to "kill four men," according to a coroner's physician.

Plans were made to exhume the bodies of John Rusekaski and Joseph Mitkrewitz, former mates of the woman. Meanwhile, Harry Suida, a cousin of the accused woman, told the state's attorney of the mysterious death of his sister Rose, who died after attending a dinner at Mrs. Klimek's home. When Suida's story was told, Elizabeth Wyelekawski, another cousin, said her two sisters and a brother died under mysterious circumstances after they dined at the Klimek home. The two cousins asked to have the bodies of their relatives exhumed for examination.

## SPEAKING FILMS TO TAKE PLACE OF MUSIC

Berlin, Nov. 7.—Despite the fact that success has crowned the efforts of German inventors at producing the "speaking" film, it is foreseen that reels of this kind can never supplant the ordinary "movies" in the export trade. The handicap is obvious, since a film produced in German could hardly be expected to find a market abroad where the language would not be sufficiently understood to make its showing profitable.

Promoters of the invention see a possibility, however, of some day making this type of film eliminate the necessity of having orchestras in movie theatres.

**Died**  
ATWOOD—In Portland Sunday night, Nov. 5th, Mrs. Martha J. Atwood, age 84 years, formerly residing in Salem, mother of Mrs. A. A. Lee and Miss Helen Atwood of this city. Announcement of funeral later by the Rigdon mortuary.

## HEAVY VOTE IN NEW YORK CAST AT EARLY HOUR

New York, Nov. 7.—The spirited campaign waged by Governor Nathan Miller and former Governor Alfred E. Smith for the executive chair at Albany by Senator Calder and Health Commissioner Dr. R. S. Copeland for a place in the upper house at Washington, bore fruit throughout the state today in heavy early balloting.

Reports from upstate were that over twenty per cent of the registered vote had been cast in the municipalities with rural sections following closely. In New York city the vote got an earlier start, particularly in the Bronx, where fully 25 per cent of the vote was reported polled in three hours.

Heavy guards were on duty at all polling places to prevent clashes between factions and guard against frauds. Mr. Smith was an early voter. Mrs. Smith and her eldest son followed "Al" into the booth. Other early voters were Dr. Copeland and Mrs. Copeland.

## ALLIGATORS HARMLESS 20 INCHES OR UNDER

Washington, Nov. 7.—When it, and when isn't, and alligator a harmless animal, has been a much mooted question. Those who have undergone the still more or less discussed fictional adventure of the destruction in a big 'gator's switchable tail, are somewhat decided. There are many folks who still believe a youngster is a playful pet that can be kept in the parlor as a charm for the baby; but one who has had even the smallest hang onto his unbecomingly extended forefinger with the grim persistence of a steel vise, may still be firm in his belief that its best to leave 'em alone at any age.

The Post Office department, however, has decided that while under twenty inches over-all length, the baby saurian is harmless. So are baby chicks, soft shell crabs, blood worms and chameleons.

## FUEL STILL A PROBLEM FOR JAPANESE EMPIRE

Tokio, Nov. 7.—With all the drastic military and naval reductions that may be realized, the question of naval fuel pending before the government will remain as far from solution as before, states an authority. The government long has been striving for the realization of self-sufficiency, but what with the gradual

diminishment of the annual output in this country and with the waning prospects of the oil possibilities now under experimental exploitation, the government will for a long time yet have to cling to the old policy of hoarding imported oil, this authority said.

## Striking New Red Cross Poster

Riveting the attention of the beholder on the fact that the American Red Cross is chartered by Congress as an official volunteer relief organization, the dome of the Capitol at Washington, upon which is superimposed a large Red Cross, is the central figure of a new poster for the Annual Red Cross Roll Call. The poster, which has been pronounced one of the most striking of innumerable representations of the famous dome, is the work of Franklin Booth, a New York artist of wide renown. It will be displayed throughout the country during the Roll Call period, Armistice Day to Thanksgiving, when the Red Cross membership for 1923 will be enrolled.
