GREAT NEW RESERVOIR FOR SAN FRANCISCO

PERSHING STATUE TO BE UNVEILED ARMISTICE DAY

San Francisco, Nov. 11.—Today a heroic statue of General Pershing, picturing him as if watching troops in battle was unveiled in the Golden Gate Park here.

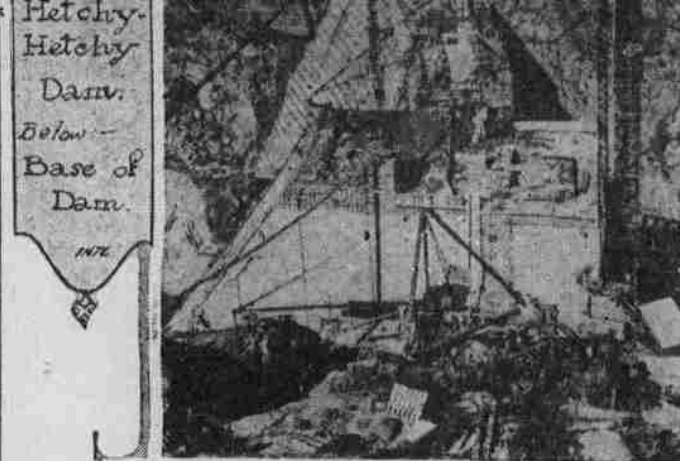

The statue is a gift to the city of San Francisco by Dr. Morris Herzstein, a local physician. It was done by an old friend of the doctor, Haig Patigan, noted San Francisco sculptor.

Eight feet in height, the figure is of gilt bronze and stands on a pedestal of silver granite. The pedestal is five feet high. It presents, the general in field uniform, standing squarely and looking forward, both face and figure animated with the expression of alertness and energy.

On the face of the pedestal is the inscription: "In tribute to General Pershing and the victorious armies of the United States and her co-belligerents during the world war, 1914-1918. Presented by Dr. Morris Herzstein, 1922."

Dr. Herzstein conceived the idea of the statue after he had heard from General Pershing himself the story of the American expeditionary force and saw with his own eyes the fields where that force had won imperishable glory. The doctor toured the battle fields with Representative Julius Kahn of San Francisco immediately after the armistice and spent some time as the guest of General Pershing.

Patigan has worked on the statue for more than two years, and, at the request of the doctor, has kept the plans a secret.

The Hetch-Hetchy Dam which will turn the Hetch-Hetchy Valley into a huge lake and give San Francisco its new water supply, is nearing completion. The dam will be one of the largest in the country. It is 150 feet under the bed of the stream, 312 feet high, 900 feet wide, 300 feet thick at the base and twenty-five feet thick at the top. The lake will be seven miles long and a mile wide. The total cost of the reservoir will be \$9,000,000.

TIGER OF FRANCE SEES FUN AHEAD

Havre, France, Nov. 11.—(By Associated Press)—Georges Clemenceau, the famous tiger of France, walked up the gangplank of the steamer Paris shortly before 11 o'clock this morning, ready to sail away for his speaking tour in the United States. He was in jolly spirits.

Clemenceau motored to Havre from Paris, arriving at the pier before most of the passengers who came by rail. His early appearance was unexpected but when he got to his cabin—No. 74 on the saloon deck—he found it had been decorated with red and white roses by the local League of Former Combatants.

The tiger dropped his fur coat on the bed and then walked to the upper decks smiling and bowing in recognition of many greetings from sailors, longshoremen and stewards of the ship.

Taking a peep at the sky, he remarked: "It's a fine day; I won't be seasick."

BOBBED HAIR ALSO IN VOGUE FOR FINE COWS

Oregon Agricultural College, Corvallis, Nov. 11.—Curling, clipping and even bobbing hair is just one phase of getting an O. A. C. cow ready for the scrutinizing eye of the judge at the fair. Numerous little details of her toilet must be attended to in order to be within striking distance of a prize.

Horns must be manicured. Pretty show ring curls are always admired. A slight dampening with cold water followed by a few dexterous but correct manipulations with a curry comb in the hands of the fitter puts on even wavy curls. Clipping and bobbing are considered important. A neatly clipped head and tail always make chances of a blue ribbon better.

ALL MANUFACTURERS MUST KEEP BOOKS

Portland, Or., Nov. 11.—Clyde G. Huntley, collector of internal revenue, calls the attention of taxpayers to the fact that under the provisions of a recent treasury decision every individual "carrying on the business of producing, manufacturing, purchasing or selling any commodities or merchandise, except the business of growing and selling products of the soil, shall for the purpose of determining the amount of income under the revenue act of 1921, keep such permanent books of account or records, including inventories, as are necessary to establish the amount of gross income and deductions, credits and other information required by an income tax return."

By keeping the required books of account, which shall be produced for the inspection of revenue officers authorized by law to inspect the same, Collector Huntley says taxpayers will greatly simplify the task of making out their income tax returns for the current year. All such returns must be filed in his office not later than March 15, 1923.

HEROIC STATUE OF ROOSEVELT TO BE UNVEILED

Portland, Ore., Nov. 11.—"Theodore Roosevelt, Roughrider" is the inscription on a heroic equestrian statue of the former president, unveiled here today with ceremonies in which many thousands of persons participated.

The statue, by A. Phimister Proctor, was presented to the city of Portland by Dr. Henry Waldo Coe, a life-long friend of Theodore Roosevelt, and it is to be dedicated to the children of America. Approximately 25,000 school children of the city are to take a prominent part of the exercises. The morning program is to be devoted to the children's part of the ceremonies, with a parade, each child dropping a rose Portland's emblem, at the foot of the statue.

There will be a military parade in the afternoon, with the regular army, the navy, the marines, Oregon national guard, the Grand Army of the Republic, Spanish-American War veterans, American Legion, Boy Scouts and Sons of the American Revolution represented. Counties of Oregon and other states are to be represented by committees.

Dedicatory ceremonies will be held at the unveiling, and a message from President Warren G. Harding is to be read.

The statue is located in a park square near the heart of the city. The bronze figure stands more than 13 feet in height, placed on a pedestal of granite eight feet high.
