57 JAPANESE DROWNED IN SUNKEN SHIP

Tokio, July 21.—Fifty-seven persons were drowned July 11 when the Nippon Yusen Kaisha freighter Matsuyama Maru foundered off Goto Island near Kyushu, the Kobe office of the line reported today. The liner had been overdue several days. Today's report was the first news of her fate, as she carried no wireless.

The ship carried down with her all her officers and crew except one fireman, who was picked up by a trawler and brought to Kobe. She carried no passengers.

The Matsuyama Maru, an old vessel, left Keelung, Formosa, July 7, for Yokohama. Her owners had vessels searching for her for several days, along her regular route between Formosa and Japan.

The survivor, whose name is Fukuoka, said that a typhoon which the general unseaworthiness of the ship rendered her unable to ride out, caused the disaster.

Fukuoka who drifted helplessly on a raft near the scene of the wreck for a week before he was picked up by the fishing vessel Chihaya, said he had no food and but little water.

Fukuoka said the freighter began to fill with water soon after leaving Keelung, when she ran into rough weather. The crew battled desperately at the pumps, seeking to keep down the encroaching sea but their efforts were unavailing and the steamer went down near midnight on the night of July 11, when she was two days out of port. At that time she was believed to be within 150 miles of Nagasaki.

Several members of the crew survived the sinking, Fukuoka said and lived for a few days on rafts but all perished of hunger or thirst before the trawler hove in sight. Fukuoka said he saw one British and one Japanese steamer pass during the time he was adrift on his raft, but that he was too weak to hail either.

The Matsuyama Maru had a cargo of 3,000 tons, mostly sugar.

PREMIERS AWAIT EXPERT REPORT UPON RAILROADS

London, July 21.—(By Associated Press.)—Premier MacDonald conferred today for two hours with Premier Herriot of France, Finance Minister De Stefan of Italy, Premier Theunis of Belgium and Ambassador Kellogg of the United States regarding means of obtaining an agreement between the delegates of the inter-allied conference on enforcement of the Dawes plan.

While the plenary delegates discussed the broad phases of the Dawes plan, the committee of experts continued their efforts to reach an agreement on the measures for bringing about the fiscal and economic unity of Germany. It is believed this would be released by tonight except for the question of railway control which remains a stumbling block to the plans for reparation of the Ruhr.

The experts presented the conflicting views on railway control advanced by the British, French and Belgians, respectively, to committee No. 1 of the conference and are awaiting fresh instructions how to proceed. The program adopted by the group of experts studying the restoration of German unity indicates it will be possible to hold a plenary session tomorrow.

Frank B. Kellogg, the American ambassador, was unable to attend the conference this forenoon with Prime Minister MacDonald in Downing street because his presence was demanded at the ceremonies of welcome to the bar association of London from overseas.

The German government has communicated to the British foreign office its latest views on the Dawes report and the question of German representation at the conference. The German representatives will be present at the next preliminary session of the conference.

DALLAS GOES BEHIND IN CHAUTAUQUA RECEIPTS

Dallas, July 21.—Dallas' 12th annual chautauqua closed Thursday night with the guarantors facing a deficit of more than \$700. In view of this fact and dissatisfaction with the Ellison-White company in having conducted a chautauqua at Monmouth, only nine miles away, at the same time as the one here, it is hardly probable that Dallas will again book this annual entertainment course.
