BROOKLYN NINE CANCELS GAME

For the second time in as many days, teams scheduled to meet the Salem Senators here next Sunday have cancelled their games. The Senators were originally to meet the Montavilla nine but called their game off on account of losing three of their players. Upon receiving this letter Bishop got in touch with Bozell, manager of the Brooklyn team. Brooklyn finished second in the same league that Montavilla finished third in. Last evening Bozell sent "Biddle" Bishop a letter calling off this game. He gave no reasons except that he could not play.

Bishop got in touch with the manager of the Fulton athletic club of Portland who met defeat at the hands of the Senators earlier in the season. If this game is not called off the Senators will have a harder game than the other two scheduled as the Fulton team think that it was luck that the Senators won before and they are planning on going back to Portland on the long end of the score. Barham was twirling for the Salem team at that time and shut them out 9-0 allowing them only four scattered hits. But the team has improved since then.

The game will start at three o'clock and Ashby will start on the mound.

RABBIT GROWING NEW LANE COUNTY INDUSTRY

Eugene, Aug. 13.—A new industry, a rabbitry, has been started in Eugene.

A year and a half ago, T. H. Seder started his industry with three purebred New Zealand Red rabbits. Now he has 150 bunnies, and he is making plans to have 100 breeding does for next year. He plans to raise 3000 tries during the coming year, and if all goes as he plans, he will raise more than that the year following. Next week Mr. Seder will move from his present home at College Crest to his new place five miles out on the Crow road, where he will have more room to increase his rabbitry.

One of the original does of the rabbitry raised 42 rabbits in a single year. The average of the rabbit herd is 30 rabbits a year for each doe, according to Mr. Seder. The New Zealand Reds are said to make the best eating rabbits, and Mr. Seder is planning to devote his attention entirely to that species. He will specialize on fries. The rabbits are kept in small pens. "It's mighty interesting work, and it's something new to this territory," declared Mr. Seder.
