HIGH SCHOOL AT DALLAS TO OPEN IN NEW BUILDING

Dallas, Or., Aug. 21.—With the new $70,000 high school ready for occupancy when the Dallas schools open September 29, the class room space in the city will practically be doubled and a complete reorganization of the grades assignments has been made by R. R. Turner, city superintendent of schools.

The new high school building will be devoted exclusively to high school work, while the former high school building, still a substantial school but inadequate in size, will be known as the junior high school. It will house the junior high school and the grades down to one division of 4th B.

The other division of 4th B and all lower grades will be located in the grade school building on South Main street. Court street or Washington street will be made the east and west division for the 4th B graders, with those lying north of the street going to the junior high building, and those south to the grade building.

All teachers, excepting one for 6th A in the junior high building have been supplied, and this position will probably be filled within a few days. There are to be 30 teachers on the faculty this year, 11 being in the high school, 14 in the grades and 5 in the junior high. The first teachers' meeting for conference and assignments will be held with Superintendent Turner on September 2? at 10:30. There will be seven new faculty members out of the 30.

Mr. Bell is a new teacher in the junior high. He lives near Monmouth and is a graduate of the normal school. Miss Townsend, a Portland girl and a graduate of Missouri State college, and Miss Williams, an Independence girl, are the new grade teachers. One new teacher is to be chosen for the grades.

"There will be no competition in Japan," he said, "but will be purely exhibition work."

PORTLAND MAN DIES IN CRASH NEAR HUBBARD

Hubbard, Ore., Aug. 21.—H. W. Harding, 51, of 448 Fifth street, Portland, was killed in an automobile accident one-half mile south of Hubbard yesterday afternoon. His grandson, riding in the front seat with him, was uninjured. It was reported that Mr. Harding, in driving around a Willamette Valley Transfer company truck, lost control of his machine, went into the ditch and struck a telephone pole.

Mrs. Harding and their son Jim, who were ahead of Mr. Harding in another automobile, returned to the scene of the accident to assist authorities. It was said that Mr. Harding was driving the automobile on his first trip, returning from California to Portland, and that in some manner he had burned out his brakes. With that exception the machine was in good condition, it was reported. No blame for the accident was attached to any person. The party had been working in hop fields recently, returning from the south.

In addition to his son and widow, Mr. Harding is survived by a brother, Richard Harding, of Silverton, and two sisters, Mrs. Emma David, 448 Fifth street, Portland, and Mrs. Tace Bowen of Silverton.

PORTLAND HELP ASKED IN CLEAR LAKE PROJECT

Portland, Or., Aug. 21.—Co-operation of the engineers of the Portland water bureau in the investigation of the feasibility of diverting the headwaters of the McKenzie river for municipal uses of cities in the Willamette valley is requested in a letter sent yesterday to Mayor Baker by George E. Edmondstone, consulting engineer for the Pure Water Development league.

The request was presented to the city council by the mayor at its session yesterday and was then referred to City Commissioner Mann for his investigation and report.

The plan, as outlined in Mr. Edmondstone's letter, is the creation by the state legislature of a body similar to the "Metropolitan district, of which the city of Boston, Mass., is the nucleus, to bring water to all cities and communities in the Willamette valley."

Cost Saving Possible.

It is pointed out in the letter that by co-operative effort at this time, it is possible to avoid the enormous cost to which the cities of San Francisco and Los Angeles have been forced in obtaining their water supply.

Portland's co-operation in the movement would in reality be in its own interest, according to Mr. Edmondstone, for he points to the recent unprecedented deficiency in precipitation which was warning that Portland must soon find means of reinforcing the supply gained from the Bull Run watershed.

"The purity of Portland water is known throughout the length and breadth of the nation," the letter states, "and its future growth will be in a great measure dependent upon maintaining the high standard as set.

League Sponsors Movement

"The Clear lake watershed, supplied by the melting snow on Three-Fingered Jack and filtered through vast lava beds in isolated portions of the Cascade mountains affords an adequate supply of pure water for a population in excess of a million and a half people and this water has purity fully equal to the Bull Run supply."

Mr. Edmondstone states in his letter that the proposed bill creating the body to be presented at the next session of the legislature, has the indorsement of Governor Pierce. The movement is sponsored by the Pure Water Development league, of which Waldo Anderson of Albany is president.

MAIL CARS TO BE BULLET PROOF

Tilly Foster, N. Y., Aug. 21.—(By Associated Press)—Pseudo bandits last night held up a New York Central train and braved calcium flares, gunfire and movie cameras in a sham battle staged to demonstrate the impregnability of the government's newly equipped bandit proof mail cars.

The hold up was repulsed without casualties to the train crew. Of the six hired make believe bandits, three were listed as "killed" two were "captured" and one was "missing."

Officials of the post office declared the government would equip 3000 mail cars with the bat tle field flares, riot guns, firing shields, shot spreaders and other warlike devices.

VICKS VS FORD SUIT TRANSFERRED

An order of Circuit Judge G. Bingham yesterday transferred the case of Vick Brothers against the Ford Motor Car company for damages of $292,250 to the United States district court of Portland from the Marion county circuit court here. The removal was made upon the petition of the defendants who posted a $500 bond which will be forfeited in the event that the transfer is adjudged to have been improper.

The basis for the petition to place the case under the jurisdiction of the federal court is that the Vick Brothers company is an Oregon firm and the Ford Motor company is a Delaware corporation, doing business under the laws of Michigan.

The suit is to collect damages alleged to have resulted from the abrogation of a contract whereby the state agency of Fordson tractor was taken from Vick Brothers by the Ford Motor company.
