Medford, Or., Nov. 21.—Charles Van Scoyoc, 17 year old son of Dr. and Mrs. C. C. VanScoyoc of this city, died today at a local hospital from an infection at the base of the brain, induced, it is believed by an injury received in a football game. Young Van Scoyoc played left half of the Medford high school football team and since the Marshfield game three weeks ago, had complained of not feeling well, but played a star game against Ashland here Armistice day. A few days ago he was taken down with what was diagnosed as brain fever, but yesterday when alarming symptoms developed a consultation of physicians was held and it was decided the trouble was brain infection.

Recovery was hoped for until late last night when a brain operation seemed the only hope and Dr. Lawrence Selling of Portland was summoned, with a special permit to break the speed limit by motor car.

The end came however, before the doctor arrived. Medford's scheduled game with Roseburg high school tomorrow has been cancelled, and it is probable no more football games will be played this year.

In addition to being a star athlete, VanScoyoc was president of the senior class and one of the best students in the school.

GOAL REACHED IN Y. M. DRIVE FOR FUND OF \$200,000

The board of directors of the Y. M. C. A. in a special session this noon announced the final completion of the \$200,000 drive for a new association building.

The last \$14,000 of the fund was secured yesterday and this morning the 65 men who have been active in the campaign underwrote the subscription for \$200 each.

Preliminaries toward the immediate construction of the building will be begun at once and the board will soon be ready to receive plans for the design and construction of the building. All work will be rushed as much as possible. It was said that season may enjoy at the earliest possible moment the benefits of the new project.

The windup of the campaign this morning marks the close of a drive which has lasted for more than a month. It was begun on October 9 and since that time leaders in the movement have worked steadily with only one interruption.

A final audit of the subscriptions will be made tonight although there is no question but that the \$200,000 has been fully pledged and that all pledges are now valid.

Portland man KILLS WIFE AND TAKES OWN LIFE

Portland, Ore., Nov. 21.—August Fiedler, 52, shot and possibly fatally wounded his wife and killed himself in his home at 816 Albina street this afternoon, according to police reports. A quarrel, growing out of a divorce suit was said to have been the cause. Mrs. Fiedler has a slight chance to live, according to hospital attendants.

Three shots were fired. One went wild. Another struck her in the ear and ranged in the back of her head. The third went through Fiedler's forehead.

Papers in a divorce suit, ordering Fiedler to keep away from the house, were served on Fiedler yesterday. He refused to obey them, however, and went to the house. Mrs. Fiedler was afraid to send him away. He stayed there all night and until the tragedy took place today.

PRODUCTION OF PERFECT MAN IS HELD POSSIBLE

Philadelphia, Nov. 21.—The production of the perfect man is regulation of glands is predicted by Dr. E. Rodney Fiske, of New York.

Speaking yesterday at the convention of the Eastern Homopathic Medical association he said that recent discoveries concerning the function of glands of the human body had paved the way for production of the perfect man.

Dr. William H. Diffebach, an X-ray specialist, also of New York, said that by proper control of the function of glands a "fountain of youth" would be discovered, as failure of the glands to function was the cause of old age.

"By properly regulating man's glands," said Dr. Fiske, we will not only be able to control his mental characteristics, but also his physical appearance. It will be within our power to say whether he shall be tall or short, fat or thin; whether his voice shall be tenor or bass.

"By increasing the action of sluggish glands and slowing down the over-active glands, remarkable results have been accomplished and we are on the verge of even greater achievements which will make possible the production of the perfect man."

Dr. Diffebach expressed the opinion that control of the ductless glands was far superior to implantation of monkey glands for the restoration of youth.

Indianapolis, Ind., Nov. 20.—John Zahnd, chairman of the national independent party, today called a meeting of the party's national committee to be held here December 9 to reorganize and plan the party's activities for 1925. The party endorsed the LaFollette and Wheeler ticket in the last campaign, but announcement is made in the call that "from this time on the party will not mix with other groups."

New York, Nov. 21.—An enormous demand for low priced railroad shares which resulted a heavy unaliquit of profit-taking and rallied fresh high levels, over-shaded all other developments in today's stock market, the ninth 2,000,000 share day since the election. Realizing sales impeded the advance in the industrial list, although brisk rallies in numerous specialties partly counteracted the heavy selling of leading shares.
