DRAGER ANNOUNCES NEW TYPE OF POOL TO GROWERS

BUTTER LOWER; POULTRY STEADY; HAY IS HIGHER

Portland, Jan. 9—There is an easier tone in country dressed meats with the demand less keen. Prices are unchanged at 15 to 15½ cents on choice light veal and 14 to 14½ cents on choice light hogs.

Poultry lists are steady, receipts are plentiful with good demand for heavy and light hens, prices are unchanged. Dressed turkeys are still coming in but clean up promptly at current levels.

The hay market is firm and high er on some grades. Receipts are plentiful in the local market but demand is good and fancy hay scarce. Eastern Oregon timothy, delivered Portland track, $24 a ton; valley timothy $20 to $22; oat and vetch $19.50 to $20; oat hay $18.50; cheat $16.50; clover $17 to $17.50; alfalfa $20 to $20.50 and straw $8 to $8.50 a ton. These prices are the buying prices on hay by carload delivered Portland.

Butter is steady on prints at 49 cents; cubes are lower with extras posted at 45 cents; standards 42½ cents; prime firsts 41; and firsts 39½. This is a cent decline on extras and a half cent on standards and firsts. Dealers have plenty of ordinary butter on hand with limited outlet.

The market is higher on all green stuffs, with lettuce, celery, spinach and cauliflower 25 to 50 cents higher for the day.

Eggs are steady and unchanged. Receipts continue moderate but shipping outlet is limited and future trend of market uncertain.

Flat Sales Commission of One Dollar a Ton on Prunes And $2.50 on Logans Asked

Tomorrow W. F. Drager will open a new prune and loganberry pool on a basis never before tried in this section. One notable feature of the proposed pool is its simplicity. Drager in a nutshell agreeing to sell pool members' crops of prunes and loganberries at minimum prices or better, the member to pay Drager $1 a ton for all prunes sold at such prices and $2.50 a ton for all loganberries sold at six cents a pound or better. In event he fails to sell them at the minimum prices he receives nothing for the work of selling the crop. The six cent price for loganberries is in excess of anything the farmer has received for that crop for a number of years. Already dozens of farmers have signified they will sign up as soon as the contract is ready.

The schedule of minimum prune prices he has fixed which he agrees to get the farmer for his prunes, delivered sacked to the warehouse runs from 8 cents a pound for 80s down to 3 cents for 120s and up.

The contract which has been prepared provides that Drager receives nothing for his services until the prunes and loganberries are paid for to the farmer. The contract specifically provides further that there shall be no additional charges whatever to the farmer for selling the prunes and logans than the flat $1 a ton for prunes and $2.50 a ton for loganberries.

"Growers of prunes and loganberries should have a voice in naming a price for their products," states Drager in announcing the proposed pool. "Italian prunes are grown only in certain sections of the northwest and under uniform quality packs will create more demand from year to year.

"Loganberries packed in syrup are the finest berries in the world. They should never be packed in water.

"We must make a final effort to get a fair price for our loganberries and unless this can be done let's quit the business. The same thing applies to prunes.

"Every other line of business is organized so as to leave a profit in the business. Why not let farming be included? Unless we demand a reasonable price we will never get it.

"If a profit can not be realized from the growing of prunes and loganberries let's do something else.

"The government is promising aid to the farmer, let's help it along by doing something for ourselves."

The form of contract being offered to the farmer in the new pool with range of guaranteed prices follows:

We, the undersigned fruit growers of the Northwest do hereby agree to pool our entire crop of prunes and loganberries produced and grown during the year of 1925 in a pool and we appoint W. F. Drager as our agent to manage and dispose of said crop of prunes and loganberries.

We further agree to pay to W. F. Drager the sum of $1.00 per ton for prunes (dried) and $2.50 per ton for loganberries (fresh), provided however that said prunes and loganberries are sold for as much or more than the following prices:

Dried Prunes

Prunes acreage ..... located in ..... county.

And an additional amount of $2.50 per ton for delivering to buyer's packing plant or warehouse.

Loganberries

Six cents per pound, delivered to buyer's plant or cannery.

Loganberry acreage ..... located in ..... county.

It is further agreed that there is to be no other charges whatsoever other than the $1.00 per ton for dried prunes and $2.50 per ton for fresh loganberries and no part of said $1.00 per ton for prunes and $2.50 per ton for loganberries is to be paid to said W. F. Drager until said crops of prunes and, or loganberries is paid for.

But it is expressly understood that when my crop of prunes and or loganberries is delivered and paid for, I will pay to said W. F. Drager $1.00 per ton for each ton of dried prunes and $2.50 per ton for each ton fresh loganberries so sold and delivered.

I further agree to properly harvest and dry my crop of prunes and deliver them in good condition, free from burst, soft, mouldy or split prunes.

It is further agreed that in case of disputes or rejections on account of quality that same is to be settled by the usual method of arbitration, the loser to pay all costs of said arbitration.

Didn't Waste Money on Food

"The recent campaign against wastefulness in eating did not affect me much as I haven't been able to eat anything but toast and tea for the past five years. Even that would create gas and cause me distress. My weight was down to eighty four pounds and my complexion muddy. I had frequent pains in the region of my appendix. I am glad I did not listen to an operation, as Mayr's Wonderful Remedy has made a new woman of me." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. J. C. Perry, D. J. Fry and druggists everywhere.—Adv.

Gland Patient Withstands Severe Endurance Test

After suffering from a nervous breakdown, and being subject to dizzy spells, a man of 35 regained his health and strength thru glandular treatment. As an actual test of his perfect health, this gland patient recently run and won the one mile and three mile race in the annual field meet at one of California's state institutions. Even more remarkable than his speed was the physical condition of the athlete after breasting the tape. He exhibited nothing of distress or labored breathing of the ordinary runner.

Glandogen, the new scientific gland tonic, prepared in tablet form provides a simple method of taking glandular treatment. Glandogen, for men and women, is obtainable at J. C. Perry drug store.—Adv.

The provision market was responsive to the upturn in cereals.

Prices of wheat closed unsettled ⅝ to 1⅛ cents net higher, May $1.79⅝ to $1.79⅛ and July $1.53⅞ to $1.54.

Corn closed unsettled, ¼ to ⅝ cent net higher, May $1.29⅝ to $1.29⅝.

CANNERY MACHINERY FACTORY IS ESTABLISHED

C. J. Pugh & company is the name of the new canning machinery factory which is being established here with J. H Race and Robert C. Paulus as the other incorporators. Race for a long time was one of the cannery experts with Libby, McNeill & Libby, later being brought here by the Oregon Growers association of which Paulus was formerly manager. The new company is capitalized at $10,000 and will manufacture cannery machinery invented by Pugh. This machinery already has found its way into many canneries and is considered of the highest efficiency.
