REDUCE SPREAD BY WASTE CUT SAYS HOOVER

Washington, Jan. 14.—Possibilities of reducing the spread in commodity prices between the farmer and manufacturer on the one hand and the consumer on the other, lie in the elimination of waste in present distribution processes, Secretary Hoover declared in an address prepared for delivery before the opening session today of a conference of business representatives convening here to study the subject. He believes the end could be attained by "mutual co-operation in industry and commerce without government regulation."

The secretary's address provided a keynote for the two-day discussion of the problem in which delegates will lay the ground work for a detailed study directed to improving distribution processes. "I believe that we can reduce the margin between our farming and manufacturing producers on one side and our consumers on the other, and I believe it can be done without reductions of wages or legitimate profits," Mr. Hoover declared. "I believe that in doing so we can make the greatest contribution to the improvement of the position of our farmers and that we can make a contribution to the lower cost of living."

ROSS DECLINES TO GIVE UP SEAT ON FISH BOARD

Portland, Ore., Jan. 14.—When the state fish commission met Tuesday afternoon Dr. Thomas W. Ross, who was ordered removed by Governor Walter M. Pierce was present, and announced that he intended to take part in the deliberations. John C. Veatch, whom Governor Pierce named to succeed Ross, was also present.

John W. Cassidy, attorney for Dr. Ross, read a letter dated January 13, in which the governor notified Dr. Ross of his removal. He contended that inasmuch as this letter was dated after the time that Veatch was named, there was in fact no vacancy to which Veatch could be appointed.

Frank Kendall, chairman of the commission upheld the contention of Cassidy. Veatch, however, was permitted to remain at the session and both Veatch and Dr. Ross voted on measures before the board.

BEWARE THE COUGH OR COLD THAT HANGS ON

Chronic coughs and persistent colds lead to serious lung trouble. You can stop them now with Creosolium, an emulsified creosote that is pleasant to take. Creosolium is a new medical discovery with twofold action; it soothes and heals the inflamed membranes and kills the germ.

Of all known drugs, creosote is recognized by the medical fraternity as the greatest healing agency for the treatment of chronic coughs and colds and other forms of throat and lung troubles. Creosolium contains, in addition to creosote, other healing elements which soothe and heal the inflamed membranes and stop the irritation and inflammation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and destroys the germ that leads to consumption.

Creosolium is guaranteed satisfactory in the treatment of chronic coughs and colds, bronchial asthma, catarrhal bronchitis and other forms of throat and lung diseases, and is excellent for soothing up the system after colds or flu. Money refunded if any cough or cold, no matter how long standing, is not relieved after taking according to directions. Ask your druggist, Creosolium Co., Atlanta, Ga. (Adv.)

Paris, Jan. 14.—(By Associated Press)—Preceded by an eleventh hour victory for the American delegation, the international finance conference closed today with the signing of the agreement for distribution among the various powers of the reparations annuities received from Germany under the Dawes plan. At almost the last moment the Americans obtained the elimination from the text the clause limiting to \$350,000,000 the amount of the American war damage claims to be paid from the Dawes receipts. The agreement as signed constitutes a mass of detail which gathers up the scattered ends of the back accounts among the allies, liquidates the Ruhr occupation, limits the future outlay for the military occupation of the Rhineland, fixes the running expenses of the reparations organizations, including the Dawes plan
