

OFFERS BEING MADE TO GROWERS FOR CHERRIES

BLACK CHERRY SEASON LIKELY TO BREAK RECORD

With an even break in weather conditions the Salem section as well as the whole Willamette valley, is facing the biggest fresh cherry shipping year in its history and things already in that direction.

Appearance of Claude McKinney among growers with contracts for Denny & company assure the entrance of these people into the field as tentatively announced in the Capital Journal recently and almost simultaneously with the appearance of the Denny contract, the contract the Denny contract, the contract the black cherry association which operated so successfully last year that they will be back in the game stronger than ever.

The black cherry season now being prepared and it is expected will be ready for the growers' signatures within a few days.

The association contract will be on exactly the same basis as last year the only expense to the grower being the handling expenses and the balance to be pro-rated among a number of growers. The association will handle its cherries at the Pacific Produce & Packing company plant as it did last year and O. E. Boring will manage the packing and handling.

The association will be out 20 cars of cherries this year instead of the 12 cars handled last year, but makes it imperative that the cherries be only quality stuff. Instructions are going out to all growers that were in the pool and will do all to signing up that their fruit and certain spraying must be done both against maggot and brown rot and that no chance will be taken on cherries that are not so handled.

Denny Contract

The Denny contract which Claude McKinney is showing to the growers roughly speaking makes a five cent guarantee, 2 1/2 cents to be paid on delivery and the other 2 1/2 cents on sale of cherries. Denny will absorb the packing and shipping charges. On anything sold over the guarantee, plus 2 cents for packing and shipping, that is, anything received over 7 cents, will go the first cent to the grower and the balance to the Denny plant between the grower and the company.

It is understood that the Denny people are putting up the same contract in other districts in which cherries are to be shipped and it is further understood that McKinney has started out at the present time on an active buying campaign.

Kinney also handles the Raas Laying to a large extent, but Raas deals only in Royal Annes for maraschinos so the two deals do not conflict. No word has as yet been received here as to whether Raas will be back in the game or not for Royal Annes but the assumption is he will be as he has been here every year for many years.

DEMAND KEEN FOR LARGE SIZE OREGON PRUNES

An offering of the following lot of prunes in one block has been made by Robert C. Pralus company to New York buyers for an Oregon packer:

40,000 30-40s at 1 1/2 cents,
30,000 35-45s at 9 1/2 cents,
30,000 40-50s at 10 cents,
50,000 50-60s at 7 1/2 cents.
This total of 270,000 pounds the packer desires to sell in a lump at the prices quoted.

A telegram from a New York buyer in response to offer this lot of prunes in a lump, brought the declaration that Rosenberg has confirmed 30-40s at 8 1/2 cents, delivery the first week in February and the Washington Growers have confirmed them at 9 cents but are sold up on this size. The telegram reported that still available but sold that practically all of the remaining interest of his people in particular is in 50s.

Pralus in a telegram to the same people advised them that they did not buy at the prices named they would buy at higher figures later. He declared that the stocks in the growers hands do not exceed from 25 to 40 cars and are cleaning up rapidly and the remaining stocks unsold that are held by packers are in strong hands. He states that Rosenberg has made an offer on everything he holds, Italian and petite and he declares he believes the offering quoted out to the New York buyer of the 270,000 pounds of prunes sold at the prices quoted before.

He also reports a deal on in bags for two cars equivalent to 7 1/2 cents each if packed in 25s.

Drager reports that inquiries coming in the past two or three days from both London and New York are in massive volume than at any time during the season but that all offers are being made on deferred shipments while packers are anxious for immediate shipment to make a money cleanup on the crop.

PROBLEMS OF PARENTS TO BE STUDY SUBJECT

Valparaiso, Ind.—A nation-wide movement in training for parent-teachers has been launched by the National Congress of Parents and Teachers association and the Children's Foundation here. The foundation's materials and plans for training in parenthood and a study of the nature, well being and care of children will be used by the association as the basis for its work.

Mrs. M. W. Reeve of Philadelphia, president of the Parent-Teachers association, and Lewis H. Myers, of the foundation, in announcing the movement, declared that through the "parent-teacher groups" they would "net about at once to organize classes which would enter upon this vital study."

ONION MARKET BEGINS TO SOAR, EGGS UNSETTLED

Portland, Jan. 16.—With less than 75 carloads of onions left in the state the local market started to soar this morning after being dull for several days. Wholesale prices jumped to the 5 cent level on fancy No. 1 stock.

Buyers who have been scouring the producing sections for supplies report that they are unable to purchase good stuff for under 4 cents in the country. Two carloads were sent to dealers today at that level. Supplies are getting low with holding in the country getting down to rock bottom. Large holdings have been pretty well cleaned up and remaining stocks are pretty well scattered.

A cent decline in price is the only change in the local market. Extras are still quoted at 54 cents, although the market is unsettled.

Standard cubes are a half cent higher in the local market at 42 1/2 cents. All other grades are unchanged with the trend about steady.

Demand for country dressed calves is limited and the market is weak and drab. Choice light calves is selling at 14 to 14 1/2 cents with an exceptional sale now and then at 15 cents. Choice light hogs are already at 13 1/2 to 14 cents. Feeder demand is slow with offerings liberal. The market is weak at current prices.

There is an easier feeling in the local potato market. Buyers are bidding around \$1.50 for U. S. No. 1 stock with wholesale dealers selling Oregon at \$2 to \$2.25. The market is overstocked at 60 with Yakima potatoes, but the outlook is believed to be only temporary.

LIVESTOCK

Portland, Jan. 16.—Cattle market steady receipts 57; steers good \$7.35@7.75; medium \$6.25@7.25; common \$5.25@6.25; canner and cutter steers \$4.00@5.25; heifers, good \$5.00@6.75; common and medium all weights \$4.00@6.00; cows, good \$2.50@6.00; common and medium \$4.00@5.25; canners and cutters \$2.00@4.00; hogs good (that weighing excluded) \$3.00@4.50; common to medium (canner and bologna) \$2.00@4.00; calves medium to choice (150 lbs. down) \$7.00@10.00; cull and common (150 to 180 lbs.) \$5.00@7.00; medium to choice (190 to 260 lbs.) \$6.75@9.00; medium to choice (260 lbs. up) \$5.50@7.50; cull and common (190 lbs. up) \$4.00@5.50.

Hogs steady; receipts 1125; heavyweight (250 to 350 pounds) medium, good and choice \$3.50@4.15; light (150 to 200 lbs.) medium, good and choice \$3.00@3.75; feeder and stocker pigs (70 to 120 lbs.) common, medium, good and choice \$2.00@3.00; packing hogs smooth \$3.50@4.50; packing hogs rough \$3.00@4.00; slaughter pigs (120 lbs. down) medium, good and choice \$3.50@4.75; feeder and stocker pigs (70 to 120 lbs.) common, medium, good and choice \$2.00@3.00; sold on ally hogs and roasting pigs excluded in above quotations.

Sheep strong; receipts none; lambs, light and heavyweight, medium to choice \$14.00@15.25; heavyweight (92 pounds up) medium to prime \$12.00@14.00; all weights, cull and common \$10.00@12.00; yearling wethers, medium to prime \$10.00@12.50; wethers 2 years old and over medium to prime \$8.50@10.50; ewes, common to choice \$6.00@8.50; common and cull \$2.00@6.00. (Above quotations except lambs on shorn basis.)

POTATOES

Portland, Jan. 16.—Potatoes easier with \$1.20@1.60 for Oregon stock; onions strong, higher \$4.00 paid in country.

BUTTER AND BUTTERFAT

Portland, Ore., Jan. 13.—Butter steady; extra cubes, city, 44c; standards 42 1/2c; prime firsts 41c; firsts 39 1/2c; undergrades nominal; white 41c.

Butterfat steady; best churning cream 43@46 net shippers' track one; 47c delivered Portland.

WHEAT

Portland, Jan. 16.—Wheat bids: hard hard white \$2.00; soft white \$1.87 1/2; western white \$1.86; hard winter \$1.87; northern spring \$1.87; western red \$1.82; H.H.H. hard white \$2.15; today's car receipts: wheat 27, flour 6, hay 22.

POULTRY AND EGGS

Portland, Jan. 16.—Hens steady; common receipts 18; pullets 45; 45-48; firsts 46@48; henries 47@47 1/2 delivered Portland.

Portland, Ore., Jan. 16.—Poultry weak; heavy hens 22@23; light 19@20; springs 23@24; old roosters 16c; ducks white Pekin 50@52; five turkeys 23c; dressed turkeys 22@24; geese 16c.

Portland, Jan. 16.—Hops firm; new crop 15@16; old crop nominal.

WAR OPENED ON DRAGER PLAN

Other prune packers are beginning to wage a vigorous fight against the growers on the Drager plan which he announced recently in which he guarantees to sell prunes in his pool at minimum prices for a flat reimbursement of \$1 a ton on prunes and \$2.50 on lettuce berries.

Other packers declare that the new pool is unnecessary, that its terms are too vague and that growers should remain out of it for those reasons.

Drager is retreating against these attacks with the declaration that other packers want to continue the prune business as it is now so they can put their own price on the products of the farmer.

"It is the only fair proposition ever put up to the prune growers," states Drager, "to put a price on the product, and the price put on it as a minimum is none too high."

Drager reports that a number of farmers have already signed up in his pool.

WOOL MARKET IRREGULAR BUT PRICES STEADY

Boston, Mass., Jan. 16.—The Commercial Bulletin will say tomorrow:

Business has been rather slow and irregular this week with some tendency to clean up small lots at slight concessions, although on the whole there is no weakness in the market and the slight easing in values in Australia on merinos has had no reflection in this market, since the rise in exchange has fully offset the decline. There is little new in the west.

Since the opening in Australia Monday, prices have held very steady and the demand has been fairly keen. Cross breeds are firm and possible tend slightly down in the primary markets. Bradford is depressed to await the London opening.

In the goods market, everything is dependent largely upon the heavy-weight opening, which is expected to show a five to 10 per cent rise in prices over those of last year.

Mohair is steady at recent rates. The Commercial Bulletin will publish the following wool quotations tomorrow:

Secured basis: Oregon, western No. 1 staple \$1.60@1.65; fine and fine medium combing \$1.50@1.55; eastern clothing \$1.40@1.50; valley No. 1, \$1.40@1.42.

PLAN TO PACK MARASCHINOS WEST SALEM

Negotiations have been opened by the San Francisco packing house which handles maraschinos to pack to us; space in the proposed Pacific Packing and Canning company of West Salem for its packing operation here, the plan is, if it goes through to pack the cherries directly in the bottles at the local plant as well as to barrel them.

If this is done it will be the first time that maraschinos packing has been conducted here on a large scale, but growers have often wondered why it was not attempted as this is the home of the best maraschino cherries in the world and they have been purchased here and shipped to San Francisco in barrels at a very heavy expense, which they state could be obtained if packing were done right here.

W. F. Drager, president of the new company, declined to state the name of the company that has broached the subject of carrying on the maraschino bottling field here but said it was a company that has never operated here before, but if it did come in would carry on some large operations.

He states that if this plant comes in, as there is every indication it will if the canning goes over, it will absolutely assure success for the canner from a financial standpoint from the start.

Drager says that stock selling in the proposed canner is advanced to about 100 cents, but he believes without a doubt all of the necessary stock will be sold by February 1.

Salem Markets

Compiled from reports of Salem dealers for the guidance of Capital Journal readers. (Revised daily.)

Grain: No. 1 white wheat \$1.74; No. 1 red wheat \$1.70 (stacked).

Wholesale:

Meat: Top hogs 10 1/2c; sows 7@9c; dressed hogs 13c; top steers 6@7c; cows 4@5c; canner 1 1/2c up; bulls 3 1/2@5c; spring lambs up to 90 lbs., 14c; veal 9c; dressed veal 15c.

Poultry: Springs 16c; light hens 15@17c; heavy hens 20c; old roosters 12c; ducks 18@18c; turkeys 25c dressed; alive 23@25c; geese 18@20c dressed; live 12@14c; white Pekin ducks, alive 16@18c; India Runner ducks, alive 14@16c.

Butterfat: Creamery butter 50@51c; eggs 34c; standards 48c; selects 40c; milk \$1.80 cwt.

Vegetables: Potatoes \$1.75@2.25 cwt.; head lettuce \$4.00 crate; Oregon cabbage 2@2 1/2c; celery hearts \$1.20 doz; crate \$6.00@7.00 cwt; onions \$4.00, No. 1; bolters \$1.75 per cwt.; sweet potatoes, fancy, 8c; spinach greens 9c lb.; peppers, 2c; green Hubbard squash \$2.50 per cwt.; pumpkins 2c lb.; rutabagas 2 1/2c; parsnips 3c; sacked cauliflower \$2.25 crate; sacked carrots 2 1/2c lb.; brussels local turnips 2 1/2c pound; jambo oranges \$2.50 California bunch vegetables; carrots, beets and turnips \$1; rutabagas, parsley, radishes, green onions 6c.

and fill; fancy \$2.00@2.50; extra fancy \$2.50@3.50.

DALLAS CREAMERY PAYS \$40,000 TO POLK FARMERS

Dallas, Jan. 16.—The value of small industries to a community is well illustrated in a report of the business here. The Dallas creamery covering a period of about three months. The creamery during that time has had an output of 63,963 pounds of butter and has distributed approximately \$40,000 among the farmers of this vicinity in payment for butterfat and produce of all kinds.

E. A. Wagner, manager of the creamery, came here from Selo and he absolutely assures that people suffering from that "below par" feeling, accompanied by loss of appetite, sleeplessness, loss of weight and so forth, can be set right by having the balance of their glandular secretions restored.

Glandogen, the new scientific gland tonic, prepared in tablet form, provides a simple method of taking glandular treatment. Glandogen, for men and women, is obtainable at J. C. Perry drug store.—Adv.

The Dallas creamery is now supplying from 3500 to 4000 pounds of butter a month to the trade at Dallas, Selo, Jefferson, Stayton and Portland.

In supplying a market for butterfat and in seeking to secure enough to fill his needs Mr. Wagner secured customers in territory that had not previously sent their produce here, and in addition to bringing their cream here, they are thought to be trading here more than formerly. As roads become better it is probable that he will extend into other nearby territory for he declares that the natural growth of the business will require much more butterfat another year.

them and keeping tabs on them from year to year have been made even in open waters. Eels live to be 60 years old, and carp, like the salmon, are centenarians. Pike is said to live longer than any of the fish family.

DALLAS GROWERS PREPARE TO MOVE BLACK CHERRIES

Dallas, Jan. 16.—First steps look toward the marketing of the Willamette valley black cherry crop by fresh shipment in 1925 were taken here at a conference between representatives of Denny & company, fresh fruit and produce shippers, and leading cherry men of Dallas.

The offer made by Denny & Co., through Claude McKinney and other representatives, was a guarantee of five cents a pound for all King and Lambert cherries, 2 1/2 cents to be advanced when the cherries were delivered and the balance when they were sold in Chicago. The company will take care of packing, freight and charges. On all money received above the guarantee price and packing charge of 2 cents, totaling 7 cents a pound, the growers will receive the first cent and will split 50-50 with the company on any additional amount received.

Representatives of the company (King and Lambert cherries, 2 1/2 cents) are expected to be in the market in the near future. The market is prejudicial against coast cherries as compared with eastern Oregon and Idaho cherries. They declared their experience in 1924 and convinced them that the fruit will carry up if properly packed. The proposed pool offers an opportunity to build up a permanent fresh cherry market in the east, they declared, and advanced this as their chief selling talk.

While the representative cherry men present were disposed to accept the proposal, they were frankly interested, both in the price offered and in the proposition of building up a permanent market. They voted to confer with other cherry men of this vicinity and give a definite answer by Monday.

It was estimated that 75 to 100 tons of black cherries can normally be expected from Dallas each season.

The fruit buyers indicated that their experience last season with prunes from the valley proved satisfactory and while no specific mention was made, it would be probable that more will be shipped next season from this section.

Spraying to guard against worms was declared to be an absolute necessity the coming year, if efforts to build up a market are to be successful. A dormant spray, before buds open, followed by poison spray after the fruit has set were recommended.

Growers present who shipped last season through Denny & Co., received 5 and 3 1/2 cents for their black cherries, while those who sold to canners got 3 1/2 and 4. Prices have ranged as high as 15 cents, received in 1919. Royal Valley cherry market was not discussed.

WHEAT AND CORN ARE BOTH HIGHER

Chicago, Jan. 16.—Opening wheat prices, which ranged from 1/2 cent to 3/4 cent advance, with May \$1.32 1/2 to \$1.34 and July \$1.23 1/2 to \$1.25 1/2, were followed by material upturns all around and then a pronounced break, especially in May.

After opening at 1/4 off to 3/4 up, May \$1.32 1/2 to \$1.32 1/2, corn underwent a general sag to well below yesterday's finish.

Cash market advanced to 1/4 lower, May 4 1/2 to 6 1/2 and later continued downward.

Provisions were weak.

Wheat closed firm, 1/4 to 1 1/2 net higher, May \$1.85 to \$1.85 1/2, and July \$1.59 1/2 to \$1.59 1/2.

The corn close was firm, 1 to 1 1/2 cent higher, May \$1.33 1/2 to \$1.33 1/2.

Wool Growers Oppose Child Labor Statute

Pendleton, Ore., Jan. 16.—The Oregon Wool Growers re-elected all their 1924 officers for 1925 at their meeting yesterday, and passed a series of resolutions in regard to matters relating to the wool industry. The Gooding bill was opposed by the convention and the Phillips bill now before congress on the grazing question was recommended. The rise in the national grazing fees for 1925 was opposed and the convention sent on record as being opposed to the child labor amendment to the federal constitution. The executive committee was authorized to draft a bill and present it to the state legislature providing for the humane disposition of the wild horses that now are so numerous on the ranges. The legislature was asked that leave be protected in counties east of the Cascades and uniform assessments of sheep and range land was requested. Truth in fabric was favored in national legislation and the desire that cottonmen be not forced to pay grazing fees for 1924, due to the serious economic condition of the cattle industry.

The officers re-elected were Fred W. Falcover, president, who re-appointed Mac Hoke of Pendleton as secretary; vice-president, K. G. Warner, Pilot Rock; Fred Herpin, Ashland and Art Minor, Heppner; executive committee, Jay H. Dobbin, Joseph L. C. Johnson, Clarkston; A. B. Robertson, Condon; Bob Thompson, Heppner; D. P. Ketchum, Dallas; Herman Oliver, Prairie City.

The convention was characterized by officers of the association as the most successful in the 23 years of the organization.
