Benefit Concert Tomorrow

For the purpose of raising funds with which to fulfill their pledge of five hundred dollars for the new Y. M. C. A. building the Y. M. Auxiliary will sponsor their third annual concert tomorrow evening in the First Methodist church. They will offer a program that would be difficult to rival both from the standpoint of quality and variety. Organ solos, numbers by stringed instrument quartet, soprano and baritone solos, numbers by the Willamette glee club, male duets and numbers by a talented reader are combined in one evening's entertainment.

Because of illness neither Mrs. Phil Newmyer nor Percy Blenkinsop will be able to appear on the program, as was first announced. Instead Mrs. Harry Harms, popular soprano, will sing "My Dreams" by Tosti, and another Tosti number, "Goodbye." Leon Jennison, another favorite with local audiences, will sing "Friend of Mine," by Sunderson, and "Could I," by Tosti.

The program will commence promptly at 8:15, Mrs. John Harbleson, president of the auxiliary, has taken charge of the affair. All members of the auxiliary will act as sponsors.

A Wonderful New Soap

For all who want to retain the delicate glow of a youthful skin

DEEVA is called soap, merely for the want of a better name. It has nothing in common with any soap you have ever used except its shape and appearance. Even its ingredients are different from all soaps hitherto manufactured. Ordinary soaps are made of animal and vegetable fats, combined with alkali or lye. When these soaps come into contact with water lye is released. The result, if your skin is naturally tender or if it is inflamed in consequence of eczema or other skin diseases, is dryness and more or less acute irritation. Even a skin not naturally sensitive feels the same irritation after successive washing. DEEVA RELEASES NO LYE IN CONTACT WITH WATER. The consequence of this absence of lye in Deeva is that no matter how sensitive your skin may be you can wash with it as often as you like without irritation or inconvenience. On the contrary each washing leaves the skin softer and more refreshed.

While we do not claim for Deeva active therapeutic properties, it is a specific for skin disease because it removes the element of irritation in washing and therefore allows the ailment to disappear naturally.

The absence of lye prevents any attack on the natural oils of the skin and hair, which is so often the cause of a dry rough skin and brittle hair.

Deeva will give you a more abundant and soothing lather than any other soap. It is admirable for shampooing and perfect for the bath. Its non-irritating and soothing qualities make it
