

RUMPUS LIKELY TO START ANY TIME IN SENATE

In the senate the calendar for today contains nothing but minor bills, but there is enough brewing under the surface to cause an eruption there at any time. There is a strong inclination to bring about an accurate test of the governor's strength in the upper house and, as nothing can better test this point than the vote on the bill transferring the fish commission from the executive to the board of control, plans are rapidly shaping to bring this measure up early in the week. Upon the outcome of this vote depends largely the course that future attempted legislation will take. It is generally conceded.

Also, there is in the hands of the committee on agriculture a senate bill to abolish the office of state market agent, and this may drop onto the table any time.

The Dennis resolution suggesting a constitutional prohibition on income and inheritance taxes in Oregon is also suspended over the senate by a threat that may break and precipitate another word battle at any time, although there is little chance that it will pass because of the inheritance tax provision.

In both houses the question of ratification of the federal child labor amendment is pending and, while sentiment against the amendment is strong in the majority, there is a sizable number in both houses who are inclined to pass the buck and submit the question to the voters at the next general election.

FEDERAL AID FOR SETTLERS

Washington, Feb. 2.—The house agriculture committee, called to open brief hearings, took up today the shaping of recommendations of the president's agricultural committee into a legislative program that will have the best chance of enactment in the final month of the session.

The committee today was ready to hear representatives of cooperative marketing organizations.

The committee, in a third report today, criticized the administration of certain federal laws and agencies affecting the farmer. The commerce commission, the report says, has "failed or been unable to recognize its responsibility as an advocate of the shipper and has developed into a court," while it held the traffic commission could materially assist agriculture by "actively functioning along the lines of its constituted powers and responsibilities."

The commission charged that "inter-departmental or inter-bureau jealousies" were seriously handicapping the administration of some departments and were causing a "dog in the manger" attitude that was resulting in the undue expansion of some governmental agencies and retarding the development of others.

Declaring agriculture was suffering from the country's lack of a "unified banking system, the commission believed that correction for this lay in measures to increase the relatively small membership in the federal reserve system and a modification of certain state banking laws.

14 KILLED IN YEAR IN HERRIN KLAN WARFARE

Herrin, Ill., Feb. 2.—(By Associated Press.)—A toll of 14 lives has been taken, directly or indirectly, in Williamson county Klan and anti-Klan warfare in less than a year. The county was known as "bloody Williamson" even 50 years ago, but first came prominently into the national limelight as a result of the mine riots June 22, 1922, in which 22 men were killed.

The record of killings in the last year follows:

February 8—Constable Caesar Cagle, a klansman, was killed when the Herrin city hospital was riddled by bullets in a disorder following a series of liquor raids led by S. Glenn Young.

May 24—Jack Skelcher, one of the alleged assassins of Mr. and Mrs. S. Glenn Young, in an attack the previous night, was killed when constables attempted to arrest him at the Herrin city limits.

August 30—Seven men, including klansmen and anti-klansmen, were killed in and near the John H. Smith garage at Herrin when Sheriff Galligan and deputies attempted to seize as evidence the bullet riddled satchel of S. Glenn Young.

January 24—S. Glenn Young and Deputy Sheriff Ora Thomas killed each other and two others were slain in a shooting affray in the European hotel building in Herrin.

January 31—A man identified as Joseph Phillips, an alleged anti-klansman, was killed in the Lyman hotel at Herrin by Police-ma Ruffin Whitson.

WILBUR HOLDS WAR NOT BAD

Washington, Feb. 2.—Pictures of the "next war" as a process of annihilation of whole communities by poison gases, germs and high explosives are viewed by Secretary Wilbur as "absurd" and not only physically impossible but also probably outside the possibility of human will.

The secretary, in a statement last night asserted reports that such methods of destruction had been perfected are "not true and not justified by past history or present conditions."

Production and transportation of poison gas in sufficient quantity would be impossible, Mr. Wilbur said, while the case of germs would mean a spread of disease to the forces employing them.

"There is no doubt," the secretary, "that modern warfare is a serious and frightful thing, as we have been so lately reminded, and that unpreparedness for such war and its possibilities is inexcusable in any nation that has means for preparing to avoid the hideous possibilities of modern warfare."

He that despises small things will perish by little and little.

ACCUSE YOUTH OF INDUCING BOY TO RUN AWAY

Leo Killian has been charged by the parents of Caryl Kleizer, Parish junior high school student, 15 years old, of contributing to the delinquency of the boy and inducing him to run away from home.

"Goodbye mother, I'm going away with Leo and Kenneth," are the parting words of Caryl Kleizer at 10 o'clock Thursday night. Mrs. Kleizer did not believe that her son was leaving, but when he fall-

ed to show up yesterday she became alarmed, and got in touch with Mr. Killian, who formerly lived in Mt. Angel.

That her son was getting along well in school until he met Killian was attested at the arraignment in Justice Small's court this morning. The Kenneth mentioned was said to be Kenneth Coffey.

"Caryl has never been away from home before, and we are worried to death," exclaimed Mrs. Kleizer this morning.

Tom Brown has been retained to defend Mr. Killian, who entered a plea of "not guilty" on the charge.

London, Feb. 2.—Influenza is causing considerable suffering throughout England and many deaths have resulted, although the death rate is not so high as a year ago. The deaths in the principal towns last week totalled nearly 200.

The epidemic is worst in the Midlands, Yorkshire and Lancashire. Many schools have been closed.

"CASCARETS" 10¢ IF DIZZY, BILIOUS, CONSTIPATED

To clean your bowels without cramping or over-acting, take "Cascarets." Sick headache, dizziness, biliousness, gas, indigestion, sour upset stomach and all such distress gone by morning. Nicest laxative and cathartic on earth for grown ups and children. 10c, 25c and 50c boxes—any drug store.—Adv.

Lame?

Drive out stiffness and ache After heavy exercise, apply a little Sloan's. No rubbing is necessary—the liniment itself starts fresh blood circulating quickly through the aching muscles. At once—the stiffness vanishes, the aching stops! All druggists—35 cents.

Sloan's Liniment - kills pain!

ENTOMBED IN MINE 40 HOURS

Cave City, Ky., Feb. 2.—Hope came with the dawn today to Sand Cave, where in one of its crooked little crevices 300 feet from the entrance, Floyd Collins, 35, has lain pinioned by a huge boulder since Friday morning.

A squad of men, with portable drill, was to leave Louisville early today. A truck was ready to transport the equipment to the cave, six miles away. With this drill the rescuers hope to cut away enough of the stone to release the victim.

His strength slowly ebbing, Collins devoted his conscious moments to directing the workers, who, for more than 40 hours have been chipping tiny flakes from the huge rock in a futile effort to release Collins' foot, all that was between him and safety.

Collins' brothers—Marshall and Homer—have worked incessantly since their brother was entombed. In desperation yesterday, they offered a \$500 reward to anyone who would rescue him, dead or alive.

HUBBARD ORGANIZES A COMMERCIAL CLUB

Twenty four of Hubbard's business and professional men organized a commercial club Friday night following a banquet served at the White Front hotel. L. A. Beckman, cashier of the State Bank of Hubbard was elected president; J. J. Hershberger, president of the Hubbard Garage, vice president; L. C. McShane, editor of the Hubbard Enterprise, secretary-treasurer. L. M. Scholl, hardwareman and C. M. Crittendon, postmaster, were made directors. H. C. Mach, Lee Byers and F. A. Pook were appointed a committee on constitution and by-laws to report at the next meeting of the club, Friday, February 13th. The fellows are not afraid of the double jinx as they have ordered and paid for a chicken supper for the coming meeting.

Quick Starting SHELL GASOLINE

IS YOUR BABY TORTURED BY ECZEMA OR CHAFING?

Just smooth gently on to the irritated skin a coating of Resinol Ointment, and see how quickly his fretful crying stops. The moment this soothing ointment touches the skin it relieves the itching and burning and hastens the healing. Does not smart when applied and its ingredients are harmless—two facts which make it especially suitable for babies.

Resinol Soap is unsurpassed for babies because it so thoroughly cleanses the skin without injuring its delicate texture. Ask your druggist about Resinol.

RESINOL

For CHRONIC COUGHS

DOCTORS SAY: DON'T NEGLECT COUGH OR COLD

Physicians warn against neglecting coughs and colds and tell of the serious lung complications that may result. Leading physicians now prescribe BALSAMEA for all bronchial affections. Well known Dr. S. J. Crabtree, Anderson, Mo., writes: "I use it exclusively for my practice and my family. It is quick, sure and safe in its action like nothing else."

Toward the end of the influenza epidemic a government physician noticed that a tribe of Indians in Nevada, by the use of oils from a native plant were immune from the ravages of influenza. He used these oils among his white patients and then in a hospital overflowing with "death" cases. News of the results swept the world and for some time it was not possible to supply the demand.

BALSAMEA combines these pure vegetable oils in a pleasant syrup. It gives miraculous results in four ways: 1. It soothes the inflamed membranes and relieves irritation. 2. It increases secretion of mucus and permits easy expectoration. 3. It stimulates pores of the skin in throwing off body poisons and 4. It strikes at the cause, quickly checking germ action.

Do not confuse it with ordinary balsam cough syrups that are only soothing syrups and do not go to the base of the trouble. Unlike other cough remedies BALSAMEA is free from coal tar and other harmful narcotic. Pleasant to take and absolutely safe to give to children.

Be sure you get BALSAMEA with the picture of the Indian on the package. Guaranteed to relieve any cough, no matter from what cause, or your money back. All drug stores sell BALSAMEA. In Salem buy it from J. C. Perry drug store.—Adv.

Genuine BAYER ASPIRIN

SAY "BAYER ASPIRIN" and INSIST!

Unless you see the "Bayer Cross" on tablets you are not getting the genuine Bayer Aspirin proved safe by millions and prescribed by physicians 24 years for

Colds	Headache
Pain	Neuralgia
Toothache	Lumbago
Neuritis	Rheumatism

Accept only "Bayer" package which contains proven directions. Handy "Bayer" boxes of 12 tablets—Also bottles of 24 and 100—Druggists. Aspirin is the trade mark of Bayer Manufacture of Monocrocinacidator of Salicylic Acid.

Correctly Fitted Glasses

take all the strain off the eyes and insure relief and comfort to the wearer.

We furnish for your individual eye needs, any kind, style or shape of lens known to the optical world. Our service is of the best.

Gossard Special \$6.95 This group of high bust Gossard corsets comprise regular \$9.50 values—Splendidly made of good quality broche. Sizes 30 to 34. See the Special Lot

"CHOOSE WITH CARE—THE CORSET YOU WEAR"

THE CROSS TRIFOCAL IS MAKING OPTICAL HISTORY

Last week when we announced this new wonder lens, we did not anticipate the remarkable reception it would receive. All week we have been demonstrating and fitting this latest optical achievement. Already a great many citizens of this community are wearing "Cross Trifocals" with perfect comfort, and many of them had tried, and found ordinary bifocals unsatisfactory. To date we have not had a single instance where Trifocals have not been entirely satisfactory. If you have not already seen this ingenious lens, we invite you to come in and permit us to explain it further.

The distance correction (d) and the reading (r) have been so ground from a piece of solid glass that the jump and confusion, found in ordinary ground in bifocals, has been eliminated. The sections (i) gives clear vision at intermediate distances something heretofore impossible with double lenses.

Everyone Wearing Bifocal Glasses

should see this new idea in lens making. It will undoubtedly become indispensable especially among business men and desk workers.
