Approximately 40 business men of Salem met at the Gray Hotel last night to hear O. F. Tate of Portland speak concerning a number of bills now before the Oregon state legislature. Those bills regarded as particularly affecting the interests of business men came in for most of the discussion. The bill providing for an increase in the gas tax met with considerable criticism, as did the bill calling for the doubling of the license tax on all trucks delivering goods outside the corporate limits of a city. Both of these bills were declared to have features detrimental to the interests of business men. C. S. Hamilton, president of the Business Men's league, and the members of the board of directors, were appointed as a committee to watch the actions taken by the legislature at the present legislative session. No resolutions were passed. FAMOUS CONCERT PIANIST FOUND AT HOME OF FRIENDS

CALMLY AWAIT END OF WORLD

Ethel Leginska

New York, Feb. 2.—Ethel Leginska, concert pianist, who disappeared a week ago, has been found at the home of friends outside New York. This announcement was made by the bureau of missing persons.

In the police report it was stated that her disappearance was apparently caused by a nervous breakdown resulting from overwork. It was reported that she remembers nothing from the time she vanished here until she was located.

"On request of Miss Leginska, the location of her friends is withheld so that she will not be bothered by representatives of the press," the report said. This, as far as police are concerned, closes the case.

According to Mrs. Richard Marwede, a close friend, Miss Leginska is in a sanitarium in Boston, having been taken there after she was found in a town in Pennsylvania suffering from partial loss of her memory. Incessant over-work was the reason Mrs. Marwede ascribed for the breakdown of the famed pianist.

PHOTOGRAPHS ADDED TO COLLEGE RECORDS

Manhattan, Kan.—The "final touch of personality" has been added to the records of students at the Kansas State Agricultural College here, with the installation of a new system which includes placing the photograph of each student with his personal history in the college records.

Administration officials have long pondered over the problem of becoming personally acquainted with the individual student and keeping a mental catalogue in coordination with his written records and qualifications.

The solution was found in the gallery system now being organized. As each freshman furnishes his photograph to the college annual, a duplicate is inserted in the volume that forms the permanent liaison between the institution and the student. This becomes a valuable identification in later years, college officials said, when the student writes back for recommendations.

"After the record of a student's accomplishments and honors has been kept through his years of college, that record ceases to be a page and becomes the student himself," said the registrar. "Add his picture to the page and it is the final touch of personality by which he will always be remembered. It will prove of inestimable value to this office and to the student as well."

Portland, Feb. 3.—While efforts were made this morning to bring into Astoria the waterlogged steamer schooner Caoaba, one of the vessel's lifeboats with nine men was brought into Aberdeen by a tug which had picked it up off Grays Harbor, according to radio message to the Federal Telegraph company here.

Members of the crew landed at Aberdeen were in good condition and said they believed the other lifeboat of the Caoaba with ten men and the master was adrift between Grays Harbor and Astoria.
