Wray, president of the Silverton Legion auxiliary; Charles Johnson, state commander, and Clifford Brown, commander of Capital Post No. 9. Twenty-five members of the Salem drum corps were present and assisted with the program.

BOXERS PREPARE FOR STIFF BOUTS

All of the boxers are training hard for their coming fight on Monday evening, February 16. Phil Hayes, who meets Joe Marano in the tented main event expects to be in the best possible shape by Monday. He has been a little too heavy in his last few bouts but he is within three or four pounds of his best fighting weight now and will be down in the pink by Monday evening. Matchmaker Harry Smith has arranged a six round semi-stumping between Tommy Carter of Seattle and Sallor Mannings of Salem. Two snappy four-round curtain raisers have been scheduled.

The fight between Bayne and Marcus is expected to be the hardest fought of any yet put on by Plant. Bayne is a fighter who is willing to mix, while Marcus follows the hard hitting line himself. Neither of them are clever boxers and the fans will see plenty of action. If they start in to hard hitting one of them will more than likely go down for the count. Marcus fought a four round draw with Cracker Warren and received a four round decision over Frankie Webb.

Mannings is an old timer at the field game, having fought some of the best of them. He spent two years in the army where he got the nod over them. Carter is also a clever scrapper, he won over Maloney at Albany a short time ago. He has challenged Dawson, of Eugene to a fight. Jack Wagner will probably be the third man in the ring.

IS THE GOLDEN AGE THE GLAND AGE?

In a recent press dispatch, a London physician stated that the Golden Age of man bids fair to be the glandular age, when salvation will be taken in tablet form. He said further that the average man believes that his thoughts, action and feelings are controlled by his mind. But it is possible to show that mind is itself under the despotic sway of the ductless glands, which generate in the system the chemical fluids on which depend health, happiness and morality. Glandogen, the new scientific gland tonic, prepared in tablet form provides a simple method of taking glandular treatment. Glandogen, for men and women, is obtainable at J. C. Perry drug store.—Adv.

PLANS FOR STATE BASKETBALL TOURNEY HERE

Plans for the state high school basketball tournament are rapidly nearing completion at Willamette university, where the tourney is to be held. A large scoreboard, with places for names and positions of all players, was installed in the southwest corner of the main room yesterday. The board is to be run by electricity and will register the scores made by every player on both teams.

Reports reaching Salem indicate that the usual intense rivalry is to be found throughout the state to determine which schools will be represented at the state meet. Along the coast Coquille seems to loom as a likely contender, having defeated five of its rivals and at present not having a defeat chalked up against it. Marshfield and Myrtle Point are practically eliminated, it is claimed.

In southern Oregon, Medford, champions of the tournament last year are counted on to make a strong bid, its chief rival being the strong Ashland aggregation, with whom Salem has locked horns three times already, this season winning twice at Ashland and losing once at Salem.

Benji is leaving for central Oregon, having recently defeated Sisters, apparently their nearest rivals, by a one point margin. The team at Sisters is coached by John Robbins, who graduated from Willamette in 1923. Expectations are that in eastern Oregon, Pendleton has a little better than even chance to come to the state tourney. A tournament will be held in Pendleton in the near future to decide the question. Pilot Rock's defeat of Pendleton and Atherton does not affect district standings.

Salem has usually entered the tournament and chances at present seem good for it to represent its district again this season. The clash with the strong West Linn team, slated for this evening, will go a long way toward determining Salem's chances. The West Linn team is coached by Rene Jackson, former star center on the Beacraft quintet.

At Portland the two main contenders are believed to be Lincoln and Franklin. They have been scheduled to play each other Wednesday night.

Dates for the tournament have been set at March 12, 13 and 14.

Tonight the Salem high school basketball quintet will travel to West Linn to meet the high school representatives. West Linn has a good team according to advance information. They defeated the McMinnville team by a score of one point after a five minute overtime period. Salem won from McMinnville 21 to 19 and 25 to 8.

Salem will have a slight edge over them but a hard game is expected. Salem is practically a cinch to enter the tournament to be held here in March. If the red and black five are able to get a win over them they will have a clear field, although they have to meet Dallas, West Linn twice.

PLAN TO ANNEX PART OF CLACKAMAS COUNTY

Nearly all of Clackamas county north of Sucker creek, including the towns of Milwaukie, Oswego, Horing and others would be taken into Multnomah county by a bill introduced today by Senator Staples. The measure is expected to bring a large lobby from Clackamas county to fight the effort to take a large area from that county and annex it to Multnomah county. The argument is made that a large part of the population in the area involved does business in Portland, many of the residents being Portland business men.

Independence, Silverton and Oregon City. The locals have copied wins over all of them once with the exception of West Linn. Most of Salem's games are away from home which will handicap them to a certain extent.

SERIOUS LUNG TROUBLE STARTS WITH COUGHING

Physicians warn against neglecting coughs and colds and tell of the serious lung complications that may result. Leading physicians now prescribe **BAL-SA-MEA** for all bronchial affections. Well known Dr. Benj. F. Graham, Anderson, Mo., writes: "I use it exclusively for my practice and my family. It is quick, sure and safe in its action like nothing else."

Toward the end of the influenza epidemic a government physician noticed among the Indians in Nevada, by the use of a native plant were immune from the ravages of influenza. He used these oils among his white patients and then in a hospital overflowing with "death" cases. News of the results spread the world and for some time it was not possible to supply the demand.

BAL-SA-MEA combines these pure vegetable oils in a pleasant syrup. It gives satisfactory results in four ways: 1. It soothes the inflamed membrane and soothes the throat. 2. It increases secretion of mucus and permits easy expectoration. 3. It stimulates pores of the skin in throwing out body poisons and 4. It strikes at the cause, quickly checking germ action.

Do not confuse it with ordinary oil-scented cough syrups that are only soothing syrups and do not go to the base of the trouble. Unlike other cough remedies **BAL-SA-MEA** is free from opiates and other harmful narcotics. Pleasant to take and absolutely safe to give to children.

Be sure you get **BAL-SA-MEA** with the picture of the Indian on the package. Government physicians consider it the best remedy for what aches or your mother back. All drug stores sell **BAL-SA-MEA**. In Salem buy it from J. C. Perry drug store.—Adv.
