

HUGHES TO PAY ROOT TRIBUTE 80TH BIRTHDAY

New York, Feb. 12.—Secretary of State Charles E. Hughes, who retired from office on March 4, remained in New York to deliver an address at dinner tonight celebrating the 80th birthday of Elihu Root, a former head of the state department.

The dinner will be in tribute to Mr. Root's services to his country, to the cause of international justice, to the republican party and to the Union League club, of which he has twice been president. The address, as well as those of other speakers, will be broadcast.

Mr. Hughes remarked last night at the Lincoln dinner of the national republican club, that New York had been the scene of his advent into politics and that it apparently was to be his political denizen. His address was a plea for "the reasonableness of Abraham Lincoln" in which quality he said lay the "test of our safety, the measure of our capacity for progress."

Asserting the country could not ignore the organized efforts of "those who would destroy our form of government," the secretary said that the security, liberty, justice and opportunity sought by the discontented were all to be found here.

Mr. Hughes deplored the lack of attention paid to public affairs, citing as an example the naval proposals at the Washington conference.

"The problem," said the secretary, "is not so much to inform the public as to make the information stick. This is our greatest difficulty in an age of fleeting observations."

Emphasizing the need for reasonableness in international relations, he said the United States desired to avoid entanglements and commitments so whatever contingencies may arise we may be free not to exercise any arbitrary choice, but to follow the dictates of reason and conscience, to take the action approved by an enlightened people.

ESPEE PLANS LAKEVIEW-BEND BRANCH LINE

Klamath Falls, Feb. 12.—Central Oregon's projected railroad development was again thrown into a turmoil late yesterday when word was received here from Lakeview that the Nevada, California and Oregon railroad and filed with the interstate commerce commission a petition to be heard on a proposed extension north from Lakeview to the heart of the Lake county pine belt.

It is generally believed that the N. C. & O. is owned, or at least controlled by the Southern Pacific. The petition to the interstate commerce commission was filed by F. P. McCarty, president of the line, he announced yesterday in Lakeview. He promises that his line would expand to standard gauge, if permitted to make the extension. It is believed here that he would then extend his line to connect with the Southern Pacific line near Odell, when the Naiton out-off is completed.

WOODBURN LOSES TO FRESHMEN

In a hard fought contest, during which the high school led most of the time, the Willamette freshmen nosed out a win over the fast Woodburn high basketball quintet on the local floor yesterday afternoon. The final score was 21 to 20.

"It hadn't been for the big floor I don't think we'd have beat them," said Leslie Sparks, freshman coach, after the game. At the first of the season the yearlings lost to Woodburn by one point, the tilt being staged at Woodburn.

The count in yesterday's game stood 5 to 6 at the close of the first quarter. In the second quarter Woodburn slowly drew into the lead, the half ending 10 to 7 in favor of the high school. The lead was held until the last period when the rooks hored in for a floor o' foun'ters, piling up a 7-point lead a few minutes before the gun sounded.

The high school aggregation rallied, taking three baskets in quick succession and throwing a scare into the freshmen, who were perhaps saved from defeat by the timely ending of the game.

Reidel, freshman center, was back in a suit yesterday, having been out of the game with a bad foot for several weeks. Iverson starred for Woodburn.

BEARCATS DEFEATED BY WASHINGTON STATE 61-22

The Willamette university basketball team was defeated by Washington State college 61 to 22 in a slow game in the Willamette gymnasium last night. The Bearcats played through the game with only four experienced players, Emmet, star guard, being on the sick list. Robertson, whose regular berth is at forward, played in Emmet's position, his place at forward being filled by Herman, a member of last year's freshman squad, but new on the varsity this semester.

The first half ended 31 to 12 in favor of the northerners. Nolan, W. S. C. forward, was

Women Who Age

All welcome to this test By Edna Wallace Hopper

At a grandmother's age, I keep my youthful bloom and contours. The thousands who see me daily on the stage and elsewhere know that I look 19.

That is due to factors science made for me, and one is my White Youth Clay.

This is a new type clay, white, refined and dainty. It is nothing like the crude and muddy clays so many have employed.

It combines two clays with other needed factors. The clays are clean and white. This is a "dainty" application, and the final result of 20 years of scientific study.

White Youth Clay purges the skin of all that clogs and mars it. It removes the causes and blackheads and blemishes. It draws the blood to the skin to nourish and revive it. The result is a ruy afterglow which amazes and delights.

It combats all lines and wrinkles, reduces enlarged pores. Many women seem to drop ten years with a single application.

Clay is a beauty essential. No woman can look her best without it, or keep her youth. In all the ages none have found a beauty help to compare with clay.

Now clay is made inviting. It is made to combine added helps. Whatever other clay you may have tried, you owe yourself a test of this new type.

Open a can of Snowdrift and you will see why Snowdrift was named Snowdrift. It is as white as freshly fallen snow. This whiteness does not make Snowdrift pure, but its purity is one reason why Snowdrift is so white.

Snowdrift is made by the Wesson Oil people out of oil as good as fine salad oil—hardened and whipped into a creamy white fat—and packed in an airtight can to keep it as sweet and fresh as the day it was made.

There couldn't be anything nicer than Snowdrift for making cake, biscuit, or pie crust, or for frying.
