PRISON USING MILL CREEK AS PUBLIC SEWER

A scathing denunciation of the method of sewage disposal at the state penitentiary was made last night at the city council meeting by Aldermen L. J. Simeral and W. W. Rosebraugh, who conducted an investigation at the prison grounds yesterday from 1 to 4 o'clock. The same denunciation was embodied in a letter sent this morning to Dr. Frederick Stricker of Portland, state health officer.

Entrance to the prison grounds was refused last week to Alderman Simeral and Dr. Stricker, who went to investigate charges by Salem residents living along Mill creek that sewage was being dumped into the creek at the penitentiary. It was explained that all prisoners were loose within the walls at that hour and that visitors could not be admitted.

Every courtesy was shown the two men yesterday, according to Mr. Simeral. The prison engineer did all within his power to explain the system of sewage disposal, but to turned out that he had little knowledge of the sewer outlets, and that no data of any accuracy could be found in the engineering records. The present engineer has been on the job only a short time.

One sewer outlet through the prison wall was found by the aldermen which proved beyond doubt that the creek was being used as a sewer outlet. The prison engineer promised to plug up the hole immediately.

Posts four and five on the wall are not connected with the sewer, and other toilets were found standing directly over the creek. It is believed by prison officials that some of their sewer connections are with the Court street sewer of the city, but they have no proof of that. They possess no charts or maps which show the true condition.

Dr. Stricker has promised to take up the matter immediately on receipt of the report of the investigators from the city, and he will be invited to tell the council of his headway next council meeting, it is expected.

CRIPPLE CAUGHT MAKING BOOZE GETS 4 MONTHS

All local speed records in the matter of making bootleg arrests were broken last evening when Deputy Sheriffs Bremmer and Smith and Lew Olson, city patrolman, left the sheriff's office at 7:35 o'clock and at 8:15 o'clock had their man in jail, along with his still, prune hootch and mash. The victim, Robert E. Morton, was caught in the act of making a run in a garage house on 18th street between Nebraska avenue and K street.

"Good night," he shrieked when the officers appeared at the door and advised him he was under arrest. At first Morton threw his hands high into the air, then he went to a cot in the room and began packing up the few articles he had scattered about.

"What are you doing?" asked Deputy Sheriff Smith.

"I am getting ready to go somewhere with you, that's all," answered Morton.

The somewhere proved to be four months in the county jail, with a $50 fine attached, imposed by Justice of the Peace Small this morning.

Although the city dump has been charged with raising a perfume in the neighborhood of Morton's arrest, the still operations smelled to high heavens and neighbors' nostrils proved to be the undoing of Morton.

Morton is a stranger here and a cripple, suffering from a broken leg.

"If it wasn't for that I wouldn't be doing this," said Morton to the officers. "I can't work, and I don't want to beg or steal so I thought I would enter into a little industrial operation of my own and here I am. But, if you had been 12 hours later I would have been gone," he added as an afterthought.

The still seized was a copper wash boiler with copper coil. About three gallons of newly made prune whiskey and some mash were included in the seizure. Unless the usual executive interference intervenes, it is predicted Morton's leg will be well when he is free again.

It was found by the report of W. I. Staley, auditor of the city books of the year 1916, that for the full year of 1916 the receipts from fines for traffic violations and other misdeameanors during that year amounted to only $1,004, only two thirds of the amount taken in during the first month of 1925.

R. F. Waters went to Eugene yesterday on business, stopping in Albany for a few hours.

Mary Emma Brunk is the name given to the girl born on February 12 to Mr. and Mrs. Byron F. Brunk of Salem. A boy, born on February 12 to Mr. and Mrs. Dennis Stevenson, of this city, has been given the name Henry Arthur Stevenson. Reports of both births were filed with the city health officer this morning.

Mrs. Kittie Day of Portland was in Salem this morning on a brief business trip.

MINTO ADMITTED TO HOOT OWL MEMBERSHIP

Frank Minto, chief of police, has just received his membership card to the Keep Growing Wiser Order of Hoot Owls from the home roost in the Oregonian tower.

Chief Minto accepted the invitation of a friend last Friday night to listen in on the Hoot Owl program, and was electrified to hear his name brought up for membership.

"Shall we admit him," was the question asked by Charles Berg, grand screech.

"No!!!" was the hearty response from a dozen husky throats.

"Yes," piped one thin treble.

"The yesses have it," announced the grand screech, and now Chief Minto has found a way to spend Friday evenings.

FUNERAL HELD AT MOUTH OF RESCUE SHAFT

(Continued from Page One)

services by reading the committal and A. F. Pearson dropped a handful of earth from the hill down the shaft.

Floyd's aged father, his stepmother, three brothers and sister formed the central group of mourners.

The father, more than 75 years old, worn by the 18 days of vigil, tried bravely to comfort his wife and Floyd's sister. By his side stood Andy Lee Collins of Kewanee, Ill., the elder brother, and Marshall and Homer Collins, those younger than Floyd. Nearby stood hundreds of neighbors and in a group the tireless volunteers who struggled to save Floyd but reached him too late.

More than once the rescue workers who had struggled so heroically to save Collins brushed away a tear.

"The whole nation is in sympathy and tears for Floyd Collins," said Rev. Mr. Dickey. "The interest and prayer day by day, minute by minute.

"Why have men and women given so generously of their means and their all that Floyd Collins might be rescued? My explanation is that the story of Floyd Collins is a romance of the human race, from the darkened ages into civilization."

Cave City, Ky., Feb. 17.—(By Associated Press.)—The body of Floyd Collins will be left in his natural tomb and his funeral services will be held this afternoon at the mouth of the shaft which was dug to rescue him, but in vain. His aged father, Lee Collins consented to the arrangements after Dr. William Hazlett of Chicago had himself examined Collins and pronounced him dead.

Seven friends of Collins crawled down the tunnel to identify him as members of a coroner's jury, including Magistrate Clay Turner, the acting coroner.

"Everything has been done that could have been done and man's ingenuity and modern machinery have failed," said Mr. Collins. "No more lives should be sacrificed in further attempts to remove his body."

Dr. Hazlett came up the shaft at 12:20 p. m. and said he had identified Collins through a gold front tooth. He announced that Collins had been dead between three and five days when he was reached yesterday afternoon. Magistrate Turner said he had seen and recognized Collins and felt confident there was no way to remove the body without grave risk.

H. T. Carmichael, in charge of the shaft operations, announced this afternoon that he had ordered the cement to be used in sealing the entrance to the tomb in the lateral of the shaft.

Temporary arrangements were being made to hold funeral services at 2 p. m.

HOFER TALKS OVER RADIO

Radio listeners in Salem last night were surprised with an extremely familiar voice about 9:30 o'clock from station KGO of the General Electric company at Oakland, the same voice belonging to Colonel E. Hofer, well known Salem citizen, former owner of The Capital Journal, candidate for governor, editor of the Oregon Manufacturer and of the Lariat, magazine of western verse and literature.

It was as editor of the Lariat that Colonel Hofer was introduced to his radio audience, and his subject was the effect of radio in literary standards. The gist of his talk was to the effect that the radio, having fireside groups as its audience, must always retain the highest standards, and as a result would tend to wipe out the jaundiced in literature and get us back to the cleanness of the classics. The colonel had some difficulty in reading his paper, which he attributed to poor light in the studio.

We have made special provision to care for your ADJUSTED COMPENSATION CERTIFICATES in our vaults—free of charge. It is very important that these certificates should be guarded as so much cash, because they have a definite maturity and will convert into cash, as any other government obligation.

Do not become careless and treat this security as you would some half-baked stock certificate. It represents a bond to you.

We also take this occasion to urge all veterans who have not made application for their adjusted compensation to do so at once.
